**Genacol®** makes me feel so good!

# Genacol®

## LIMITED BY JOINT PAIN?

### Try Genacol®! A natural solution to reduce joint pain.

Collagen is the most important structural protein of the body. It mainly composes the joint structure and collagen decrease is a prominent factor in chronic joint pain.

It is scientifically proven by three clinical studies that Genacol® exclusive AminoLock® Collagen supplies the necessary building blocks to regenerate collagen in cartilage, tendons and ligaments. It also keeps the joint structure healthy without causing any side effects. As your joints are healthier, pain associated with osteoarthritis decreases.

### A UNIQUE COLLAGEN PEPTIDE

AminoLock® Collagen is manufactured using Genacol®'s proprietary and patent-pending manufacturing process: AminoLock® Sequence Technology.

Through this improved enzymatic hydrolysis, we made it possible to obtain collagen at less than 1 kilodalton (kDa), the lowest molecular weight in the world for superior absorption.

### Try Genacol® today and feel the difference!
