Crafty Cinders™

MAKE YOUR OWN CINDERELLA PASSPORT

A simple, low-cost way to join the Crafty Cinders Cinderella journey

You don't need to print the colourful passport!

Children can make and design their very own Cinderella Passport using paper and things they already have at home. It does not need to look like anybody else's - that is part of the fun!

What you can use

- A few sheets of plain, coloured or reused paper
- A pencil or pen
- Crayons, colouring pencils or felt-tip pens, if you have them
- A stapler, sticky tape, string or ribbon to hold the pages together
- Anything you already have for decorating - stickers, scraps of paper, old magazines or wrapping paper

1. Make your little passport

Fold a few sheets of paper in half to make a small book. Ask a grown-up to help you fasten the pages together.

2. Design your front cover

Write:

MY CINDERELLA PASSPORT

My Journey Around the World

Now make it your own. You could draw a globe, castle, suitcase, books, crown, magical shoe - or invent something completely different.

3. Make your 'This Passport Belongs To' page

Write these headings and fill them in:

- My name: _____
- My age: _____
- I live in: _____
- My favourite story: _____
- My explorer signature: _____

Leave a space to draw a picture of yourself.

4. Make a page for every Cinderella adventure

Each time you watch a Crafty Cinders Cinderella adventure, start a fresh page. Write:

- Country
- Name of the Cinderella story
- One interesting thing you discovered
- The date you visited the country with Crafty Cinders
- Your own passport stamp

Decorate each country page however you like. You might draw its flag, a landmark, an object from the story, food, animals or anything else you learned about.

5. Design your own passport stamps

Draw a different stamp for each country. It could be round, square, shaped like a heart or completely invented by you. Add the country name and tick it when your visit is complete.

6. Become a Cinderella Story Detective

Can you discover a Cinderella-type story that Crafty Cinders has not visited yet? Ask a grown-up to help you research safely, then make a special discovery page.

- Country: _____
- Story name: _____
- What happens in the story?
- What did I learn?
- Draw something from the story.
- Create a brand-new passport stamp.

Most important of all...

There is no right or wrong way to make your Cinderella Passport.
Use your imagination, make mistakes, change things, add pages and make it completely YOURS!

Keep exploring • Keep creating • Keep being kind
