

Eastside Property Solutions, LLC

To whom this concern,

Dan Lindsey has requested I provide an industry and character reference for you regarding his candidacy for employment.

I met Dan while we worked together at Eastside Glass as project managers. I immediately noticed his passion and energy for the glass industry. He has great attention for detail, and excellent glazing and hardware knowledge. He is an asset to his customers and his team members.

I feel Dan's customer service goes above and beyond many of his peers. His clients appreciate that he fully communicates the details of his projects and keeps them informed of all pertinent information.

While working with Dan I valued his team spirit and expertise with AutoCAD. He skillfully completed many shop drawings for my projects. I frequently turned to Dan for brainstorming sessions to creatively solve problems. He never hesitates to lend his time or knowledge to his coworkers.

Aside from getting to know Dan professionally over the past several years, he has become one of my close personal friends. He is an honest and loyal person. Dan is not afraid to explore new things and take on new challenges. Together we have spent many hours snowboarding, hiking, and camping. He has become an extension of our family.

Please feel free to contact me directly if you have any further questions about Dan either personally or professionally.

Sincerely,

Mike Carmona
