

Laura Green

Jonesboro Community Liaison

Laura was born in Mexico but was raised in the heart of Jonesboro Arkansas since a young girl. She has experience in pharmacy tech and tax preparation. She currently works as an account executive where she oversees more than \$ 4 million in client revenues. She has a passion for improving the health outcomes within her demographic.

Laura strives to reach the Hispanic community through partnerships and engagement. She hopes to bring awareness to her community by making them aware of resources available other than use of hospitals. Through fundraising and volunteering to be an advocate of change, Laura looks forward to helping the Hispanic community expand their knowledge of healthcare programs that are available and further educate them on how to live a healthier life.
