SOLUTIONS

Our innovative software and applications are designed to enhance every aspect of your document environment throughout the document and device lifecycle. Whether you need to boost productivity, streamline your workflow, control costs, facilitate mobile and flexible working or enhance document security, we have a solution for your organisation

DEVICE MANAGEMENT

Our Device Management solutions help you to save time and reduce costs through an enhanced integrated control of MFPs and printers. It provides print fleet information, including device status for a mixed fleet, in a simple user interface. It helps in real time monitoring of service delivery. This solution helps reduce the challenges on customers' business processes and due to malfunctioning machines or missing supplies. Following are the category of solutions help to control device management.
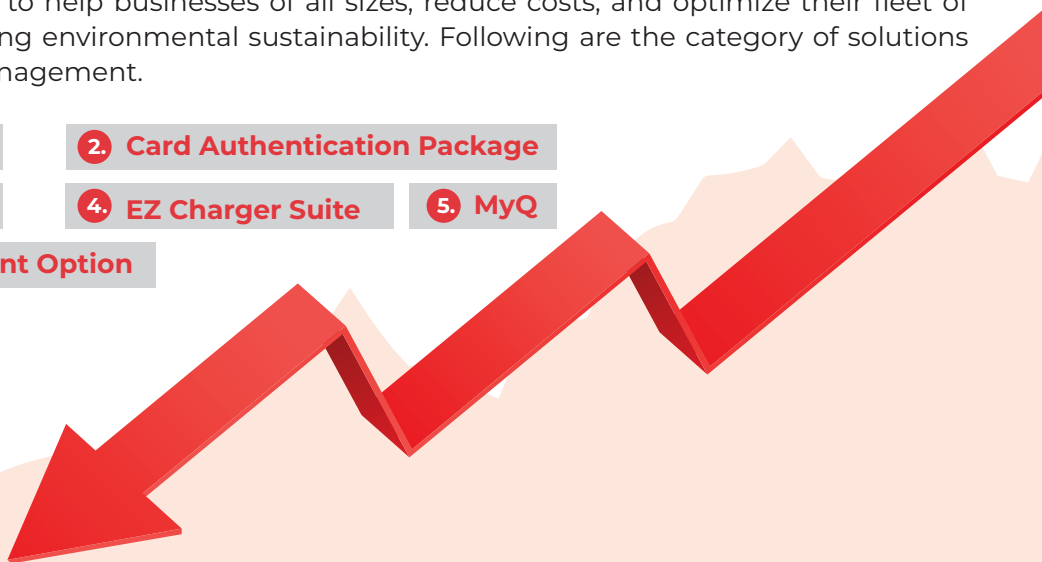

1. **@Remote**
2. **Device Manager NX Accounting**
3. **Device Manager NX Lite**
4. **Streamline NX V3**
5. **MyQ**

COST MANAGEMENT AND SECURITY

Organizations are constantly seeking new ways to trim costs and increase their bottom line. Our cost management and security solutions help customers to control the cost. We offer powerful output management solutions, intended to help businesses of all sizes, reduce costs, and optimize their fleet of printers and MFPs while supporting environmental sustainability. Following are the category of solutions help to control Security & Cost management.

1. **Enhanced Locked Print NX**
2. **Card Authentication Package**
3. **Kofax Control Suite**
4. **EZ Charger Suite**
5. **MyQ**
6. **Streamline NX V3 Secure Print Option**

MOBILE PRINT AND CAPTURE

Our Mobile Printing solutions help your devices and MFPs communicate, so there's no need for tedious workarounds, specific drivers, or network access. Built-in security helps protect your information. Let users print how, where, and when they want, to keep productivity up. Release and send print jobs on the move or initiate scanning workflows with mobile scanning. You can also perform every task via the same user interface whether from the multifunction printer (MFP) or from your personal mobile device. Following are the category of solutions help to control Mobile Printing.

1. **Smart Device Connector**
2. **Kofax Control Suite**
3. **Streamline NX V3 Mobile Support**
4. **MyQ**
5. **HotSpot Printing**
6. **Mobile PrintScan**

WORKFLOW & PROCESS MANAGEMENT

Our document management software can help you boost productivity and make the transition to leaner, less paper-intensive work processes. Whether you need to digitize, index and archive your documents or more easily share files among teams, our software will enhance your processes and help unlock the full potential of your print devices. Following are the category of solutions help to control Work flow & process management.

1. **Host Printing Translator**
2. **Set Numbering**
3. **Kofax Control Suite**
4. **Streamline NX V3 Scan and Capture Option**

We Keep
YOUR BUSINESS
Always On The Go......

- A large team of direct service engineers & wide pan-india partner network.
- Auto alert about technical issues & to ensure toner replenishment.
- Service team armed with real-time ERP data via iPad.
- Flexible service options- covering maintenance, toner, parts & paper.
- A team of dedicated professionals available through Monday- Friday from 9am to 6pm and 10am - 2pm on Saturdays.
