My son has leveled up! When he first joined the program he was in the 2nd semester of the 1st grade but on a kindergarten 1 level. He was undiagnosed but also had dysgraphia and dyslexia. Now almost a year later he's almost on grade level; All thanks to Levul Up! They have not only provided a great learning experience but they have also worked on social skills as well. – Sheppard 12/2018

These Goals Are Reached by: *Levul Up* allows students the opportunities to practice and review assignments as well as assess students to determine the areas of need and strength, and helping the student review and preview classroom material, as needed.

Levul Up will maintain every child's results confidential.

Levul Up will maintain a caring and positive environment that will lead to a *levulup* unique learning for every individual. Students will build a confidence for learning that will improve your child's learning endlessly.
