## **Meet Some of Our Professionals**

In 2023 JW Jennings began HHH with the intention of giving the highest quality medical care, using alternative holistic methods and therapies that are the most effective, more natural, less aggressive, and patient-focused.

We hire numerous doctors with different skill levels depending on the needs of the patient.

Our Doctors list attracted many patients and other doctors where reviewed and were first hired by the owner JW Jennings for early detection of Cancer/Heart Disease and Other Diseases. Once there was any reason for concern, the patient would be placed on a regimen of no food or water for three days, Alkaline Water when needed, then on vitamins, minerals, and therapies to begin the healing or curing process. All patients would be given the same natural processes to ensure a healthy immune system. The doctors then began reading the diagnosis to establish exactly what is needed with our system. Getting the Immune System to a top tier condition is priority one.

Our Doctors saw the enormous potential and effectiveness of alternative therapies and natural treatments. In their more than twenty years of experience, they have helped over five thousand patients. Our Doctors have found that in many cases alternative Cancer/Heart Disease therapies have higher success and survival rates than conventional Chemotherapy and Radiation.

Our Doctors have traveled to several countries to study and receive early detection training, and has made it his life's work to research alternative, holistic Cancer/Heart Disease and Other Diseases therapy options and provide more effective, natural treatment programs to his patients.

Our Doctors plan to continue to expand Holistic Health Hospital to reach and help more people who can benefit from alternative Cancer/Heart Disease treatments and natural, integrative therapies for other diseases. We work with several oncologists, and want to help all people in Mexico and the United States with their Cancer/Heart Disease and other needs. It is their dream to provide all people to fight and overcome the many diseases that people overcome. Their happiness shows when they are Cancer/Heart Disease free.
