

Gym & Sports Essentials

COMPANY PROFILE

Induday Global is engaged in the manufacturing and trading of Sports & Fitness Supplements. We offer formulations in various dosage forms such as capsules, tablets, powders, liquid orals, gels, soft gelatin capsules. Induday Global also has the facilities to manufacture Nutraceuticals, Ayurvedic, Cosmetics, Veterinary formulations.

Why Choose Us

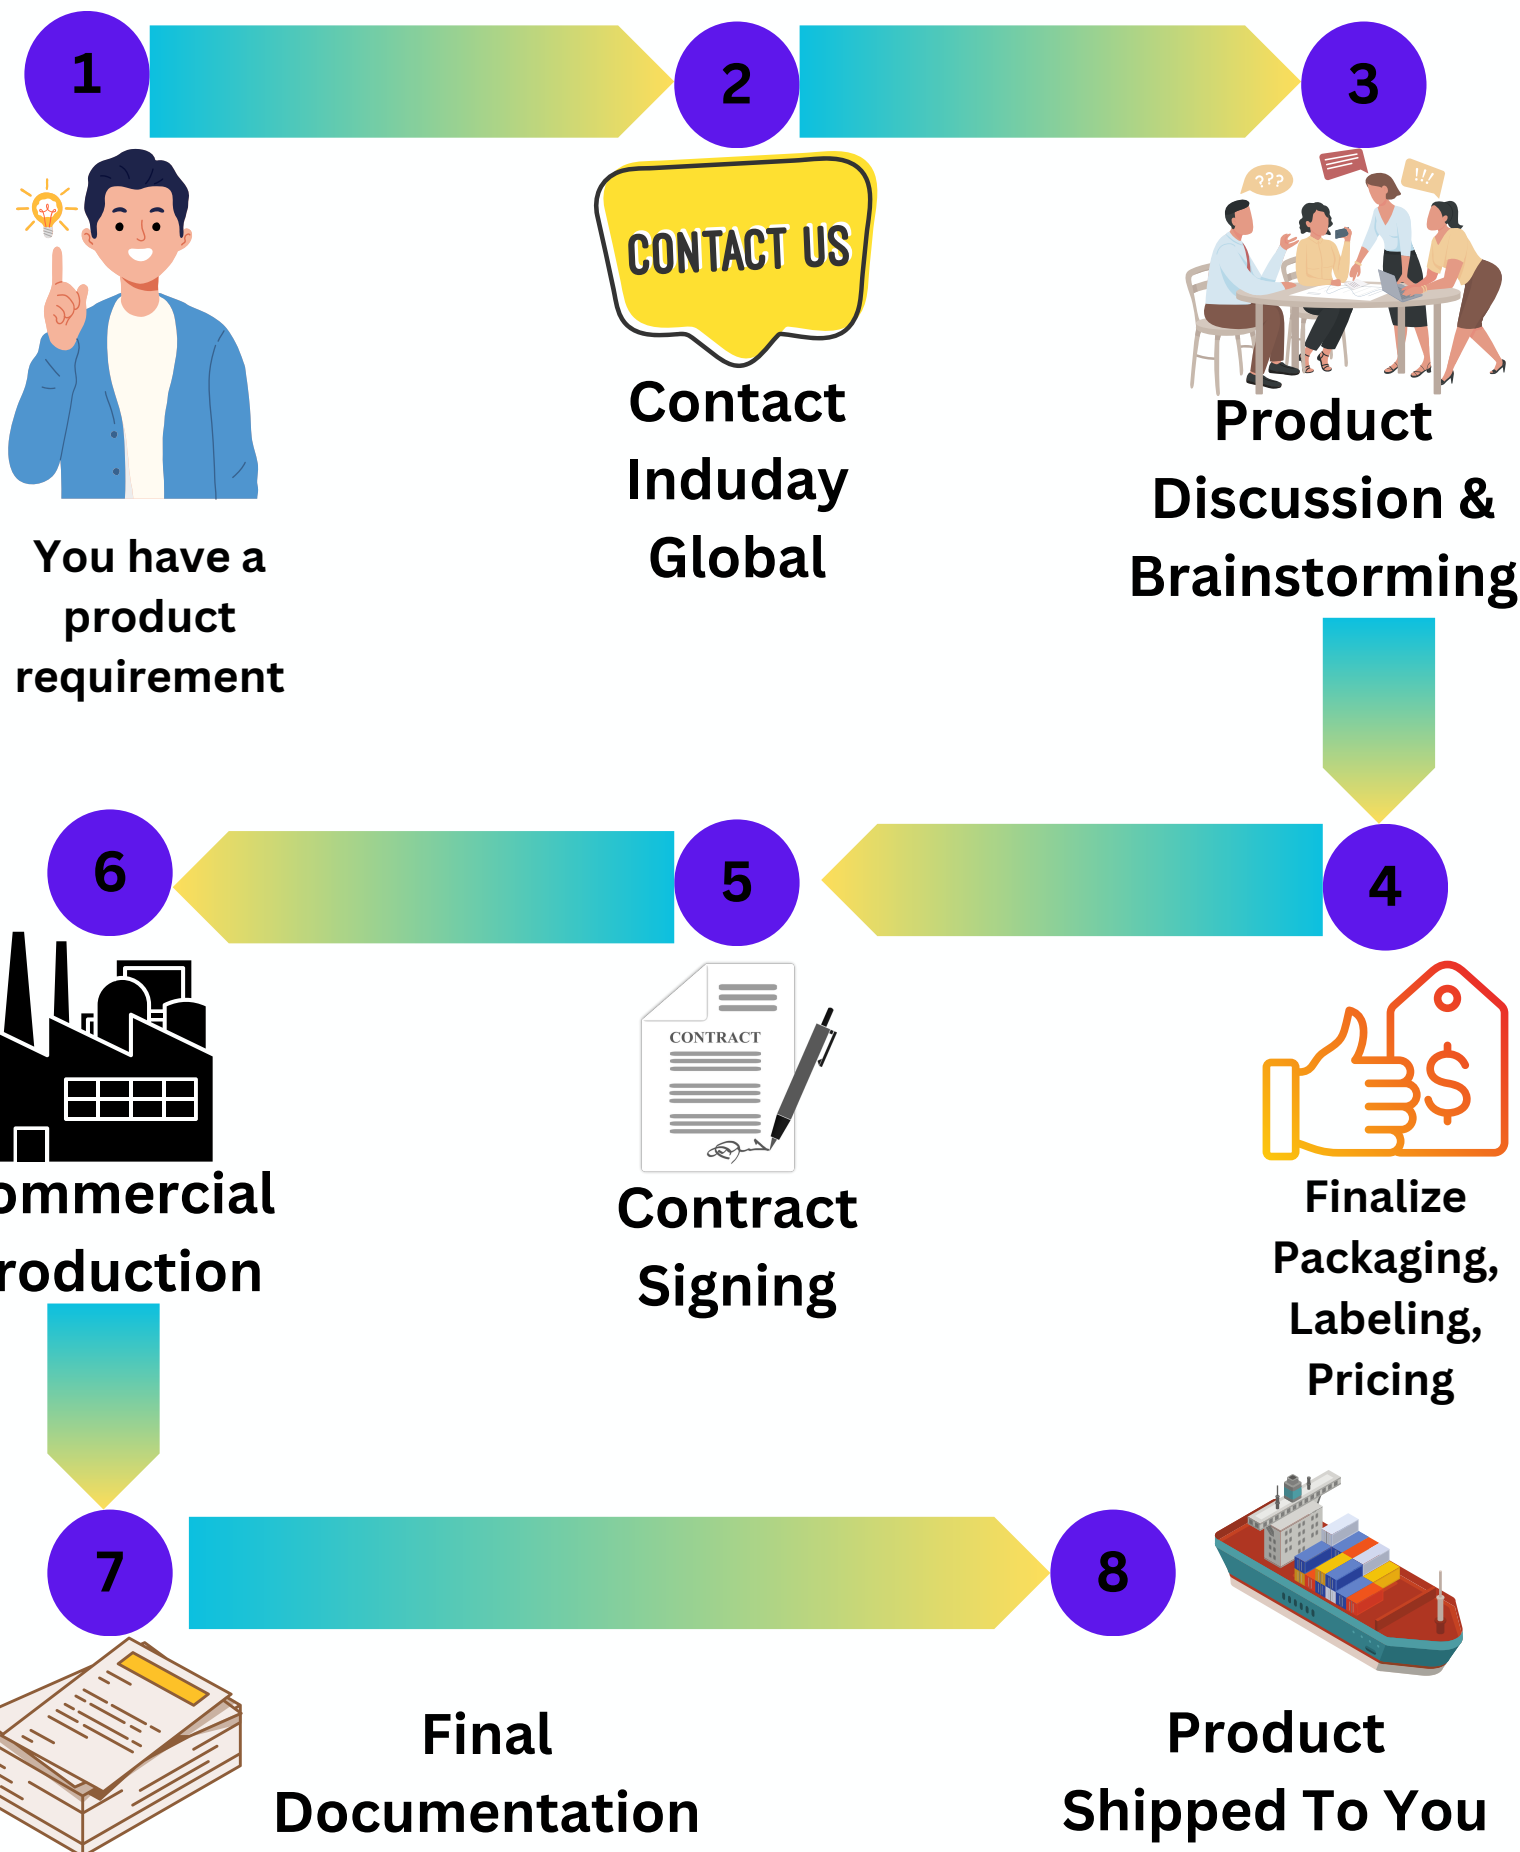

Quality: Induday Global is committed towards furnishing superior quality products. Every stage is minutely scanned by a team of quality control experts with the help of an integrated well equipped quality control laboratory.

Infrastructure: All products are manufactured a modern state of art production facility to produce efficient and quality products.

Team: With our professional and qualified skilled staff, Induday Global can produce, deliver the products with utmost efficiency. Our marketing team has good distribution, retail professional network to maintain satisfactory professional relationship.

HOW WE WORK

100% WHEY PROTEIN

Whey Protein has the highest biological value and essential amino acids and BCAA's content. It quickly activates and improves muscle metabolism, helps to maintain lean muscle mass.

Induday Global can offer a wide range of different formula with different concentration of Whey Protein Isolate as well as Concentrate.

One can modify formula scientifically by adding extra amount of Amino Acids, Herbs, Creatine etc. Various forms of Whey Protein can be used like

WHEY PROTEIN ISOLATE

WHEY PROTEIN CONCENTRATE

WHEY CASEINATE

WHEY HYDROLYSATE & OTHERS

WHEY PROTEIN FUSSION

Whey Protein combined with 7-8 types of protein source to achieve the required protein content. With its balanced ratio of protein and carbs it beomes an ideal body builders, power endurance athletes and weight lifters.

WHEY PROTEIN ISOLATE

Whey Protein isolate is the best source of protein which is also preferred by people with lactose intolerance. It is easy to digest, low in fat and sugar, great biological value, pure and instantaneous protein.

MICELLAR CASEIN

(SLOW ACTION PROTEIN)

Micellar protein is released gradually in the blood stream & can last up to 7 hours after intake. Ideal protein to take before going to bed. It is ideal product for men & women in sports who wish to increase their lean muscle mass.

WOMEN'S PROTEIN

Keeping in mind women's health various formula can be developed with various ingredients which are suitable for female athletes and women who workout. Combination of Whey Protein with effective herbs beneficial for women's health can be formulated.

EGG & WHEY

Ideal blend of nature's two best source of protein, Albumin and Whey concentrate. Fast absorbing Whey and long acting albumin helps to maintain and build muscle mass.

Induday Global can develop plain egg protein supplement with good taste.

DIET PROTEIN

Induday Global can formulate product with a blend of dietary fiber (soluble & insoluble) with various protein to provide adequate nutrition to athletes undergoing weight control programs. Also, various ingredients with thermogenic effects can be added in the formula.

WEIGHT GAINER

Induday Global can offer various weight gaining formulas with 1:4 ratio, 1:5 ratio, 1:6 ratio etc.

Also, we can formulate high calorie formula using premium protein source, complex carbs and fat powders to achieve best possible results.

MASS GAINER

Induday Global can offer various lean mass gaining formulas with 1:1 ratio, 1:2 ratio, 1:3 ratio etc.

Various ingredients like L-creatine, L-Glutamine, BCAA, other ingredients & herbs can be added in the formula.

FAT POWDER

(XTRA CALORIES)

Calorie intake is important for weight gain and the maximum calories are achieved from fat source.

Induday Global can provide single or in combination of various fat powder like MCT, corn fat, other vegetable fats, etc. which can be taken alone or can be added to weight gainer powder to achieve the extra calories.

CARB LOADER

Induday Global can provide premium quality simple and complex carbohydrates combination to increase calorie intake for weight gaining.

Low glycemic index carbohydrates can be formulated to avoid peak.

100% WAXYMAIZE (XTRA CALORIES)

Induday Global can produce a unique carbohydrate based product derived from corn starch which is ideal for sportsmen and women with high energy demand.

It replenishes glycogen level quickly and effectively which can improve muscle pumping. Due to its high molecular weight it is used as a sustained source of energy which prevents it turning into fat.

WEIGHT GAINING LIQUID

Induday Global has developed stable liquid carbohydrate supplement which can provide high calories. It is convenient with good taste. Certain ingredients and herbs can be added in small quantities. Single serving packs can be manufactured.

PROTEIN WITH REAL FRUITS

To add value to the products Induday Global has various spray dried fruits which can be added to any sports, gym supplements like whey, weight gainers, mass gainers etc.

Addition of natural fruits can increase the feel and value of the product.

WEIGHT GAIN

SUPPORT CAPSULES

Formula with good nutra ingredients and herbs can be offered to increase digestion and uptake of food. Ingredients which support gut health can be added.

PRE-WORKOUTS

Induday Global can offer various combination of supplements which can assist in increasing nitric oxide concentraion. Supplements like these will increase explosive strength, increase muscular pumping, increase endurance, improves muscle recovery. Induday Global can use wide range of ingredients as per recommended guidelines for maximum benefits.

POST WORKOUT

Muscle recovery and gaining cellular energy is key. Combining various ingredients like L-Glutamine, BCAA, other ingredients can assist in reducing muscle loss.

INTRA WORKOUT

Combination of amino acids with nitric oxide boosters with glucose and electrolytes can be formulated. This helps to maintain nitric oxide concentration and helps to replenish the lost glucose and electrolyte concentration which in turn can reduce risk of cramps.

CREATINE MONOHYDRATE

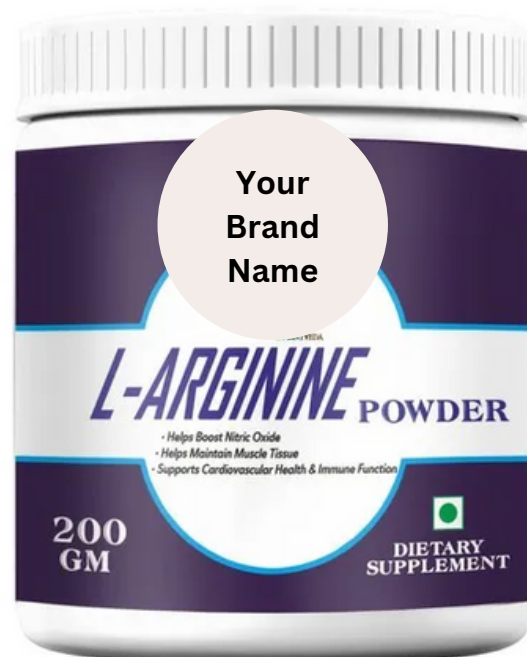

Induday Global can offer micronised creatine which provides energy for muscle contraction. It improves performance, power, muscle growth to carry out physical training.

L-ARGININE

POWDER/TABLET

L-Arginine is an essential amino acid and has vasodilation effect. L-Arginine is involved in synthesis of creatine, polyamides & DNA. It is also related to collagen and carnitine production.

100% pure L-Arginine powder or 2000mg tablet or Flavored L-Arginine powder or L-Arginine powder with Safed Musli powder can be manufactured by Induday Global.

D-RIBOSE

POWDER/LIQUID

Ribose is a naturally occurring substance used by every cell to synthesize and rebuild energy. It restores energy level to improve athletic performance. Induday Global can formulate D-Ribose powder and liquid (5g D-Ribose per serving). D-Ribose can be supplemented with Creatine to achieve better results (Creatine 4g + D-Ribose 1g per 5g unflavored)

L-GLUTAMINE

Glutamine levels during intense workouts prevents your muscle from being catabolized, helps maintain cell volume and hydration speeding up recovery.

Induday Global can offer 100% L-Glutamine powder, Flavored L-Glutamine powder or in combination with other ingredients.

CITRULLINE MALATE

Citrulline malate promotes Nitric Oxide production, helps facilitate increased flow of blood and nutrients to muscles, leading to better muscle growth. It aids in delaying muscle fatigue and builds endurance. Helps support muscle recovery and exercise intensity. Unflavored and flavored powder and liquid can be manufactured by Induday Global.

ISOTONIC

DRINK POWDER/LOZENGES

Induday Global can offer scientific formulation to hydrate and speed up recovery in sports persons and athletes. Electrolytes like sodium, potassium can be added to restore electrolyte balance. Can be fortified with ingredients like BCAA, L-Carnitine, L-Taurine and L-Glutamine. Various excellent flavors can be manufactured.

BCAA

CAPSULES/POWDER

Helps to supply energy to muscle
Supports muscle protein synthesis
Improves recovery
Boosts endurance

Induday Global Can offer instant as well as normal BCAA formulation.

LIPOTROPIC FAT BURNER

CAPSULES/SOFTGEL

It does not contain caffeine or similar ingredients. Lipotropic supplements generally contain L-Carnitine, HCA, Choline, CLA as key ingredients.

Suggested combinations are with L-Carnitine, Choline, Inositol, L-Taurine, Betain, CLA, Garcinia Cambogia, DL-Methionine, Vitamin B6

FAT BURNER

**CAPSULES/SOFTGEL/LIQUID
DRINK/POWDER**

It contains caffeine or similar ingredients. Fat burner supplements generally contains L-Carnitine, HCA, Choline, CLA as key ingredients.

Suggested combinations are with L-Carnitine, Choline, Inositol, L-Taurine, Betain, CLA, Garcinia Cambogia, DL-Methionine, Vitamin B6

CGT

CAPSULES/POWDER

CGT contains Creatine, Glutamine and Taurine. It improves muscle pump, increases strength and power, stimulates growth hormones, improves muscle recovery. Taurine is powerful energizer which helps to increase endurance. Glutamine helps in cell hydration and recovery. Creatine helps in delaying fatigue and increases muscle pump.

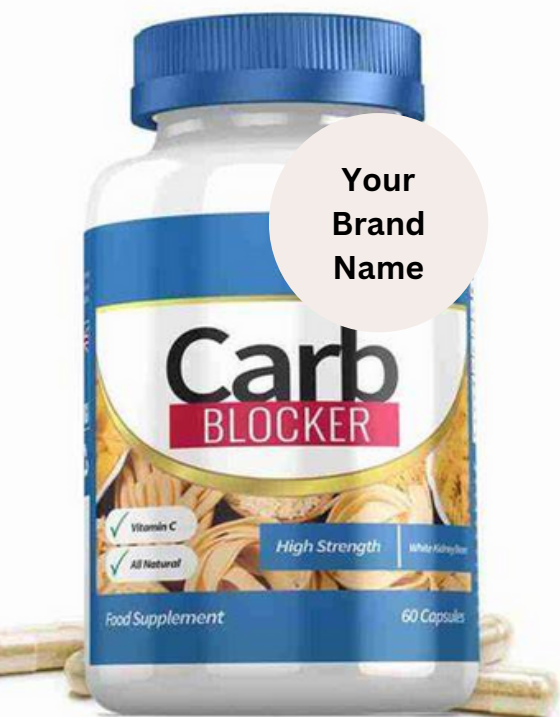

CARB BLOCKER

CAPSULES

The main purpose of this supplement is to block carbohydrate intake. It contains Phaseolus Vulgaris that is potent carb blocker and also reduces digestion time.

Typical Carb Blocker contains following ingredients: Phaseolus Vulgaris, Chromium, HCA, Cinnamon Extract, L-Carnitine, Piperine etc.

GARCINIA CAMBOGIA

CAPSULES/TABLET/LIQUID

Garcinia is rich in HCA (Hydro Citric Acid). HCA inhibits and reduces the formation of fatty acid from carbohydrates, blocking the accumulation of fatty acid in adipose tissue. It helps to metabolize sugars reducing conversion of carbs into fats, thus allowing a reduction in body weight. It reduces cholesterol in blood stream. It also has antioxidant properties due to high vitamin C content.

CLA

CAPSULES

It is essential fatty acid that is produced from linolenic acids. CLA is a nutrient that is used for weight control. It reduces body fat, increases muscle mass, sculpts body shape, reduces cholesterol and triglyceride levels in blood and strengthens the immune system.

Induday Global can manufacture CLA or Safflower oil softgel in strengths of 740mg or 1000mg or as per client requirements.

L-CARNITINE

(BASE OR AS TARTARATE) CAPSULES/TABLET/LIQUID

It is naturally produced in liver from L-Methionine and L-Lysine. It metabolizes fat and transports it to mitochondria for its subsequent use as a source of energy. It normalizes triglyceride levels in blood and allows sportsmen and women to carry longer intensive training sessions by increasing their energy levels. It also aids in protein synthesis, therefore promoting the development of muscle mass.

AMINO ACID

CAPSULES/POWDER/LIQUID

Induday Global can formulate supplements of high concentration of pure amino acids. Amino acids are important for physical performance at sporting level, since its intake is vital for achieving an increase in muscle mass. Amino acids promotes growth hormone which leads to an improvement in muscle hypertrophy. Amino acids are considered the building blocks for muscles since they play significant role in developing muscle mass.

BETA ALANINE

CAPSULES/POWDER/LIQUID

Beta-Alanine increases carnosine that plays a part in preventing fatigue and release in the body makes muscles more resistant to effort and delays the onset of fatigues. It also curbs the effect of lactic acid on muscle performance, Supports muscular endurance, helps delay muscle fatigue.

ZMA

Combination of Zinc, Magnesium and Vitamin B6 with a very high anabolic power that raises the levels of testosterone in a natural safe way. Promotes the increase of testosterone and IGF-1 level which aids muscular hypertrophy, consequently increasing strength and lean mass. ZMA is also a good antioxidant. It helps to increase endurance, healing, growth and restful sleep.

TESTOSTERONE BOOSTER

CAPSULES/TABLET/LIQUID

Wide variety of nutra ingredients and herbs can be used. Nitric oxide boosters such as L-Arginine, Citrulin, Tribulus, Chlorophytum Borivilianum, fenugreek, Ginkgo Biloba, Mucuna Pruriens, Ginseng, Ashwagandha etc can be used. It helps in increasing testosterone level in body and thus helps to increase the capacity and endurance of workouts.

PRO-TESTOSTERONE

CAPSULES/TABLET/LIQUID

It is unique blend of herbs which acts by inhibiting the conversion and production of oestrogens and boosts the production of male hormones. Ingredients such as Quercetin, Betasitosterol, Lignans, Phytosterols, Carotenoids, Phenols, Benzenoids etc act as a natural testosterone booster.

Pro-Testosterone also contains ZMA which boosts testosterone levels which helps in muscle hypertrophy and resulting in increase of strength and lean muscle mass.

L-TRYPTOPHAN

CAPSULES

Tryptophan is an essential amino acid. The most important function is in promoting the release of neurotransmitter serotonin which is necessary for regulating sleep. It acts as natural relaxant, improves post training recovery, improves muscle relaxation, promotes a positive state of mind. 1000mg (2 capsules is recommended)

L-TYROSINE

CAPSULES

L-Tyrosine acts as a precursor of different hormones and neurotransmitters essential for fat burning and promoting the loss of adipose tissue or body fat in natural way. It acts as appetite suppressant, improves circulation, increases energy and facilitates fat metabolism. Recommended dose 500mg.

L-TAURINE

CAPSULES

L-Taurine is non essential amino acid which participates in various metabolic processes, it speeds up regeneration, supports muscle growth, strengthens and supports nervous system. Recommended dose 100mg.

ANTI-CRAMP

RECOVERY POWDER/CAPSULES

Contains ingredients which supports recovery and reduces cramps after workout. Contains ingredients like Recovery matrix, Antilactic acid ingredients, Phosphomatrix, L-Carnitine, Vitamin E etc. Reduces muscular catabolism, accelerates muscle fibre regeneration, helps reduce recovery time.

DIURETIC COMPLEX

CAPSULES

Diuretic Complex helps to eliminate excess liquid and fat.

Contains natural plant based complex
Enhances the balance of liquids.

TRIBULUS

CAPSULES

Tribulus Terrestris is a powerful plant that increases testosterone levels. It contains phytosteroids, flavonoids, glycosides, alkaloids and saponins. Promotes nitrogen synthesis which helps to increase power and muscle mass growth. Supports recovery of muscle fibre after intensive training

DETOX CAPSULES

Induday Global can formulate unique complex of herbs and vitamins specially designed and formulated to cleanse and protect the liver. Detox formulas protect from free radicals and toxins. Supports hepatic function of liver cells. Ingredients like Alfa Alfa, Grape seed, Alpha Lipoic Acid, L-Ornithine, Silymarin, L-Taurine, Antioxidants, Vitamins, other amino acids can be used.

ENZYME COMPLEX

CAPSULES

Induday Global can Formulate digestive enzyme complex that contains all the spectrum of necessary enzymes that helps to improve digestion and absorption of necessary nutrients for a healthy digestive function. Enzymes like Protease (to digest proteins), Amylase (To digest carbohydrates), Lipase (to digest lipids), Lactase (to digest lactose) Or other enzymes like Cellulase can be used.

CO-ENZYME Q10

Powerful Antioxidant and removes free radicals. It helps to stabilize cellular membrane, helps generate ATP. Also used as anti aging substance and protect LDL (good cholesterol)

MULTIVITAMINS, MULTIMINERALS & ANTIOXIDANT

CAPSULES/POWDER/LIQUID

Useful for general well being. Formula can be designed as per male and female requirements. Wide range of natural ingredients can be used to make a perfect combination. Wide range of antioxidants like Vitamin C, Vitamin E, Green tea, grape seed, Resveratrol etc. can be used. Combination or particular ingredient formula can be made.

CALCIUM

TABLETS

Calcium combination with Vitamin D, Zinc and Magnesium can be made. Calcium acts actively in muscular functions. Promotes stronger bones.

JOINT CARE

TABLETS/POWDER

Induday Global can provide wide range of ingredients which can support healthy joints. Ingredients like Glucosamine, Collagen, Boswellia, Chondroitin, Rose Hip, Curcumin, Skullcap, Celery, Vitamin K27 etc, can be used. Joint care ingredients can be added to various other supplements like Whey and Mass Gainer for value additions.

ENERGY GEL

Induday Global manufactures gel which can provide energy instantly. It helps to improve physical performance and recovery. The advanced carbohydrate blend in the form of maltodextrin and fructose can provide quick and long lasting energy to maintain glucose levels. Electrolytes blend optimizes loss of electrolytes and prevents muscle cramps. Good tangy taste can be developed.

ATP ENERGY

CAPSULES/LIQUID

Formula which supports ATP energy production can be made. Ingredients such as D-Ribose, Coenzyme Q10, Tea Complexes, Minerals etc, can be used. Useful in muscle function and exercise recovery. Increases overall energy and reduces fatigue. Boosts blood flow to leg and other extremities.

MUSCLE OXYGEN

CAPSULES

Composition which supports maximum transport of oxygen to muscles. Helps to reduce fatigue and achieve optimal physical performance. It also strengthens immune system.

SLEEP SUPPORT

CAPSULES

Induday Global can develop formula which can support good sleep. Reduces stress and is non habit forming supplements. Ideal blend of melatonin precursors along with good herbs like valerian, lemon balm, hops, L-theanine etc. can be used.

CORTISOL BLOCKERS

SOFTGEL/CAPSULES

Formulations which helps to control Cortisol secretion which is undesirable hormone. Cortisol is produced by adrenal gland in state of stress, taking excess caffeine, very intense exercise, state of anxiety etc. Unique composition of phosphatidylserine, amino acids and certain herbs can make a good composition to counter Cortisol release.

pH REGULATOR

CAPSULES

This products purpose is to maintain body's normal acid-base balance. Combination of herbal and mineral complex can help to maintain an alkaline state with all health benefits that it entails. Body's acidity may increase due to many reasons like unhealthy diets, diet plans, softdrinks, supplements intake etc. and to counter this body uses its alkaline minerals. Some of the effect of acidosis can be lean muscles, reduce L- Glutamine stores, Osteoporosis etc.

ANABOLIC POWER

CAPSULES

An excellent combination of various herbs which promotes muscular growth, stimulate the growth hormones. Combinations like Tribulus Terristeris, Mucina Pruriens, Avena Sativa, Ginseng, Gamma Oryzanol etc. which is effective in increasing strength, powerand physical performance, muscle pumping and lean muscle mass.

COLLAGEN

CAPSULES/POWDER

Collagen is a type of protein very abundant in our body. Intense and prolonged physical activity will wear down collagen. Contributes to improve recovery of joints, tendons and ligament preservation. Marine collagen and Bovine collagen both are available with Induday Global. Combining with magnesium, calcium, manganese, vitamin D3, vitamin C produces good antioxidant effect that improves cell hydration, reduces muscle cramps and joint preservation due to wear.

HAIR, NAIL, SKIN

CAPSULES/TABLETS

Induday Global can develop products which can be used in assistance with supplements to having cosmeceuticals effect. Ingredients such as Glutathione, Collagen Peptides, Evening Primrose Oil, Biotin, Amino acids, Coenzyme Q10, various herbs can be used to make good combination which have positive effect on hair, nail and skin.

PROTEIN

LIQUID

Contains 5g to 10g protein in one serving. Low calorie protein drink.

Contains L-Taurine, L-Carnitine, and Panax Ginseng extract.

Will be offered in Aluminium cans.

GH STIMULANT

CAPSULES

Induday Global can develop good composition which can stimulate Growth Hormone (GH). It contains L-Arginine & L-Ornithine in 2:1 ratio which efficiently metabolize protein and also act as a precursor of creatine. Helps to eliminate toxins.

GAMMA ORYZANOL

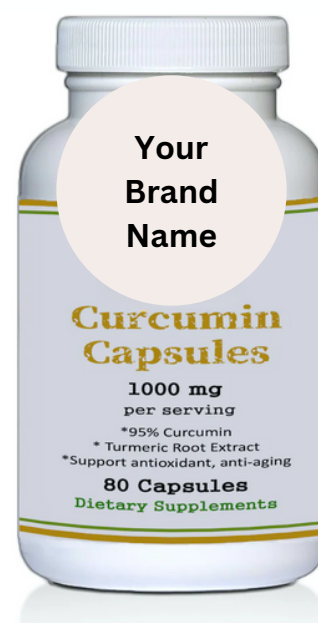

CAPSULES

Gamma Oryzanol increases muscle growth as it raises testosterone levels, the growth hormone and other anabolic hormones. It increases lean muscle mass and strength. Improves post training recovery and reduces body fat. Powerful antioxidant. Recommended dosage: 300mg

CURCUMIN

CAPSULES

Helps to maintain healthy liver. Powerful antioxidant that can help protect cells from free radical damage. Powerful anti-inflammatory.

AMINO ACID

CAPSULES/POWDER/DRINK

Induday Global can formulate supplements of high concentration of pure amino acids. Amino acids are important for physical performance at sporting level, since its intake is vital for achieving an increase in muscle mass. Amino acids promotes growth hormone which leads to an improvement in muscle hypertrophy. Amino acids are considered the building brick for muscle since they play significant role in developing muscle mass.

FLAXSEED

CAPSULES/VEG. LIQUID FILL

Supplementation with flaxseed extract provides support for the immune system and promotes healthy skin, hair and nails. Flaxseed is a natural source of alpha-linolenic acid (ALA), an omega-3 fatty acid that promotes heart health along with a healthy diet. May help support cardiovascular health. No fillers, binders.

OMEGA 3 FISH OIL

Helps to lower triglycerides in blood. Has vasodilator effect that protects from cardiovascular illness. Lowers cholestrol levels. Rich in EPA & DHA. Can be combined with Omega-6 & Omega-9.

KRILL OIL

CAPSULES

Contains Omega-3 (EPA, DHA) in phospholipid form includes Astaxanthin (powerful antioxidants). Provides pure & best form of Omega-3 supplements. Can be combined with Omega-6 & Omega-9.

MIX FIBER

POWDER

Contains blend of high quality soluble & insoluble fibers like Wheat Dextrin, Isapghol, Oats, Inulin & FOS. Flavored & unflavored blend can be added to any other supplements. Effective in supporting normal gastrointestinal health. Probiotic strains can be added with fiber like Inulin & FOS which acts as Prebiotic.

LIQUID SHOTS

Induday Global can formulate wide range of liquid shots which can deliver accurate and complete amount of nutrients in single dose. Its easy to carry and convenient to have. Good flavors can be developed. Attractive packaging can be done.

LIQUID CANS

Various formula with single dose can be made. Advantage of this form is that more concentrations of ingredients can be delivered. Good tasting liquids with stylish packaging can be made.

VARIOUS SHOTS/CANS WHICH WE HAVE DEVELOPED ARE AS FOLLOWS

- A) Magnesium Shots
- B) Preworkout Shots
- C) Beta-Alanine Shots
- D) Citruline Malate Shots
- E) Testobooster Shots
- F) Amino Acids Shots
- G) L-Taurine Shots
- H) Fatburner Shots
- I) Antioxidants Shots
- J) Fruit Extract Shots
- & many more

LIQUID CONCENTRATES

Induday Global can formulate various liquid concentrates which can be taken daily after normal water dilutions

Various liquid concentrates which we can manufacture are as below:

- a) L-Carnitine concentrates
- b) Vitamins & Minerals concentrates
- c) BCAA concentrates
- d) Pre-workout concentrates
- e) Amino acid concentrates
- f) Fruit extract concentrates
- g) Testosterone Booster concentrates
- h) Fibre concentrates
- i) Various herbal concentrates

SUBLINGUAL SPRAY

Various ingredients such as Vitamin D3, Coenzyme Q10, Folic Acid, Multivitamin, Mineral, Amino Acids, Weight Loss Ingredients & many more can be developed in this form. Sublingual sprays are 9 times better than oral pills/capsules. Higher absorption & bioavailability, direct systemic absorption. To be sprayed in buccal cavity or below the tongue.

PROTEIN BARS

Available bar formulas:

- a) High Protein Bars
- b) Economic Protein Bars
- c) Energy Bars
- d) Super Food Bars
- e) Moringa Bars
- f) Granola Bars
- g) Enriched with Fibre

All products can be manufactured under your brand name.

PROTEIN BITES

Protein Energy Bites
Healthy & Natural snacking

MULTIGRAIN PROTEIN COOKIES

Perfect energy source with a combination of fast acting natural carbohydrates & protein. Provides an instant supply of energy, replenishes glycogen levels and quickly satisfies hunger. Gluten free, Non GMO, contains Whey Protein, milk solids along with 12 grains like corn, millet, sorghum, amaranth, chick pea, rice, soy, oats, barley, semolina, flaxseeds, pea. Contains 5% fibre. Excellent nutrition source providing 20% protein. Available in 60g packing

PROTEIN HERBAL CHYVANPRASH

Whey Protein based Chyvanprash can be made, can be enriched with fibres, amino acids, contains natural herbs. Lifestyle products for daily use.

PROTEIN JAM SPREAD

Fruit based jam spreads can be made.
Fibres can be added.
Lifestyle products for daily use.

CEREALS

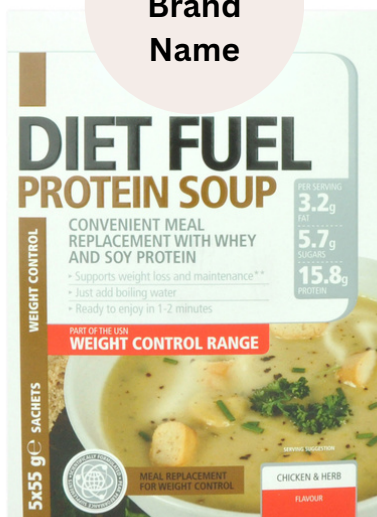

Various breakfast cereals can be formulated as below

- a) Wheat Flakes
- b) Oat Rings
- c) Jumbo Oats
- d) Corn Flakes
- e) Mix Cereals

Brand
Name

PEANUT BUTTER WITH WHEY

Peanut butter with Whey Protein can provide 35% protein.

Healthy Spreads and Licks.

Healthy source of carbohydrates and fats.

Protein from peanut and Whey helps growth and maintenance of muscle tissues and mass.

Free from Palm Oil.

Can be mixed with Chia seed, Hemp protein, Quinoa, Goji berry.

Available in smooth or crunchy base.

Natural or Chocolate flavored

Free from trans fat.

Your
Brand
Name

WHOLE GRAIN POWDER/FLOUR

Good blend of various grains/cereals flour mix can be done.

Various cereals such as rice, oats, barley, millets, amaranth, quinoa, maize etc can be used.

Healthy and has good nutritional value.

Rich in fibre

NUTS & SEEDS MIX

Good blend of various healthy Nuts & Seeds mix can be done. Various nuts like cashew, almond, walnuts, peanuts, pistachios etc & seeds like sunflower, papaya, chia, flaxseed, sesame, hemp seeds, watermelon etc. can be used.

It provides good & healthy calories.

Rich source of fibre, Omega-3, 6, 9 & other nutrients.

Various raisins can also be added.

Can be packed in sachets or in bottles.

PROTEIN ICE CREAM MIX

Cool down with great Whey Protein ice cream mix.

Mix the powder in water and put to freeze.

Eat a healthy scoop of protein.

Contains healthy Fat-MCT.

20-30% protein per 100g scoop.

Available flavor: Strawberry, Vanilla, Chocolate, Guava, Watermelon, Natural Fruits can be added.

PROTEIN CRUMBLES

On Go protein snack.

Contains cluster crumbles of nuts, grains, protein, fibres.

Chocolate coated.

Tasty and healthy.

A different protein snacking form.

OTHER PROTEIN SNACKING POWDER MIX

- a) Protein Pancakes
- b) Energy Bites
- c) Protein Moose
- d) Protein Muffins
- e) Protein Mug Cakes
- f) Protein Puddings
- g) Protein Lunch Kits
- h) Protein Snacks/Crunch (Mixture Nuts, Crispies, Flakes, Cranberries etc.)
- i) Protein Crunchy Snacks (Magic Snacks)

COOKING OIL SPRAY

Induday Global can offer pure quality cooking oil like olive oil, refined coconut oil with added benefits of ingredients such as Omega-3 (Flaxseed), Omega-6, Omega-9, Gamma Oryzanol which makes cooking oil best and healthy.

Can be used for cooking on pan and non stick cookwear.

FRESHNESS WATER SPRAY

This product is designed to make external body healthy after workout.

Spraying on body gives feeling of freshness and cooling.

Contains ingredients which gives cooling effect on body and also have ingredients which helps to fight infection after sweaty training sessions.

Maintain body hygiene.

This is not deodorant or perfume spray.

HERBAL TEA

Induday Global can offer products like antioxidant tea, herbal tea, garcinia tea, weight loss tea etc for healthy lifestyle.

Just pour content to hot water and have a refreshing drink.

HONEY MIX

Eating pure honey is good for health. Induday Global has made combinations of pure honey with various ingredients like BCAA, amino acids etc. with honey.

SUGAR FREE DROPS

Sugar free drops can be made of artificial sweeteners like stevia or sucralose.

Easy to carry and can be used in any sports or gym drinks.

Can be used for daily use in tea/coffee or in juices.

PROTEIN COCONUT WATER MIX

Induday Global can offer natural coconut spray dried powder which when reconstituted with water gives similar goodness of natural coconut water. This is natural and has natural electrolytes which helps in rehydration.

With addition of few grams of Whey Protein in it increases the nutritional profile of coconut water.

Can be manufactured in pouches and easily carried in pocket and used whenever required.

Plain coconut mix without protein can also be offered

TANNING CREAM & OIL

Induday Global can manufacture tanning cream and oil to make body builders look great on stage.

Helps professional body builders to showcase the body in better presenting manner.

PROTEIN BUTTERMILK PREMIX POWDER

Induday Global can offer buttermilk spray dried powder which when reconstituted with water gives similar goodness of buttermilk. This can be seasoned with nice flavors.

With addition of few grams of Whey Protein in it increases the nutritional profile of the product.

Can be manufactured in pouches and easily carried in pocket and used whenever required.

Plain buttermilk mix without protein can also be offered.

SUPER FOODS & GREEN FOODS

Improves health and vitality in the healthiest and easiest way.

Alkalizing blend of Wheatgrass, Alfalfa, Barley grass and Spinach. **Supergreen** blend of Spirulina, Moringa, Chlorella. **Antioxidant** blend of Pomegranate, Carrot, Beetroot, Tomato, Amla, fibre from Flaxseeds.

Various ingredients like Chia seeds, Ginger, Gojiberries, Quinoa, Cinnamon are also super foods.

Vegan & Natural Daily Supergreen blend to maintain your pH level, alkalises your system and gets you your days dose of nutrients.

VEGAN PROTEIN

Complete protein from vegetarian sources.

Can achieve 25g protein & 4200mg BCAA per serving.

Highest content of L-Arginine and full spectrum amino acid profile can be achieved

Gluten free, hypoallergenic, 98% pre-digested and 100% cholesterol free.

Source of dietary fibre.

Non-GMO/Gluten free.

Pea Protein, Brown Rice Protein, Hemp Protein, Chlorella, Chia Seed.

FLAVOR DROPS & POWDER CONCENTRATES

Only flavor drops or powders concentrates can be developed.

Gives power to customer to choose their favorite flavor.

Customer can share same product in family & friends and use different flavor as per their liking.

PARTICULAR SPORTS SUPPLEMENTS

Induday Global can develop formulas as per particular needs.

Each sports has its own requirement and as per sports requirement product can be developed.

Various sports like lawn tennis, cycling, running, football, cricket, basketball, skating etc. has different requirement of energy, proteins, electrolytes which can be scientifically formulated to meet the particular sports requirement.
