RELEASE

PANCAKE BREAKFAST FUNDRAISER

Young Conservatives flip pancakes to help the next generation of statesmen.

[MEDINA, OHIO, May 11] The American Conservative Youth Union will be hosting a pancake fundraising breakfast at Medina VFW Post 5137 on May 11th, 2024 from 9AM-2PM. It is hosted at 3916 Pearl Road, Medina, Ohio 44256 and there is a recommended donation of \$10 for adults and \$5 for kids. There will also be literature, pins, and books about the conservative youth movement available for donation. All proceeds will go to the benefit of the American Conservative Youth Union.

There will be unlimited pancakes as well as sausage, milk, coffee, juices, and many more. People who attend will get the opportunity to meet our team, see local political figures, and learn of what it is like to be a conservative student in today's schools. Hear our stories, enjoy our pancakes, and invite your friends and family to support the next mayors, congressmen, and presidents of these United States. Verily, we uphold that the United States soon need a new generation of conservative leadership, and we hope to train and mobilize this generation so they may take up the challenge.

The American Conservative Youth Union was founded in 2019 by then eighth graders, who learned they must both stand up for the rights of Conservative students and get students involved in the Conservative civics and political movement. The founders, now heading to college, will be growing the group across Ohio and in other states. The ACYU National HQ is located in the Old Farmers Bank at 19 West Main Street, Unit Four, Ashland, Ohio 44805.

The American Conservative Youth Union has a background in Conservative students in starting civic groups at high schools and universities where the school administration does not want them to meet. Its home chapter, at Medina High School, took four years and one law suit in order to meet as the Medina County Conservative Youth Union at Medina High School. Many students face challenges from their schools against their constitutional rights, but we are here to help inform students of their rights. Students have rights within their school and their rights "...do not end at the school house door" however a student's rights are only as strong as they know them. It is our goal to advocate for and advance the rights of students in our public high schools. We do this by having seminars, inviting people to conferences, and encouraging students to think for themselves.

Photos of our work and our story can be found on our website at theacyu.com or by request at president@theacyu.com.
