

Key Features

- Allows for maximum racking space
- Advanced electronic display system
- Is virtually invisible in the cellar
- Includes a condensate pump system
- Grille of unit comes with a smooth, primed finish

Features

At WhisperKOOL, we have created a Ceiling Mount split system evaporator. Cellar contractors have asked for a design that does not take away from the racking capacity and is virtually invisible in the cellar. Utilizing our Ceiling Mount evaporator has many benefits: It offers excellent efficiency by drawing in the warmer air which accumulates at the ceiling, cools and disperses the air throughout the environment, allows for maximum racking space, and is virtually invisible in the cellar. The system was designed with the highest quality, professional grade parts for longevity and performance. It includes a condensate pump system. The grille of unit comes with a smooth primer finish, excellent for painting and color matching. Creating a cellar environment with our new Ceiling Mount Split System will combine flexibility of installation with a virtually invisible cooling system. Included is the quality and reliability that contractors have come to expect from WhisperKOOL.

NOTE: The Ceiling Mount system must be installed by a qualified HVAC-R technician. Failure to have the system installed by a qualified technician will void the warranty.

Specifications

Model	4000	8000
Cellar Size	1000 cu. ft.*	2000 cu. ft.*
BTU/h (85°F condenser air intake temperature)	4000	5254
CFM	321	
Dimensions	Evaporator: 35.75"L x 12.75"H x 14.5"W • Condenser: 16.08"L x 16.23"W x 12.61"H	
Refrigerant	R-134a	
HP	1.57	2.06
Voltage Rating	Evaporator: 115V (15 amp dedicated circuit required) • Condenser: 115V (15 amp dedicated circuit required)	
Weight (lbs)	Evaporator: 80 • Condenser: 56	Evaporator: 80 • Condenser: 66
Amps	Evaporator: 1 (running amps) • Condenser: LRA 43/RLA 8	
Drain Line	¼" ID clear plastic tubing (not provided)	
Installation	Evaporator is installed in the cellar. Condensing unit can be installed up to 100 line feet from evaporator unit.	
Thermostat	Advanced digital display (50ft. cable), liquid-temperature-measuring bottle probe (50ft. cable)	
Temp. Delta	Can maintain a 55°F cellar temperature with up to 110°F condenser air intake temperature	
Warranty	Two-year limited warranty (parts and labor)	

*Approximated in an environment that is fully insulated and sealed with a proper vapor barrier. Each wine cellar is unique and has specific cooling requirements. Heat load calculations should always be performed prior to selecting a cooling unit.

Optional Accessories

Exterior condenser housing, 24V thermostat conversion kit, condenser coil coating
