

# MCJC Northwest Regional VETERANS TREATMENT COURT

The VETERANS TREATMENT COURT (VTC) is available to individuals who have served in the military to include Active Duty, National Guard, and Reserves. This personalized program holds the veteran accountable while helping them overcome the challenges they face such as homelessness, unemployment, and addiction. The veteran receives the dignity and respect that has been, and continues to be earned. It is a collaborative effort of family, other veterans, volunteers, community partners, and the court. Each of these groups makes a personal commitment to the veteran's success.
