ECO RETREAT TOUR

These daytrips take you into the interior of Fiji. You will travel up the mountains through tropical forest and amazing scenery, crossing rivers and passing through remote villages. In the Namosi Province you enter 'old' Fiji where you meet people living in remote communities without internet or mobile phone access, and who are still reliant on subsistence farming to living a simple, happy and healthy lifestyle. All the villagers farm vegetables and root crops plus they catch prawns and eels from the river for daily food to eat. Here in Namosi you will hear about the history, the struggle, the lifestyle and the never-ending sound of laughter echoing through the mountains from the locals' famous Fiji humour.

Waterfalls and nature tour

Take a dip in one of the natural swimming pools, follow a nature trail and keep your ears and eyes ready to spot the numerous birds that inhabit this park

VILLAGE TOUR

Fascinating showcase of flora, fauna, crafts, customs and ancient rituals kept alive for those who thirst for knowledge, or come in search of an experience entirely different in its uniqueness.

"We thought it was just a normal tour until we met the tour guide and the adventure started from there! Very friendly and professional at the same time, he brought us to the small village and we had a real trip to the past... the cannibal history, turtle, touching snakes, the 100 years temple...these was definitely!! Thanks to Kay Service for your attention to details and for making our trip to Fiji a "Do it again trip"

Patricia M

This is tour is based on your interests and will be dictacted by you! Whether you want to see waterfalls, experience local life in a village or visit Suva city life including it fresh history through the museum...[yes, we can do that],we can plan the trip that's perfect for you.
