"Kids are People Too!"

Why children need chiropractic care

If you grew up in the 70's, you may remember Saturday mornings with a show called "Wonderama" and the host Bob McAllister. It was a cute show with songs, skits and positive messages for kids of all ages. Many of you remember the theme song called "Kids are People Too" (In fact, if you watched the show as a child the song is probably running through your head right now! For a reminder, check it out [here](#). Note all of the "healthy" snacks that are given away...my, how times have changed!!) The opening line of the song goes "We may be young, and not full-grown but we have problems of our own.." It made me think about kids and chiropractic. The "problems" for young spines is the same for older spines... subluxations! Subluxations are misaligned vertebrae that impede transmission of mental impulse into the body which controls and coordinates all functions in the body. Most people are unaware that these subluxations can occur in young children, sometimes even during birth. Getting children checked early for subluxations is a great way to help them grow healthy and strong. Just like having their teeth checked regularly to prevent dental decay and promote good dental hygiene, chiropractic helps prevent spinal decay and promote spinal hygiene. Think about having your kids checked by a chiropractor because, "Kids are People Too!"

Office Happenings and Doings

"Sign, sign everywhere's a sign..."

As you may have noticed recently, there are a number of new signs as you come into and leave the office parking lot. We want to make sure that everyone is safe as they leave and enter the building. So, yes, the new speed limit for the office is... 5 1/2 MPH!!! We would like to thank everyone for heeding the new signs and continuing to be careful upon entering and leaving the office, thanks!

Office closings

The office will be closed on Monday, May 27th in observance of Memorial Day.

Come on down to the village for the Washingtonville Memorial Day parade and cheer on our community!

Orientations

Have you ever wondered what's the Big Idea? Chiropractic Orientations on Wednesdays at 6:30 PM help answer that question. These fun and informative sessions are for anyone interested in living a more healthy life. Chiropractic adjustments help restore the natural, innate healing ability of the body, mind and spirit...and that's just the beginning! Please check with the front desk or Dr. Casey to confirm! Orientations are open to all!!

Have you received your new Medicare cards?

For our patients who have Medicare, you may have already or will soon be receiving a new card with a unique alphanumeric identification number. This will replace using your Social Security number as your ID number and will be much safer and reduce the risk of identity theft. Please make sure to provide a copy of new card to our front desk to ensure continued coverage for your chiropractic care!

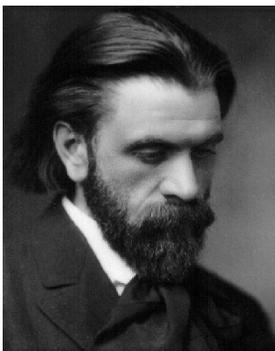

More signs!!

You may have noticed all over town blue and gold banners celebrating the Washingtonville Little League. We are a proud sponsor of the League and you can see our sign just outside the Chase bank, right near the office. Our thanks to Blooming Grove Highway Department for putting up the banners!

A gentle reminder....

We would like to thank everyone for observing our office policy of not speaking on your cell phones while in the office and keeping all devices on vibrate or off, especially while on the adjusting tables! Give yourself the gift of peace and disconnect for the few minutes while in the office, thanks!

*B.J. Palmer, Developer of
Chiropractic*

Words of the Founders

"While other professions are concerned with changing the environment to suit the weakened body, chiropractic is concerned with strengthening the body to suit the environment."

B. J. Palmer

Our Mission Statement

“We at CASEY FAMILY CHIROPRACTIC are committed to serving the health care needs of our community by providing the highest quality chiropractic care possible. By educating our patients and practice members to their own inborn healing ability, we seek to make the world a better place one person at time.”

Kind regards,
Dr. Brian Casey and the team at Casey Family Chiropractic.
