**WE SAILED IN THAILAND!**

## OUR STORY

We did the rat race...we did the school...got the jobs...worked our tails off for someone else...killing ourselves....running ourselves ragged...sitting in traffic for an hour each way to get to a cubicle, only to be incredibly frustrated all day at work...then turn around and fight the hour long traffic nightmare back home...to be home by in time to eat, sleep and repeat. It was dark...we were stressed...angry...and depressed.  
Sound Familiar?!

Then, I decided enough was enough and made changes. I found that I could make money online working from anywhere! I was able start side hustling, started my very own online business, and started focusing on making the dream work. After some online business failures, I found a [15-day challenge](#) that taught me the ins and outs of marketing, and I dove in head first! My mentors are making over \$100K per month (yes, you read that right, PER MONTH!) and I am already watching my bank account grow day by day...literally from day 1!!

# AFFILIATE MARKETING EXPLAINED

- Affiliate marketing is a low-cost, high-return system where you, an affiliate, can make money online from companies/brands.
- Your job is to lead other people to products and services that solve an existing problem for them!
- Then, you receive a commission for each sale you generate by advertising those products and services.

## EXAMPLE:

Someone is on their social media (Instagram Tik Tok, Facebook etc) and they want to find a new workout program to get in shape for an upcoming event. They type "get in shape fast" into the search bar and a bunch of videos and pins pop up. They find exactly what they are looking for and click on the workout program. That workout program link is an affiliate link so anytime anyone clicks on that workout program the affiliate gets paid a commission! You, the affiliate, can do this from anywhere there is Wi-Fi and get paid, even while you are sleeping!

# WHY AFFILIATE MARKETING???

- You can work from ANYWHERE! All you need is a phone or computer with Wi-Fi.
- The average annual salary for affiliate marketers is \$155K (\*this is not guaranteed! You get what you put in.)
- You don't need experience. You don't need to be a social media influencer. You don't need to be techy! ANYONE can do this!
- Low Startup cost ( I started with THIS \$7 course! ← CLICK HERE)

THIS is us in THAILAND!!

THIS is us in ANTIGUA!!

Once you get your systems in place, you'll be making a **PASSIVE** income which means more time to be with your family/friends/fur babies, and to travel **ANYWHERE**.

The Best Part:  
You can start living your DREAM LIFE and its just months away.

MY PROMISE TO YOU: I will ALWAYS be transparent!

## START Your Affiliate Business With These 4 STEPS:

### STEP 1: CHOOSE YOUR NICHE:

Think about what you are most passionate about in life. What is something you could talk endlessly about to anyone? Write down your passions to figure out what niche makes the most sense for you! An example would be the health and fitness niche. If you love working out and focusing on nutrition why not tell others about the products and services you use and get paid to do so! Another example would be the pet niche. Maybe, like me, you're all about that #dogmomlife and you want to promote products or services that have helped your fur babies.

### STEP 2: FIND AN AFFILIATE PROGRAM:

Once you've decided on your niche, now it's time to find good affiliate programs for your area of interest! You can search "your niche" affiliate programs in Google. It's completely free to apply and these companies WANT you to promote their stuff! Look for these three requirements in an affiliate program: Low & high ticket items, 30% commission every time someone purchases from your link, and a cookie length of at least 30 days. The good news is about 86% of brands use affiliate marketers like us to promote their products! So there are plenty of opportunities out there.

### STEP 3: DRIVE TRAFFIC (NOT FOLLOWERS):

Now you want to drive traffic to your affiliate link by using social media. Create an account on Facebook, Instagram, TikTok Etc. and post your affiliate link.

When people click on your link, you start to earn commissions! You need to have traffic and clicks on your links to make commissions.

**TRAFFIC NOT FOLLOWERS!**

You don't need to be an "influencer" to make money!

Once traffic begins, it will continue to grow and turn into **\$\$!** Small consistent commissions start to add up quickly and before you know it, your side hustle is making you more than your job!

### STEP 4: CREATE YOUR OWN BUSINESS:

This step is completely optional, but, if you're like me, and decide you want to turn this side hustle into a full-blown business, there are a couple more steps to take:

- Get a domain name (easier than it sounds)
- Create a sales funnel (all the help is provided, but you can do this on your own too)
- Set up an Email Autoresponder (step by step instructions easy to find)

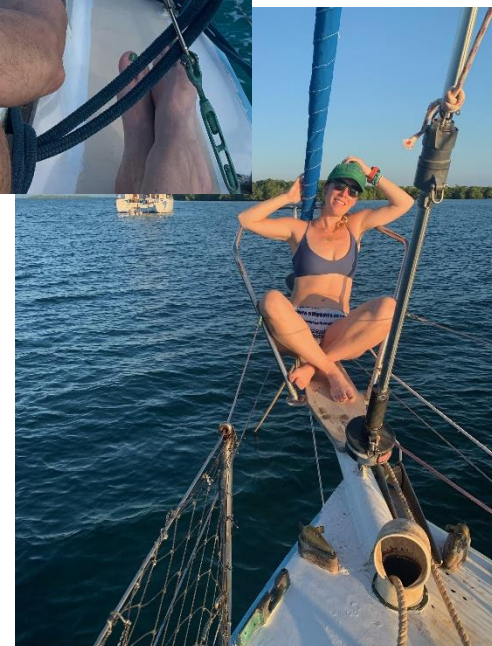

Take a deep breath! I know it sounds like a lot. It can all be done by following a proven system to get started in weeks. I promise once you learn the basics, everything falls into place and the money starts rolling in! 1. 2. 3.

I started where most people start. I was tired of the rat race and ready for a MAJOR change. I felt a calling for something greater in my life, but I didn't know how to escape the matrix. I was curious about affiliate marketing, but I had no experience. On Instagram, I follow a woman and fellow sailor who I knew I could trust. She shared how she is living free and off grid on a huge sailboat. She shared about the 15-day challenge and I decided to take a chance. I woke up early or spent my lunch breaks taking the course. After finishing it, I felt confident that this was exactly what I needed to do to achieve the life I dream about...

...to also cast off the lines and sail into the sunset.

BELIZE IT  
BABY!

## NEXT STEPS:

Thank you for taking the time to read my eBook. I hope it gives you the confidence to know that, if I can do this, SO CAN YOU! Your next step is to [watch this video](#) (if you haven't already). The course and community that comes with it equipped me with the knowledge and skills to launch my own business. After the course, I created my own sales funnels, and email responders and started creating content. The more I did (about an hour a day), the more I learned and the more confident I got. As the money started coming in, I knew it was time to share this with others!

Open your mind to what your life could look like if you finally achieved financial freedom.
