

Saluting America's  
Veterans Enterprise

# Welcome to the Team!

*SAVE Veteran Employee Onboarding Service*

**Confidential. Expert-Led.  
Veteran-Focused.**

## **Greg Peterson | Director of Veteran Training & Education**

A Private, One-on-One Onboarding Experience for Veteran Employees

Saluting America's Veterans Enterprise (SAVE) offers a 30-minute, confidential, one-on-one onboarding session between a veteran employee and a SAVE Veteran Advocate expert.

This service is designed to ensure veteran employees clearly understand the VA benefits, programs, healthcare options, and support services they may be eligible for—right from the start of employment.

This is not a group briefing or a generic orientation. It is a private, personalized discussion tailored to each veteran's service history, transition stage, and current needs.

## **Designed for the Workplace**

- 30-minute private virtual sessions
- Scheduled at the employee's convenience
- Confidential and veteran-centric
- Scalable for small teams or enterprise organizations
- Seamlessly integrates into existing onboarding or Veteran ERG programs

## **The SAVE Difference**

SAVE's Veteran Advocates bring decades of real-world experience navigating VA systems, veteran transition challenges, and workplace integration. Employers gain peace of mind, and veterans gain clarity, confidence, and connection—from day one.
