## **Informed Consent to Psychological Testing by Technician**

### **Supervision**

Ashley Schuttloffel, hereinafter called “the Technician”, is a Technician at Dr. Jackie Jiang and Associates LLC. The Technician is under the direct supervision of Dr. Jackie Jiang, PsyD. All testing completed by a technician is subject to review by Dr. Jackie Jiang. The Technician must communicate their findings throughout the evaluation with Dr. Jackie Jiang in order to ensure the results of the evaluation are accurate.

### **Approach to Evaluation**

The evaluation itself consists of three separate parts: (1) the initial interview, conducted by Dr. Jackie Jiang. (2) Administration of tests. Testing will be conducted by the Technician, under the supervision of Dr. Jackie Jiang. (3) A results session, which is an opportunity for both the Technician and Dr. Jackie to explain the test results to client, and/or guardian(s) and answer questions they guardians may have.

Most of the tests are administered directly by a technician or Dr. Jackie, while other tests are completed by the client or someone that knows the client well, without the Technician being present. In rare occasion, the client may be asked to return for additional testing or an additional interview session, if it is needed.

**Your signature below acknowledges that you have read, understand, and agree to be bound the content, terms, and conditions of this informed consent contract.**
