## Epiq Service

### LEGO Enthusiast Russell Clark's Heartwarming Gift

**Russell Clark**, a Supervisor at one of the California client sites, took philanthropy to a playful level as he used his Community Service Day to spread joy to young patients at Valley Children's Hospital in Madera. Clark, who is also the Founder of a non-profit social club for LEGO enthusiasts, delivered a generous donation of new LEGO sets to the hospital on November 1st.

The donation was made possible with the contributions received during the last two holiday seasons. Clark, an avid LEGO enthusiast himself, recognized the power of creativity and imagination that LEGO brings to people of all ages and wanted to share that joy with the children at Valley Children's Hospital.

Valley Children's Healthcare, initially envisioned by five civic-minded women, has been a cornerstone of pediatric healthcare in Central California for 70 years. What started as a modest 42-bed hospital in 1952 has evolved into a nationally respected pediatric healthcare network, with 358 beds today.

Russell Clark's initiative not only reflects his incredible community-oriented spirit but also adds a colorful touch to the lives of young patients at Valley Children's Hospital, creating moments of happiness and inspiration. **We are extremely proud that the Epiq Community Service Day was used to create so much joy! Thank you Russell!!**
