Hon. Margaret M. Garnett
United States District Court for the Southern District of New York
40 Foley Square
New York, NY 10007

Re: Benson, et al. v. Islamic Republic of Iran, et al., No. 26-cv-2327 (MMG)

Dear Judge Garnett:

Plaintiffs write to notify the Court that the attachments to Plaintiffs' Emergency Letter Motion for Leave to File a Second Amended Complaint (ECF No. 74) ("Letter Motion") inadvertently excluded Exhibit 2 to the Proposed Second Amended Complaint. The Proposed Second Amended Complaint refers to Exhibit 2 (and incorporates its contents by reference), *see* ECF No. 74-1, at ¶ 22 n.18, but the Exhibit itself was inadvertently left off the PDFs filed as attachments to the Letter Motion. Further, Exhibit 2 to the Proposed Second Amended Complaint remains identical to Exhibit 2 of the Amended Complaint (ECF No. 28-2). Attached hereto is a complete, corrected copy of the proposed Second Amended Complaint, this time including Exhibit 2, and a redline of the same.

Finally, as will be reflected in a forthcoming affidavit of service, Plaintiffs successfully served the Letter Motion and exhibits on each Defendant and Proposed Defendant via their wallet addresses last night, and will promptly serve this letter and exhibits in the same manner.

Respectfully submitted,

/s/ Aaron E. Nathan

Defendants,

v.

TETHER INTERNATIONAL, S.A. de C.V.,

Garnishee.

Plaintiffs, 1,335 U.S. military servicemembers, or their surviving family members, who were victims of terrorist attacks sponsored by the Islamic Republic of Iran (“Iran”) and are judgment creditors of Iran, bring this action on their judgments to enforce those judgments and execute against blocked assets of agencies or instrumentalities of Iran.

INTRODUCTION

1. This action concerns cryptocurrency wallets identified by Plaintiffs, through their investigation, as holding millions of dollars worth of cryptocurrency assets—specifically, USDT stablecoins—that are property of agencies and instrumentalities of Iran. Initially, Plaintiffs’ investigation identified a number of cryptocurrency wallets with balances large and small, with ties to Iran and Iranian-based cryptocurrency exchanges. While that investigation was ongoing, the U.S. government confirmed its interest in two wallets that Plaintiffs’ investigation had identified: one, the wallet with Tron address TNiq9AXBp9EjUqhDhrwrfvAA8U3GUQZH81 (the “TNiq Wallet”), was the most valuable wallet that Plaintiffs had identified by far, holding assets worth more than \$212 million, and the other—with Tron address TTiDLWE6fZK8okMJv6ijg42yrH6W2pjSr9 (the “TTiD Wallet”)—was one that Plaintiffs had linked to the TNiq Wallet through public blockchain data and held assets worth over \$131 million.

2. The U.S. government’s interest in, and actions against, those wallets progressed in parallel with Plaintiffs’ investigation and, on April 24, 2026, the U.S. Treasury Department’s Office of Foreign Assets Control (“OFAC”) officially added both the TNiq Wallet and the TTiD Wallet to its list of Specially Designated Nationals (“SDN”), identifying the wallets as property of an agency or instrumentality of Iran, namely the Central Bank of Iran (“CBI”).¹ This designation establishes that the assets in these wallets are “blocked assets” of an agency or instrumentality of

¹ See *Iran-related Designations; Counter Terrorism and Iran – related Designation Update; Issuance of Iran-related General License*, OFAC (Apr. 24, 2026), <https://ofac.treasury.gov/recent-actions/20260424>.

Iran that are “subject to execution or attachment in aid of execution in order to satisfy” Plaintiffs’ judgments against Iran, as provided by Section 201(a) of the Terrorism Risk Insurance Act of 2002 (“TRIA”).

3. Additionally, on July 14, 2026, OFAC took similar action against four additional digital wallet addresses—referred to herein as the TAhw Wallet, the TJdg Wallet, the TXGH Wallet, and the TFQb Wallet—adding those wallet addresses to its designation of CBI on its SDN list, and thereby identifying the wallets as identifiers of an agency or instrumentality of Iran, namely CBI.² This designation establishes that the assets in these wallets are “blocked assets” of an agency or instrumentality of Iran that are “subject to execution or attachment in aid of execution in order to satisfy” Plaintiffs’ judgments against Iran, as provided by Section 201(a) of TRIA.

4. Plaintiffs are 1,335 U.S. military servicemembers, or their surviving family members, who were victims of terrorist attacks sponsored by Iran. Their lives were forever altered by attacks involving gunfire, improvised explosive devices (“IEDs”), suicide bombings, rocket-propelled grenades (“RPGS”), indirect fire attacks (“IDFs”) such as mortar attacks, and others. Today, Plaintiffs are judgment creditors of Iran collectively holding judgments awarding them \$20 billion in damages, including \$10,476,975,424.14³ in compensatory damages.⁴

5. Plaintiffs include Frederick Benson, the father of Petty Officer 1st Class Darrik C. Benson, who served in Afghanistan as a member of the U.S. Navy. On August 6, 2011, SO1

² See *Iran-related Designations; Iran-related and Counter Terrorism Designation Update; Issuance of Iran-related General License*, OFAC (July 14, 2026), <https://ofac.treasury.gov/recent-actions/20260714>.

³ Due to certain calculation errors in the underlying judgments, Plaintiffs mistakenly listed the total awarded compensatory damages in the Initial Complaint and Amended Complaint as \$10,461,103,568.10. Various other minor errors related to the listed awarded compensatory damages are corrected throughout.

⁴ These figures include forty-nine (49) claimants whose judgments are in the process of being served pursuant to 28 U.S.C. 1608(a)(4), though no affidavit of service by the U.S. State Department has yet been entered. See Order, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Oct. 14, 2025), ECF No. 105; Order, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Mar. 4, 2026), ECF No. 140; Order, *Adamkavicius v. Islamic Republic of Iran*, No. 23-cv-03571-EGS-ABJ (D.D.C. July 30, 2025), ECF No. 41. Excluding these, the Plaintiffs’ claims are worth a total of \$9,950,895,064.75 in compensatory damages.

(SEAL) Benson was injured in an attack on a helicopter committed by the Haqqani Network, a part of the Taliban, in Wardak Providence, Afghanistan. SO1 (SEAL) Benson died on August 6, 2011, as a result of his injuries. Third. Am. Compl. ¶¶ 278–82, *Cabrera v. Islamic Republic of Iran*, No. 1:19-cv-03835-JDB (D.D.C. Feb. 1, 2023), ECF No. 133.

6. Iran’s material support to terrorist organizations substantially contributed to the attacks that caused each of Plaintiffs’ injuries, including those of surviving victims of attacks and family members grieving the deaths of their loved ones. Each Plaintiff has their own unique harm, but all stem from atrocities Iran supported and caused in Iraq and Afghanistan.

7. Plaintiffs sought justice across five actions in D.C. District Court—*Martino*, *Cabrera*, *Adamkavicius*, *Neiberger*, and *Zambon*. Evaluating both Iran’s liability for the attacks and the damages each Plaintiff suffered as a result, the District Court for the District of Columbia

awarded final judgments to each Plaintiff in nineteen orders.⁵ Plaintiffs have registered those judgments in this District pursuant to 28 U.S.C. § 1963.⁶

8. Plaintiffs are entitled to execute on (and to attach in aid of execution on) Defendants' assets in the TNiq Wallet, TTiD Wallet, TAHw Wallet, the TJdg Wallet, the TXGH Wallet, and the TFQb Wallet, including through a turnover order directed to Garnishee Tether International, S.A. de C.V. ("Tether"), the issuer of the USDT stablecoins held in those wallets, which maintains the ability to freeze, "burn and remind," and otherwise transfer Defendants' property interests and the value thereof to Plaintiffs.

Each of the foregoing orders and judgments is hereby incorporated by reference into this Complaint.

⁶ See *Larson et al. v. Islamic Republic of Iran*, 26-mc-00149 (S.D.N.Y.), ECF No. 1 (*Adamkavicius*); *Robert Martino et al. v. Islamic Republic of Iran*, 26-mc-00152 (S.D.N.Y.), ECF No. 1; *Robert Martino et al. v. Islamic Republic of Iran*, 26-mc-00153 (S.D.N.Y.), ECF No. 1; *Robert Martino et al. v. 9. The case for attachment, execution, and turnover is clear. TRIA provides that, “[n]otwithstanding any other provision of law,” those who hold judgments against “a terrorist party” may execute on the “blocked assets” of that terrorist party or its “agency or instrumentality.” TRIA § 201(a), (d)(2). Iran is a well-established “terrorist party;” having been a designated state sponsor of terrorism since 1984. OFAC has designated the assets held in the Defendants’ wallets as the property of an agency or instrumentality of Iran, also rendering those assets blocked. Thus, the wallets and their assets satisfy the test for execution, and attachment in aid of execution, under TRIA “notwithstanding any other provision of law.” *See also* Executive Order 13599; 31 C.F.R. §§ 510.211, 594.201(a)(5); *Kirschenbaum v. 650 Fifth Ave. & Related Props.*, 830 F.3d 107, 131 (2d Cir. 2016) (“*Kirschenbaum I*”) (recognizing that “all assets belonging to an entity that satisfies Executive Order 13,599’s definition of ‘Government of Iran’ are automatically blocked”), *abrogated on other grounds by Rubin v. Islamic Republic of Iran*, 583 U.S. 202 (2018).

PARTIES

10. Plaintiffs are direct victims and surviving family members of victims of Iranian-sponsored terrorism. They have been injured by Iranian-backed proxy militias, which carried out the kidnapping, murder, or attempted murder of U.S. servicemembers and civilian contractors deployed in Iraq and Afghanistan during the Global War on Terror. Plaintiffs have obtained judgments against Iran in five separate actions brought in the U.S. District Court for the District of Columbia. Collectively, those judgments award Plaintiffs more than \$20 billion USD in damages for their suffering, including \$10,476,975,424.14USD in compensatory damages including prejudgment interest, as detailed in Exhibit 1.⁷

⁷ All relevant orders and judgments in Plaintiffs’ favor are listed in Exhibit 1 to the Complaint, which is attached hereto and incorporated into the Complaint by reference. In the majority of these orders, the court did not issue individual judgments, but rather ordered that the respective order would be the final judgment for the included plaintiffs. *See, e.g., Cabrera v. Islamic Republic of Iran*, No. 1:19-cv-03835-JDB (D.D.C. April 3, 2026), ECF No.

11. **The Adamkavicius Plaintiffs.** Fourteen (14) *Adamkavicius* plaintiffs obtained a judgment against Iran for the injuries they sustained as a result of Iranian-backed proxy militias injuring or killing U.S. servicemembers in Iraq during the Global War on Terror. *See* Order, *Adamkavicius v. Islamic Republic of Iran*, No. 23-cv-03571-EGS-ABJ (D.D.C. July 30, 2025), ECF No. 41. The judgment is in the process of being served upon Iran pursuant to 28 U.S.C. 1608(a)(4), though no affidavit of service by the U.S. State Department has yet been entered. On April 25, 2025 the D.D.C. awarded these plaintiffs \$56,250,000 in compensatory damages, \$33,268,564.36 in prejudgment interest, and \$89,518,564.35, for a total of \$179,037,128.70 in damages. *Id.*

The Cabrera Plaintiffs. JURISDICTION AND VENUE

23. This Court has subject-matter jurisdiction over this action pursuant to its ancillary jurisdiction to enforce the judgments of a federal court, pursuant to 28 U.S.C. § 1331, and pursuant to TRIA § 201(a). *See Weinstein v. Islamic Republic of Iran*, 609 F.3d 43, 50 (2d Cir. 2010) (“[W]e find it clear beyond cavil that Section 201(a) of the TRIA provides courts with subject matter jurisdiction over post-judgment execution and attachment proceedings against property held in the hands of an instrumentality of the judgment-debtor, even if the instrumentality is not itself named in the judgment.”).

¹⁸ See *Terms of Service*, TETHER at § 4.1, <https://tether.to/en/legal/> (last visited Apr. 26, 2026) (explaining redemption process and that it is “a contractual right personal to [the user]”). A copy of the Tether Terms of Service and related agreements (last updated February 26, 2026) is attached hereto as Exhibit 2, and hereby incorporated by reference.

24. This court has personal jurisdiction over Defendants and Tether pursuant to Federal Rule of Civil Procedure 4(k)(1)(A), which permits this Court to exercise personal jurisdiction to the extent allowed by New York statutes. CPLR § 301 provides that courts “may exercise such jurisdiction over persons, property, or status as might have been exercised heretofore”—including, as relevant here, quasi-in rem jurisdiction. *See Banco Ambrosiano, S.P.A. v. Artoc Bank & Tr. Ltd.*, 464 N.E.2d 432, 435 (N.Y. 1984). Quasi-in rem jurisdiction over the Defendants and Tether is appropriate because Defendants hold a property right in the forum—the right to redeem their stablecoin and/or a debt claim on Tether that “is closely related to [the] plaintiff’s claim,” *id.* at 435. Alternatively, this Court has personal jurisdiction over Defendants pursuant to Federal Rule of Civil Procedure 4(k)(2).

25. Jurisdiction over Garnishee Tether is also proper under CPLR § 302 because this action arises from and relates to Tether’s transaction of business in New York, namely the relationship Tether maintains with the New York-based custodian that holds the dollar-denominated assets that back the stablecoins at issue in this action. *See Peterson v. Bank Markazi*, 121 F.4th 983, 100405 (2d Cir. 2024) (holding that jurisdiction is proper in actions to compel turnover of property where, as here, there is a right to payment of money in New York). Because this action arises out of and relates to Tether’s transaction of business in New York, including reserves which are in the custody of and managed by New York financial institutions, Hannah Lang, *Tether Is in Talks With “Big Four” Firm About Reserve Audit, CEO Says*, REUTERS (Mar. 21, 2025), <https://www.reuters.com/technology/tether-is-talks-with-big-four-firm-about-reserve-audit-ceo-says-2025-03-21/>; Tether has “purposefully avail[ed] [itself] of the privilege of conducting activities within” New York, *Hanson v. Denckla*, 357 U.S. 235, 253 (1958), and this

Court has personal jurisdiction over Tether to order turnover. For similar reasons, jurisdiction over Defendants is proper under CPLR § 302.

26. Venue is proper in this District pursuant to 28 U.S.C. 1391. Under Section 1391(b)(2), “a substantial part of property that is the subject of the action” is situated in the Southern District of New York because the Tether maintains custody of the assets underlying the stablecoin in the Southern District of New York. In the alternative, venue is also proper pursuant to 28 U.S.C. § 1391(b)(2) because “a substantial part of the events ... giving rise to the claim” occurred in this district or 28 U.S.C. 1391(b)(3) because there is no other district where venue is proper and there is personal jurisdiction over Defendants and/or Tether.

FACTUAL ALLEGATIONS

A. Plaintiffs Are Entitled to Judgments Totaling Nearly \$20 billion Against Iran.

27. Iran’s terrorist attacks and its sponsoring of terrorist attacks had devastating consequences for Plaintiffs, who, across several decades, fell victim to the series of Iranian-sponsored attacks described below.

Complex Ambush Attacks

28. A complex ambush attack, often carried out by IRGC forces or proxy forces, is a coordinated, multi-layered attack designed to maximize casualties and create chaos. These attacks often begin with an explosive-initiated method, like use of an Improvised Explosive Device, roadside bomb, or vehicle born explosive device, to stop a convey or patrol. Multiple insurgent teams then simultaneously initiate attacks on the convey or patrol using small arms, rocket-propelled grenades, and sometimes mortars (a portable, muzzle-loaded weapon that projects explosive devices over indirect trajectories, allowing it to clear buildings or hills, and drop vertically into targets). The aim is to inflict maximum damage quickly followed by rapid retreat.

29. During the Global War on Terror, Iran would use complex ambush attacks, whereby rocket propelled grenades and large groups of insurgents would attack American soldiers. These type of attacks were repeatedly employed and killed hundreds of Americans, including Plaintiffs.

30. For example, in what became known as the “Good Friday Ambush”, on April 9, 2004, in Baghdad, Iraq, Sergeant Elmer C. Krause and civilian contractors Stephen F. Hulett, Timothy E. Bell, Tony Duane Johnson, and Jack A. Montague were in a convoy when insurgents attacked by small arms fire, approximately fifteen RPGs, and additional small arms from what seemed like “hundreds of insurgents ... firing rifles and rocket-propelled grenades and triggering IEDs.” Mem. Op. & Order at 51, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Sept. 30, 2024), ECF No. 55 (quoting ECF No. 38-133). Hulett, Johnson, and Montague were killed in the attack, but Krause and Bell were deemed missing and later declared dead. The D.C. District Court concluded Iran was liable for supporting this attack due to its material support of the Zarqawi organization, and awarded damages to the loved ones of Sgt. Krause and Hulett, Bell, Johnson and Montague, including their children. *Id.*; *see also* Order, ECF No. 92.

31. Another complex ambush attack occurred on October 10, 2005 in Al Anbar Province, Iraq. U.S. Army Sergeant Jared Kriger was severely injured by the Zarqawi Organization in this attack. SGT Kriger and his unit were traveling in a convoy when an IED detonated on the last vehicle in the convoy. Some of the unit was able to leave the scene but, due to its extensive damage, SGT Kriger’s vehicle had to wait for an Army Quick Reaction Force (“QRF”). As the vehicle waited, it received fire from small arms and rocket-propelled grenades (“RPGs”). Then, when the QRF arrived, a second IED detonated. The QRF team was doused in diesel, and two servicemembers “burn[ed] to death on the street.” Mem. Op. at 29, *Zambon v. Islamic Republic*

of Iran, Case No. 18-cv-02065-JDB (D.D.C. Apr. 25, 2025), ECF No. 303. Approximately two hours later, the rest of SGT Kriger's unit returned to the scene to extract those who remained, only to be attacked with RPG and small arms fire. *Id.* SGT Kriger suffered severe injuries including gunshot wounds to his lower right leg, shrapnel in his upper thigh, and severe back issues. First Am. Compl. at 13-14, *Zambon v. Islamic Republic of Iran*, Case No. 18-cv-02065-JDB (D.D.C. Feb. 3, 2023). On April 25, 2025, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries that SGT Kriger's and his wife, Jessica Kriger endured as a result. Mem. Op. at 33–34.

32. Many other Plaintiffs were injured or had their loved ones killed because of complex attacks supported by Iran. *See, e.g.,* Order, *Cabrera v. Islamic Republic of Iran*, Case No. 19-cv-03835-JDB (D.D.C. Sept. 30, 2024), ECF No. 285 (judgment against Iran including on behalf of CPL John Zelko III and his loved ones, after an April 18, 2007 complex attack with AK-47s and RPGs left CPL Zelko with partial paralysis in his right arm, a severe traumatic brain injury, hearing loss and vision impairment); Order, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. May 16, 2023), ECF No. 138; Order, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. Feb. 3, 2023), ECF No. 133 at 154, 176, 389; Third. Am. Compl. at 27-28, ECF No. 133 (On July 13, 2008, Jason M. Bogar, 1LT Jonathan P. Brostrom, SGT Israel Garcia, SPC Jason D. Hovater, CPL Pruitt A. Rainey, and CPL Gunnar Zwilling were killed, and SSG Jonathan Benton was injured in a complex attack involving small arms fire and RPGs launched by the Taliban and likely al-Qaeda with Iranian backing).

Improvised Explosive Device (“IED”) Attacks

33. During the Global War on Terror, Iran used IED attacks. These devices are constructed with additional shrapnel and use artillery shells or conventional high-explosive

charges, in addition to toxic chemicals and other radioactive agents, to inflict mass harm. Hundreds of Americans, including Plaintiffs, were killed or seriously injured as a result of Iran's use of IEDs.

34. For example, on July 21, 2004, in Saladin Province, Iraq, Ansar al-Islam, an al-Qaeda affiliate in Iraq, killed Private First Class Nicholas Blodgett in an IED attack. First Amended Comp. at 89-90, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (Nov. 5, 2021), ECF No. 15. On September 30, 2024, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries PFC Blodgett's loved ones endured, including his mother, Rita Blodgett. Mem. Op. & Order at 19–20, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Sept. 30, 2024), ECF No. 55.

35. Another IED attack occurred on May 4, 2013, in Kandahar Province, when the Taliban killed U.S. Army Specialist Kevin Cardoza. SPC Cardoza was part of a patrol sent to clear an accident on Highway 1 in Maiwand District, Kandahar province. On the patrol's return trip, its "vehicle was struck by a command wire IED with 500 pounds of explosive material." Mem. Op. at 22, *Adamkavicius v. Islamic Republic of Iran*, No. 23-cv-03571-EGS-ABJ (D.D.C. July 30, 2025), ECF No. 42. The explosion killed all six occupants of the vehicle, including SPC Cardoza. On July 30, 2025, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries SGT Cardoza's loved ones endured, including his biological minor daughters, D.C. and M.C. *Id.* at 68–69.

Suicide Attacks

36. A suicide attack is a deliberate attack in which the perpetrators intentionally end their lives, often through self-detonating a bomb, to harm or maim multiple, nearby people.

Suicide attacks have long been used by Iranian terrorist groups to wound or seriously maim Americans.

37. For example, on September 13, 2004, the Zarqawi Organization killed Cpl. Adrian Soltau when a bomber crashed into Cpl. Soltau's vehicle and the explosion instantly killed him and numerous other servicemembers. *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Feb. 26, 2025), ECF No. 74 at 96. On May 7, 2025, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries to Cpl. Soltau's loved ones, including his mother, Marjorie Paul, father Andrew Soltau, stepmother Desiree Soltau, stepbrothers James Perry III and Scott Perry, and stepsister Lakiesha Perry-Smith. Mem. Op. at 4 *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. May 7, 2025), ECF No. 91 at 1, 4, 9 (adopting in part ECF No. 74).

38. Another suicide attack occurred on October 1, 2012, in Khost Province, Afghanistan, SGT Jeremy Hardison was killed when he was attacked by the Haqqani Network and al-Qaeda, acting together in a joint al-Qaeda-Taliban cell, in a suicide attack. Third. Am. Compl. at 332-33, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. Feb. 3, 2023), ECF No. 133. On May 31, 2024, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries to SSG Hardison's loved ones, including his father Jerry Hardison and sister Justina Hardison. *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. May 31, 2023), ECF No. 264.

Small Arms, Rocket-Propelled Grenade ("RPG"), and Anti-Aircraft Attacks

39. Anti-aircraft attacks use surface-to-air missiles to destroy enemy aircrafts, drones, or incoming missiles. These systems are often within civilian areas and deployed around key sites.

40. On April 28, 2008, in Baghdad, Iraq, JAM conducted an attack during the months-long Battle of Sadr City that resulted in severe injuries to CPL Samuel Montalbano. During the attack, JAM terrorist operatives targeted CPL Montalbano's unit with direct rocket fire. Sec. Am. Compl. at 21-22, *Neiberger v. Islamic Republic of Iran*, No. 16-cv-02193-EGS-ZMF (D.D.C. Oct. 23, 2019), ECF No. 21. This forced CPL Montalbano to jump from the rooftop of a building in order to avoid being killed and resulted in CPL Montalbano suffering from a debilitating back injury. R. & R. at 8-9, 18-19, *Neiberger v. Islamic Republic of Iran*, No. 16-cv-02193-EGS-ZMF (D.D.C. Sept. 30, 2022), ECF No. 86; Order, ECF No. 92. The D.C. District Court concluded that Iran was liable because it materially supported the attack carried out by JAM and caused CPL Montalbano's pain and suffering and each of the injuries CPL Montalbano's loved ones suffered as a result, including CPL Montalbano's mother Deborah Wilson. R. & R. at 26, 33-34, 41, *Neiberger v. Islamic Republic of Iran*, No. 16-cv-02193-EGS-ZMF (D.D.C. Sept. 30, 2022), ECF No. 86; Order, ECF No. 92.

Indirect Fire ("IDF") Attacks

41. Indirect fire involves shooting a projectile without a line-of-sight target. The aim instead is to use curved trajectories to calibrate a target. However, because the target is not visible, they often result in more scattered shot grouping, which translates to a much higher risk of collateral damages.

42. Iran would commonly support proxy terrorist groups' use of mortar and rockets in such IDF attacks, including those who killed loved ones of Plaintiffs. For example, on April 24, 2004, in Baghdad Province, Ansar al-Islam insurgents killed CPT Arthur Felder and SSG Billy Orton by firing enemy artillery, which were either mortars or 107mm rockets, which were launched from a truck. Mem. Op. & Order at 83, *Martino v. Islamic Republic of Iran*, No. 21-cv-

01808-RDM (D.D.C. Sept. 30, 2024), ECF No. 55. On September 30, 2024, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries to CPT Felder and SSG Orton’s loved ones, including CPT Felder’s mother, Cheryl Felder Stuart, and brother, Rao Felder; and SSG Orton’s spouse, Margarita Orton, son, David Scott Orton, adopted son, Manaser Orton. *Id.* at 10.

43. In another such attack, on June 18, 2013, in Parwan Province, Afghanistan, SPC Robert W. Ellis was killed by the Taliban in an indirect fire rocket attack on Bagram Airfield. Again, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries to SPC Ellis’s loved ones, including his mother, Joelle Rene Ellis, father John Fitzgerald Ellis, and brother James Earl Ellis. Third. Am. Compl. at 332-33, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. Feb. 3, 2023), ECF 133; Order at 2-3, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB, (D.D.C. May 16, 2023), ECF No. 138.

Insider Attacks

44. Insider attacks involve Iranian agents, often through the Haqqani Network, infiltrating the ranks of Afghan or American forces.

45. For example, on September 26, 2013, in Paktia Province, Afghanistan, Staff Sergeant Thomas Baysore, Jr. was killed in an insider attack carried out by the Haqqani Network. An Afghan National Army soldier named Ataul Rahman fired at least four rounds at SSG Baysore, striking him twice in the back and the neck. SSG Baysore subsequently died from his wounds. The D.C. District Court noted the expert opinion on how such an attack is undertaken with the intent to kill Americans—this type of attack requires the Haqqani Network “to identify a potential Afghan soldier target, then recruit and radicalize this Afghan soldier, in addition to training or advising the Afghan soldier about what type of Coalition targets to attack.” Mem. Op. at 26,

Adamkavicius v. Islamic Republic of Iran, No. 23-cv-03571-EGS-ABJ (D.D.C. July 30, 2025), ECF No. 42 (internal quotation marks omitted). The D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries SSG Baysore’s loved ones endured including his mother, Sandra Lee Hackenberg and sister, Jennifer Mabus. *Id.* at 68–69.

Kidnappings

46. Iran also provided material support for terrorist groups to abduct and terrorize hostages.

47. For example, on August 7, 2016, Professor Kevin King was kidnapped at gunpoint by the Haqqani Network outside the front gates of American University of Afghanistan in Kabul Province, Afghanistan. Mr. King was held hostage under deplorable conditions, beaten frequently, and denied adequate medical care for over three years before being released in a prisoner exchange on November 19, 2019. The attack severely wounded Mr. King, who has suffered from severe caloric malnutrition, muscle atrophy, peripheral neuropathy, hypocalcemia, vitamin D deficiency, low bone mineral density, hyperparathyroidism, frostbite on feet and ankles, a weak bladder, and other physical injuries due to repeated beatings. Third. Am. Compl. at 343-44, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. Feb. 3, 2023). On July 19, 2022, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries to Mr. King and his loved ones including his sister Stephanie King. Mem. Op. at 85-86, ECF No. 78; Order, ECF No. 77.

Explosively Formed Penetrator (“EFP”) Attacks

48. An explosively formed penetrator, also known as an explosively formed projectile, is an explosive designed to penetrate armor from longer standoff distances. They are a type of IED.

49. From 2004 to 2011, IRGC and Hezbollah provided its Special Groups with weapons to target Americans. These weapons included EFPs, which were professionally manufactured and specially designed to target and penetrate U.S. armor, including Plaintiffs.

50. For example, on October 4, 2006, in Baghdad, Iraq, Jaysh al-Mahdi (“JAM”) terrorists committed a complex attack that killed civilian contractor Rod Richardson. The attack included the use of an Iranian-manufactured EFP planted and detonated by JAM operatives, who were funded and trained by Iran. Second Amended Compl. at 15, *Neiberger v. Islamic Republic of Iran*, No. 1:16-cv-02193-EGS-ZMF (D.D.C. Oct. 23, 2019). On September 30, 2022, the D.C. District Court concluded that Iran was liable because it materially supported the attack carried out by JAM and caused each of the injuries Mr. Richardson and his loved ones suffered as a result, including Mr. Richardson’s sister, Pamela Thrall. R. & R. at 17, 34, *Neiberger v. Islamic Republic of Iran*, No. 1:16-cv-02193-EGS-ZMF (D.D.C. Sept. 8, 2022), ECF No. 86. Order, *Neiberger v. Islamic Republic of Iran*, No. 1:16-cv-02193-EGS-ZF (D.D.C. Oct. 23, 2019), ECF No. 92.

51. In another EFP attack, on August 6, 2007, in Baghdad, Iraq, JAM terror operatives conducted an attack in the Al Rashid District of western Baghdad that involved planting and detonating an Iranian-manufactured EFP that resulted in the death of SPC Christopher Neiberger. Sec. Am. Compl. at 18, *Neiberger v. Islamic Republic of Iran*, No. 1:16-cv-02193-EGS-ZMF (D.D.C. Oct. 23, 2019). The JAM operatives involved in the attack were funded and trained by Iran. On September 30, 2022, the D.C. District Court concluded that Iran was liable because it materially supported the attack carried out by JAM and caused each of the injuries SPC Neiberger’s loved ones suffered as a result, including SPC Neiberger’s mother Mary Neiberger and father Richard Neiberger, his sister Ami Neiberger, and brothers Robert Neiberger and Eric Neiberger. R. & R. at 34, 41, *Neiberger v. Islamic Republic of Iran*, No. 16-cv-02193-EGS-ZMF

(D.D.C. Sept. 30, 2022), ECF No. 86; Order, ECF No. 92. The D.C. District Court also concluded that Iran was liable to the estate of SPC Neiberger for materially supporting the attack carried out by JAM because it caused economic damages to the estate. R. & R. at 28-29, *Neiberger v. Islamic Republic of Iran*, No. 16-cv-02193-EGS-ZMF (D.D.C. Sept. 30, 2022), ECF No. 86; Order, ECF No. 92.

B. Total Judgments Against Iran

52. Plaintiffs are all judgment-holders—or their estates, heirs, or other beneficiaries or successors-in-interest—from the above-described suits, which all involved injuries from acts of terrorism supported by Iran.

53. In total, Plaintiffs in this action have been awarded \$20 billion against Iran. Of that sum, \$10,476,975,424.14 is in compensatory damages, as detailed in Exhibit 1. These judgments were entered to provide justice and compensation to the direct victims and victims' family members who suffered in numerous terrorist attacks enabled by Iran's state-sponsored terrorism. Iran has refused to voluntarily pay a single cent, and not one of the judgments has been fully satisfied. They continue to accrue post-judgment interest pursuant to 28 U.S.C. § 1961.

54. In all of the above cases, the district courts entered orders with sufficient time elapsing such that Iran's failure to satisfy their judgments satisfies 28 U.S.C. § 1610(c) requirement that a reasonable period of time elapse following the entry of judgment before enforcement commences.¹⁹

55. Plaintiffs subsequently registered their final judgments in this District pursuant to 28 U.S.C. § 1963.²⁰

C. Plaintiffs Are Entitled to Execute on the Blocked Assets of Defendants.

56. Defendants are agencies or instrumentalities of Iran, a “terrorist party,” TRIA § 201(a), and so their assets, which are by definition blocked, *see* 31 C.F.R. §§ 510.211, 594.201(a)(5); *Kirschenbaum I*, 830 F.3d at 137 (recognizing that “all assets belonging to an entity that satisfies Executive Order 13,599’s definition of ‘Government of Iran’ are automatically blocked”), are subject to execution under TRIA.

i. Stablecoin and Currency Pegging

57. A blockchain is a system for a distributed network of machines to keep a shared ledger of transactions publicly and securely. To maintain a blockchain, a distributed network of machines uses a cryptographic function called a “hash” to validate a series of transactions (a “block”), and connect the block to all the prior transactions (to create a “chain”) in a way that is verifiable.

58. Cryptocurrency is a digital or virtual currency, like Bitcoin, that operates on the blockchain. It serves as a medium of exchange and a store of value.

59. Users transact in cryptocurrency on blockchain networks such as Ethereum, TRON, Binance Smart Chain, Polygon, Avalanche, and Optimism using wallet addresses. A wallet address is a unique digital identifier that represents where cryptocurrency can be sent to or received from on a blockchain. These addresses function similarly to account numbers, allowing users to transfer assets such as Bitcoin (BTC), Tether (USDT), or USD Coin (USDC) between parties on the network.

60. The value of cryptocurrency depends on the asset, how it functions, and market dynamics. Bitcoin, for example, is generally more volatile because its price fluctuates based on market supply and demand and it is not pegged to any fiat currency. By contrast, stablecoins such as Tether (USDT) are pegged to a matching currency on a 1-to-1 basis—for example, one U.S.-backed Tether token (“USDT”) equals one U.S. dollar.²¹

61. Thus, to acquire a USDT Tether token (Image 1), a user completes a U.S. dollar wire deposit, and receives the corresponding amount of USD Tether tokens.²²

²¹ See *Relevant Information Document*, TETHER, *supra* note 13, (“All Tether tokens are pegged at 1-to-1 with a matching fiat currency (e.g., 1 USDT = 1 USD) and are backed 100% by Tether’s reserves.”).

²² See *How to Acquire Tether Tokens*, TETHER, <https://tether.to/en/how-to-acquire-tether-tokens/> (last visited Apr. 25, 2026).

62. USDTs are backed 100% by U.S. dollar treasuries. That means, at any point, a user can exchange their USDTs for equivalent U.S. dollars (e.g., 10,000 USDTs for \$10,000).²³

63. This right to redeem is expressly stated in Tether's terms of service.²⁴ Specifically, Tether's terms of service state:

For example, if you purchase 100 USD, Reserves valued at \$100.00 back those Tether Tokens. The Reserves are comprised of cash, cash equivalents and other assets Tether Tokens are backed by Tether's Reserves[] ***Issuances and redemptions of Tether Tokens are administered by Tether....*** Subject to compliance with these Terms, the redemption price payable by Tether for one Tether Token will be one unit of the Fiat currency to which it is pegged (for the USD Tether Token, 1 USD for 1 USD;...) The Fiat currency payable on redemption will be paid to the bank account in your name designated by you ***via the process specified by Tether....*** The right to purchase Tether Tokens or have Tether Tokens redeemed ***is a contractual right personal to you.***²⁵

²⁴ See TETHER, *supra* note 16.

²⁵ TETHER, *supra* note 16 (emphasis added).

64. To make this redemption possible, Tether keeps treasury on hand that exceeds the Tethers in circulation.²⁶ Tether holds its U.S. treasuries in New York at Cantor Fitzgerald, a New York-based financial services firm.²⁷

65. USDT is an issuer-controlled stablecoin, meaning that Tether retains administrative control over the lifecycle of its tokens. Tether can mint (create) new tokens when there is corresponding demand and can burn (destroy) tokens when they are redeemed or otherwise removed from circulation, thereby managing total supply.

66. Once USDTs are exchanged for U.S. dollars, they are either burned, taken out of circulation, or ready for future issuance.²⁸ Tether “may also seize and destroy Tether Tokens remotely, in response to demands from government, law enforcement or other authorities.”²⁹

67. Tether requires users to comply with their terms of service and warn users that failure to comply will result in forfeiting any USD funds otherwise eligible for redemption and potentially freezing of coins in external wallets.³⁰ Thus, both directly control when and how their respective stablecoins are issued, redeemed, and frozen, and have the legal and practical ability place to freeze, seize, and transfer stablecoin assets in precisely the circumstances presented here.

³⁰ TETHER, *supra* note 16, § 2.

68. Since the Iranian Revolution in 1979, Iran has been subject to comprehensive U.S. sanctions. These sanctions block Iranian government assets in the United States, ban nearly all U.S. trade with Iran, and prohibit foreign assistance and arms sales. U.S. sanctions in particular have targeted Iran's energy sector, including foreign corporations that invest in it and entities that buy, sell, or transport Iranian oil and natural gas; Iran's financial sector, including its Central Bank; other sectors of Iran's economy, including shipping, construction, mining, textiles, automotive and manufacturing; arms trade to or from Iran; and many components of Iran's government, such as Iran's Supreme Leader and the IRGC.

69. Iran has long sought to evade those comprehensive sanctions imposed by the United States.

70. For example, in 2011, Ayatollah Ali Hosseini Khamenei, the supreme leader of Iran from 1989 to 2026, called for a "Year of Economic Jihad," and directed the Iranian nation to mobilize against international sanctions and "focus the major portion of its efforts on the economic arena."³¹ The next year, Iranian oil minister Rostam Qasemi asserted that "[a]ll possible options have been planned in government to counter sanctions...."³² And after facing renewed sanctions in 2018, Iranian foreign minister Mohammad Javad Zarif boasted that "[i]f there is an art we have perfected in Iran ... it is the art of evading sanctions."³³

71. In recent years, Iran began utilize cryptocurrency in its evasion tactics.

72. As the Congressional Research Service explained in 2019, “the Iranian government has recognized a potential role for cryptocurrencies.”³⁴ For example, Iran uses crypto transactions to pay for imports that cannot be processed through conventional payment systems and to compensate for revenues lost due to sanctions. Iran’s regime also uses crypto to move capital out of Iran.³⁵ More simply, cryptocurrency allows Iran to facilitate cross-border settlement, to access foreign liquidity, and in many cases to support activities conducted outside the formal financial system, including operations connected to sanctioned entities or terrorism financing.

73. Iran has developed a significant domestic cryptocurrency ecosystem to support these activities, including supporting at least fifteen cryptocurrency exchanges operate in Iran or primarily serve Iranian users. Reporting demonstrates that the Islamic Revolutionary Guard Corps controls a significant portion of Iran’s cryptocurrency exchange.³⁶

74. These exchanges are supported by a broader ecosystem that includes over-the-counter (“OTC”) trading desks, payment and liquidity intermediaries, mining operations, technical infrastructure providers, and related service businesses. Taken together, this infrastructure reflects a mature and relatively sophisticated digital asset ecosystem that allows both state-linked actors and private individuals in Iran to access cryptocurrency markets and move value internationally despite restrictions imposed by international sanctions.

D. The Assets Held In Defendants’ Wallets Are The Property of an Agency or Instrumentality of Iran.

75. Plaintiffs have conducted an investigation to identify cryptocurrency assets that are property of agencies or instrumentalities of Iran. They identified the TNiq Wallet as the most valuable among many wallets with evident ties to Iranian cryptocurrency exchanges and other public data indicative of ties to Iran and its agencies or instrumentalities. Although not named in the initial complaint, Plaintiffs also identified the TTiD Wallet as having significant transactional ties to the TNiq Wallet, and identified both wallets as having significant transactional ties in close proximity to Iranian exchanges and other sanctioned and/or illicit entities.

76. Plaintiffs commenced this action to attach and execute on assets held in a number of cryptocurrency wallets, including the TNiq Wallet. While that action was pending, Plaintiffs became aware of increased US government scrutiny of the TNiq Wallet and the TTiD Wallet.

77. On April 23, 2026, Tether announced that it had frozen “more than \$344 million in USDT in coordination with OFAC and U.S. Law Enforcement.” In its press release, Tether said that the “freeze follows information shared with Tether by several U.S. authorities about activity tied to unlawful conduct.” It continued, stating that the “wallets are identified as connected to sanctions evasion, criminal networks, or other illicit activity.”³⁷

78. While Tether did not name the addresses of the wallets it froze, the wallets were the TNiq Wallet and the TTiD Wallet.

79. On April 24, 2026, CNN published an article titled “US freezes \$344 million in cryptocurrency said to be linked to Iran” discussing Tether’s freeze that occurred the prior day.³⁸

³⁷ *Tether Supports Freeze of More Than \$344 Million in USDT in Coordination with OFAC and U.S. Law Enforcement*, TETHER (Apr. 23, 2026), <https://tether.io/news/tether-supports-freeze-of-more-than-344-million-in-usdt-in-coordination-with-ofac-and-u-s-law-enforcement/>.

The article said that “[t]he Trump administration has frozen \$344 million in cryptocurrency it says was linked to Iran as the United States ratchets up pressure on Tehran” and quoted Treasury Secretary Scott Bessent as commenting that the Treasury Department “is sanctioning multiple wallets tied to Iran” and that the Trump Administration “will follow the money that Tehran is desperately attempting to move outside of the country and target all financial lifelines tied to the regime.”³⁹ The CNN article cited a U.S. Official as stating that the U.S. Government had “information linking the currency [frozen by Tether] to Iran.” The Official provided a quote describing the work conducted that identified the \$344 million in USDT to Iran:

Working with blockchain analytics experts, the US government has observed evidence of material links to the Iranian regime, including confirmed transactions with Iranian exchanges and a series of transactions routed through intermediary addresses that interact with Central Bank of Iran-associated wallets[.]⁴⁰

80. The CNN article also quoted Chainalysis—a crypto-tracing firm—that said with regards to the wallets held by Defendant TNiQ and Defendant TTiD “[w]hen these wallets were regularly active several years ago, they engaged in frequent large transfers up to tens of millions of dollars, largely with other private wallets” which are “patterns . . . consistent with how we’ve observed other known IRGC wallets move funds on chain.”

81. Treasury Secretary Bessent also released a statement on X explicitly stating that the “Treasury’s Office of Foreign Assets Control is sanctioning multiple wallets tied to Iran — resulting in the freeze of \$344 million in cryptocurrency.”⁴¹

82. On the afternoon of April 24, 2026, the U.S. Government officially designated the TNiq Wallet and TTiD Wallet as SDNs because they were property of an agency or instrumentality of Iran.⁴²

83. On July 14, 2026, the U.S. Government officially designated the TAhw Wallet, TJdg Wallet, TXGH Wallet, and TFQb Wallet as SDNs because they were property of an agency or instrumentality of Iran. These wallets were added by OFAC as identifiers of the Central Bank of Iran alongside the TNiq Wallet and TTiD Wallet.⁴³

CLAIMS FOR RELIEF

FIRST COUNT:

Attachment and Execution Under §201(a) of the Terrorism Risk Insurance Act of 2002 (Against Defendants)

84. Plaintiffs incorporate all above paragraphs, *supra*, as if fully set forth herein.

85. Plaintiffs are entitled to execute on, and attach in aid of execution on, Defendants' assets under TRIA § 201(a).

86. TRIA provides that “[n]otwithstanding any other provision of law ... in every case in which a person has obtained a judgment against a terrorist party on a claim based on an act of terrorism ... the blocked assets of that terrorist party (including the blocked assets of any agency or instrumentality of that terrorist party) shall be subject to execution or attachment in the aid of execution in order to satisfy such judgment to the extent of any compensatory damages for which such terrorist party has been adjudged liable.” TRIA § 201(a).

87. Plaintiffs satisfy every element required under TRIA.

⁴² See *Iran-related Designations; Counter Terrorism and Iran – related Designation Update; Issuance of Iran-related General License*, OFAC (Apr. 24, 2026), <https://ofac.treasury.gov/recent-actions/20260424>.

⁴³ See *Iran-related Designations; Iran-related and Counter Terrorism Designation Update; Issuance of Iran-related General License*, OFAC (July 14, 2026), <https://ofac.treasury.gov/recent-actions/20260714>.

88. *Terrorist Party.* Iran has been designated a state sponsor of terrorism pursuant to Section 6(j) of the Export Administration Act of 1979, 50 U.S.C. App. § 2405(j), beginning January 19, 1984, and therefore is a “terrorist party” as defined by TRIA, § 201(a).

89. *Obtained Judgments.* As described above, Plaintiffs hold judgments for compensatory damages against Iran based on an act of terrorism under 28 U.S.C. § 1605A. Those judgments are registered in this District pursuant to 28 U.S.C. § 1963, and accordingly “shall have the same effect as a judgment of” a court of this District “and may be enforced in like manner.”

90. *Blocked Assets.* Defendants’ assets, including and specifically the assets held in the TNiq Wallet, TTiD Wallet, TAhw Wallet, TJdg Wallet, TXGH Wallet, and TFQb Wallet, are blocked within the meaning of TRIA § 201(a), including because of their designation as SDNs by OFAC.

91. *Agency or Instrumentality.* Finally OFAC has officially designated Defendants as SDNs under the Iran sanctions regime because they are agencies or instrumentalities of Iran. Additionally, .an entity qualifies as an agency or instrumentality “of a terrorist party” if it “(1) was a means through which a material function of the terrorist party is accomplished, (2) provided material services to, on behalf of, or in support of the terrorist party, or (3) was owned, controlled, or directed by the terrorist party.” *Kirschenbaum I*, 830 F.3d at 135 (footnote omitted). The Defendants are agencies or instrumentalities of Iran under both theories, each of which serves as an independent basis for attachment of the assets under TRIA.

92. Plaintiffs are accordingly entitled to execution, and attachment in aid of execution, against the assets held in the TNiq Wallet, the TTiD Wallet, the TAhw Wallet, the TJdg Wallet, the TXGH Wallet, and the TFQb Wallet.

**SECOND COUNT:
Execution and Turnover Pursuant to CPLR §§ 5225, 5227
(Against Tether)**

93. Plaintiffs incorporate herein all above paragraphs, *supra*, as if fully set forth herein.

94. Tether is in possession of money or property in which Defendants have an interest, or are indebted to or will become indebted to the Defendants.

95. Plaintiffs' rights in that property or debt are superior to those of Tether, and Plaintiffs are entitled to possession of the money or property or debt.

96. Pursuant to Rule 69(a) of the Federal Rules of Civil Procedure and CPLR §§ 5225(b) and 5227, Plaintiffs respectfully request that the Court enforce Plaintiffs' judgments against Iran by issuing an order conveying, assigning, and directing the payment to Plaintiffs of all rights, title, and interest of Iran, and its agencies or instrumentalities—Defendants—in the USDTs now in possession of Tether.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs respectfully request that this Court:

- A. Issue a writ of attachment against all property of Defendants, including the USDT held at the cryptocurrency addresses belonging to Defendants;
- B. Enter judgment declaring that Defendants, and any owners of property held in wallets designated by OFAC as identifiers of CBI, are agencies and instrumentalities of Iran within the meaning of TRIA, and that the assets held in the the TNiq Wallet, TTiD Wallet, TAhw Wallet, TJdg Wallet, TXGH Wallet, and TFQb Wallet, and any crypto addresses designated by OFAC as identifiers of Defendants, or CBI, are blocked assets subject to attachment and execution under TRIA;

- C. Issue a writ of execution against all blocked property of Defendants, including the USDT held at the cryptocurrency addresses belonging to Defendants (including any crypto addresses designated by OFAC as identifiers of CBI);
- D. Enter an order directing Tether to turn over all blocked property of Defendants, including the Tether USDT stablecoins, held in the TNiq Wallet, TTiD Wallet, TAhw Wallet, TJdg Wallet, TXGH Wallet, TFQb Wallet, and any crypto addresses designated by OFAC as identifiers of Defendants, or CBI, including by burning and re-minting the same;
- E. Award Plaintiffs other and further relief the Court deems just and proper.

4. **About Tether Tokens:**

4.1. **Issuances and Redemptions.** Issuances and redemptions of Tether Tokens may be completed with Tether pursuant to these Terms. Tether Tokens may also be used, kept, or exchanged online wherever parties are willing to accept Tether Tokens. Tether may from time to time make Tether Tokens available for purchase subject to minimum purchase and

other requirements. Where Tether makes Tether Tokens available to purchase through the Site, and subject to compliance with these Terms, the purchase price payable by a user for one Tether Token will be one unit of the Fiat currency to which it is pegged (for the USD₮ Tether Token, 1 USD for 1 USD₮; for the MXN₮ Tether Token, 1 Mexican Peso (MXN) for 1 MXN₮), plus fees, where applicable. Each Tether Token in circulation is 100% backed by an amount of assets ("**Reserves**") equal to the stated value of the Tether Token. Tether Tokens are denominated in a specific Fiat currency. For example, if you purchase 100 USD₮, Reserves valued at US\$100.00 back those Tether Tokens. The Reserves are comprised of cash, cash equivalents and other assets and may include loan receivables and other assets from Affiliates. Tether Tokens are backed by Tether's Reserves, including Fiat, but Tether Tokens are not Fiat themselves. Issuances and redemptions of Tether Tokens are administered by Tether. Tether may from time to time make redemptions of Tether Tokens through the Site subject to minimum redemption amounts and other requirements. Subject to compliance with these Terms, the redemption price payable by Tether for one Tether Token will be one unit of the Fiat currency to which it is pegged (for the USD₮ Tether Token, 1 USD for 1 USD₮; for the MXN₮ Tether Token, 1 Mexican Peso (MXN) for 1 MXN₮; and for the CNH₮ Tether Token, 1 offshore Chinese yuan (CNH) for 1 CNH₮) less fees, where applicable. The Fiat currency payable on redemption will be paid to the bank account in your name designated by you via the process specified by Tether. Tether Tokens may be issued on multiple blockchain protocols. In order to cause Tether Tokens to be issued or redeemed by Tether, you must be a verified customer of Tether. The right to purchase Tether Tokens or have Tether Tokens redeemed is a contractual right personal to you. Tether Tokens are not legal tender and are not backed by any Government or protected through any insurance provided by Tether or any of its Affiliates. Tether Tokens are not subject to Federal Deposit Insurance Corporation or Securities Investor Protection Corporation protections, or to analogous protections in other jurisdictions. As previously announced, Tether ceased to redeem: (a) USD₮ pursuant to these Terms on the Omni, Bitcoin Cash SLP, Kusama, EOS, and Algorand blockchains effective as of September 1, 2025; and (b) EUR₮ pursuant to these Terms effective as of November 27, 2025 .

4.2. **Forks.** Tether Tokens are or may be issued on various decentralised and open source blockchains and protocols. Blockchains and protocols can sometimes experience events called “forks” where an alternative version of a blockchain or protocol is created. Where forks occur, it is possible that multiple versions of a Digital Token available on such blockchain or protocol could be created, for example, one on each fork. Due to the nature of Tether Tokens, if a fork creates two or more Digital Tokens which purport to be a Tether Token, it is only possible for one of those Digital Tokens to be a Tether Token. Where a blockchain or protocol on which Tether Tokens are issued is forked, Tether may elect to suspend the Services temporarily or for an extended period of time on little or no notice. As a result, in the event of a fork only the Digital Tokens on the particular blockchain or protocol that Tether or its Affiliate announces on the Site as being supported by Tether or such Affiliate are Tether Tokens. Any other Digital Tokens resulting from the fork are not Tether Tokens.

4.3. **Support for Blockchains and Protocols.** Tether is under no obligation to support, or to maintain support for, any particular blockchain or protocol, including any particular blockchain or protocol or any Digital Tokens, including as a result of a fork of a blockchain, the identification of a security issue, community support or otherwise. Tether may determine, in its sole discretion, whether to support a particular fork of a blockchain or protocol or whether to cease support for all versions of a particular blockchain or protocol (whether as a result of a fork, the identification of a security issue, community support or otherwise). Where Tether determines to cease support for a particular blockchain or protocol (whether as a result of a fork, the identification of a security issue, community support or otherwise), you must take any and all actions reasonably necessary to effectuate the migration of your Tether Token to a supported blockchain or protocol identified by Tether. Tether assumes no liability or responsibility whatsoever arising out of or relating to your failure to effectuate such migration of your Tether Token to another blockchain or protocol identified by Tether.

4.4. **No Liability for Withdrawal of Support.** Tether assumes no liability or responsibility whatsoever for any Losses or other issues that might arise from Tether electing to support or not support a particular blockchain or protocol, any forked version of any particular blockchain or protocol or any Digital Tokens resulting from a fork of a blockchain or protocol.

4.5. **Risk of Wrapped or Bridged Tokens:** It is also possible that a third-party could create a Digital Token which claims to be an alternative version of Tether Tokens, such as by “wrapping” or “bridging” Tether Tokens. These Digital Tokens are not Tether Tokens. They are not sold or issued through the Site or supported by Tether, they cannot be redeemed with Tether or otherwise used with the Site and Tether assumes no liability or responsibility whatsoever for any Losses or other issues that might arise from use of such Digital Tokens.

4.6. **Incurrence of Liability and Passage of Title:** The Parties hereby agree that (i) Tether has obtained authorisation as a Stablecoin Issuer and Digital Assets Service Provider under the El Salvador Regulations for Issuance of Stablecoin Public Offerings and is subject to the regulatory requirements specified by the National Commission of Digital Assets of El Salvador; (ii) each Party incurs liability irrevocably for: (x) the sale and purchase of Tether Tokens through the Site upon the satisfaction of the conditions to purchase through the Site, and, (y) the redemption of Tether Tokens through the Site upon the satisfaction of the conditions to redeem through the Site in each case, such transactions deemed to be located within the Republic of El Salvador; and (iii) title in the Tether Tokens passes from Tether to a verified customer of Tether when Tether initiates transmission of the Tether Tokens to a User Wallet designated by such customer, such initiation deemed to be from the Republic of El Salvador.

5. **Transfer of Tether Tokens; Mechanics:** Your Digital Tokens Address and associated User Wallet are controlled by your private key and your Digital Tokens Address and associated User Wallet, including the ability to access Tether Tokens through the Site, may be stolen or lost and otherwise unrecoverable if the private key is compromised or lost. You accept all consequences of sending Tether Tokens off of, or otherwise interacting with, the Site. Tether Token transactions are not reversible. Once you send Tether Tokens to an address, whether intentionally or by a fraudulent or accidental transaction, you accept the risk that you may lose access to, and any claim on, those Tether Tokens indefinitely or permanently. Further, Tether does not guarantee the security or functionality of third-party software or technology, which may fail or malfunction.

6. **Suspension of Services.** You acknowledge that Tether may delay or suspend your access to the Site or the Services (including in respect of purchases and

redemptions), and through that your ability to interact with the Site or the Services at its sole discretion, including in the event that Tether determines that you have engaged in a Prohibited Use; when Tether suspects that there has been a violation of these Terms; if Tether believes that providing any Service to you (including any purchase or redemption) would be contrary to Law; when Tether is directed to do so by any Government; if your Tether Tokens Wallet or other User Wallet is subject to pending litigation, investigation, or Government proceedings; when Tether believes that someone is attempting to gain unauthorised access to your Tether Tokens Wallet or other account or wallet; or circumstances in which Tether believes that providing any Service to you (including any purchase or redemption) would otherwise expose Tether or any Associate to legal liability or unacceptable risk.

7. **Mandatory Resolution of Disputes Through Arbitration:**

7.1. **Covered Claims.** Except for excluded claims described below in paragraph 7.2, Tether and you each agree that any dispute, claim or controversy arising out of or relating to (a) these Terms or the existence, breach, termination, enforcement, interpretation or validity thereof, or (b) your Tether Tokens Wallet or the operations and services of the Site or any Services, or (c) your access to or use of the Site or any Services at any time, will be subject to and finally resolved by confidential, binding arbitration on an individual basis and not in a class, representative or consolidated action or proceeding. If you are subject to the Laws of the United States of America, the interpretation and enforceability of this arbitration provision will be governed by the U.S. Federal Arbitration Act, 9 U.S.C. §§ 1 et seq. Arbitration will be conducted through the use of videoconferencing technology (unless both arbitration parties agree that an in-person hearing is appropriate given the nature of the dispute) before a single arbitrator in accordance with the International Institute for Conflict Prevention and Resolution International Non-Administered Arbitration Rules, as amended from time to time (the “**CPR Rules**”). The sole arbitrator selected by the arbitration parties must be a licenced attorney in England and Wales or the British Virgin Islands with at least fifteen (15) years of experience in commercial disputes. If the arbitration parties do not jointly appoint an arbitrator within thirty (30) days of the commencement of the arbitration, any vacancies will be filled by an arbitrator meeting the above qualifications selected by the International Institute for Conflict Prevention and Resolution. Judgment upon the

award rendered by the arbitrator may be entered by any court having jurisdiction thereof. If the arbitral parties do not promptly agree on the seat of arbitration if an in-person hearing is selected, the seat will be London, United Kingdom. The language of the arbitral proceedings will be English. No discovery shall be conducted except by agreement of the parties or after approval by the arbitrator, who shall attempt to minimise the burden of discovery. The arbitrator may award any relief that a court of competent jurisdiction could award, including attorneys' fees when authorised by Laws, and the arbitral decision may be enforced in court. For claims less than U.S.\$15,000, Tether will reimburse you for all initiating filing fees. Should you be deemed the losing party, the filing fees reimbursed by Tether will be added to the final arbitrator's costs and fees award. The prevailing party, will be entitled to its costs of the arbitration (including the arbitrator's fees) and its reasonable attorney's fees and costs.

7.2. **Excluded Claims.** The following claims and causes of action will be excluded from arbitration as described in paragraph 7.1: causes of action or claims in which either party seeks injunctive or other equitable relief for the alleged unlawful use of its intellectual property, including without limitation copyrights, trademarks, trade names, trade secrets, or patents or its confidential information or private data. Nothing in this paragraph 7 will prevent Tether from seeking any other form of injunctive relief in any court of competent jurisdiction, whether or not interim relief has also been sought from the arbitrator.

7.3. **Delegation.** The arbitrator will have the power to hear and determine challenges to its jurisdiction, including any objections with respect to the formation, existence, scope, enforceability or validity of the arbitration agreement. This authority extends to jurisdictional challenges with respect to both the subject matter of the dispute and the parties to the arbitration. Further, the arbitrator will have the power to determine the existence, validity, or scope of the contract of which an arbitration clause forms a part. For the purposes of challenges to the jurisdiction of the arbitrator, each clause within this paragraph 7 will be considered as separable from any contract of which it forms a part. Any challenges to the jurisdiction of the arbitrator, except challenges based on the award itself, will be made not later than the notice of defence or, with respect to a counterclaim, the reply to the counterclaim; provided, however, that if a

claim or counterclaim is later added or amended such a challenge may be made not later than the response to such claim or counterclaim as provided under the CPR Rules.

7.4. **Class Action Waiver.** You and Tether expressly intend and agree that: (a) class action and representative action procedures are hereby waived and will not be asserted, nor will they apply, in any arbitration pursuant to these Terms; (b) neither you nor Tether will assert class action or representative action claims against the other in arbitration or otherwise; (c) each of you and Tether will only submit their own, individual claims in arbitration and will not seek to represent the interests of any other person, or consolidate claims with any other person; (d) nothing in these Terms will be interpreted as your or Tether's intent to arbitrate claims on a class or representative basis; and (e) any relief awarded to any one user of the Site or the Services cannot and may not affect any other user of the Site or the Services. No adjudicator may consolidate or join more than one Person's or party's claims and may not otherwise preside over any form of a consolidated, representative, or class proceeding.

7.5. **Confidentiality.** The Parties will maintain the confidential nature of the arbitration proceeding and any award, including the hearing, except as may be necessary to prepare for or conduct the arbitration hearing on the merits, or except as may be necessary in connection with a court application for a preliminary remedy, a judicial challenge to an award or its enforcement, or unless otherwise required by Law or judicial decision.

7.6. **JURY TRIAL WAIVER: TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, THE PARTIES HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVE ALL RIGHT TO TRIAL BY JURY IN ANY LEGAL ACTION OR PROCEEDING OF ANY KIND WHATSOEVER ARISING OUT OF OR RELATING TO THESE TERMS OR ANY BREACH THEREOF, ANY USE OR ATTEMPTED USE OF THE SITE OR THE SERVICES BY YOU, AND/OR ANY OTHER MATTER INVOLVING THE PARTIES.**

From time to time, Tether receives information requests about its customers from law enforcement agencies around the world. This page is here to provide you and law enforcement with information about how these requests are processed.

When Tether is contacted, law enforcement is generally interested in two types of data: information about customers' identities and information about their activities using Tether Tokens. As well, as part of their investigation, law enforcement may be interested in requesting that an address is frozen.

When information requests are received, Tether requires that it be accompanied by appropriate legal process. This can vary from place to place. For example, production orders, search warrants, and subpoenas, but also requests for voluntary disclosure of data may all amount to legal process. Tether reviews each order and request for voluntary disclosure to determine that it has valid legal basis and that any response is narrowly tailored to ensure that only the data to which law enforcement is entitled is provided. Similarly, requests to freeze Tether addresses should be accompanied by appropriate legal process.

Tether also reserves the right to make disclosures to authorities in order to protect itself, any Associates, and its customers.

Tether welcomes inquiries from law enforcement agencies about its policies and procedures. Please contact Tether at inforequests@tether.to.

This Tether Token Risk Disclosure Statement ("**Statement**") provides you with a summary of certain risks you should consider when deciding whether to purchase, hold or dispose of Tether Tokens or use the Services offered by Tether (each, as defined in the Tether Token Terms of Service (the "**Terms**")). By purchasing, holding and disposing Tether Tokens or using the Services offered by Tether, you acknowledge that you have read and understand this Statement. You should not purchase, hold or dispose of Tether Tokens or use the Services offered by Tether unless you understand the related risks.

This Statement discusses some of the principal risks of Tether Tokens and the Services, but it does not and cannot describe every risk or consideration associated with Tether Tokens and the Services. This Statement utilizes certain terms that are defined in the Terms. Please consult the Terms for further information regarding those terms.

Risks of purchasing, holding and disposing of Tether Tokens and using the Services include, but are not limited to, the following:

1. **Market Risk:** Secondary Market prices for Tether Tokens can fluctuate and be unpredictable due to a variety of factors outside of Tether's control. Whether the future market price for a Tether Token will move up or down, or even sustain a market value, is unknowable. There is no assurance that Tether Tokens will maintain their long-term value in the future or that the acceptance of Tether Tokens for payments by mainstream and commercial businesses will continue to grow. A Tether Token may trade at, above or below the unit of Fiat for which such token is redeemable. The market price of Tether Tokens in Secondary Markets could fluctuate in response to conditions in those markets irrespective of the value of the unit of Fiat underlying a Tether Token. The amount of the discount or premium in the market price for Tether Tokens relative to the unit of Fiat for which a Tether Token is redeemable may be affected by the trading activity in Tether Tokens, the ease and costs of redemption, and other factors. Tether cannot control how third parties value Tether Tokens. For purposes of this Statement, the term "**Primary Market**" refers to users purchasing or selling Tether Tokens directly through the Site and "**Secondary Market**" refers to any transaction in Tether Tokens other than with users and transactions taking place in the Primary Market.
2. **Settlement Risk:** Tether may from time to time make Tether Tokens available for purchase subject to minimum purchase and other requirements which are not set forth on the Site. Redemptions of Tether Tokens or exchanges of Tether Tokens for Tether Tokens issued on another protocol may also be subject to requirements imposed by Tether. Tether may amend the Terms at any time, without notice. Transactions and settlement conditions imposed by Tether may not be set forth on the Site at the time of transaction and the period for the settlement of any transaction in Tether Token may depend upon these transaction and settlement conditions. Tether makes no representations or warranties that it will sell or exchange new Tether Tokens on comparable terms or on any terms in the future.
3. **Liquidity and Listing Risk:**
 - 3.1. Markets for Digital Tokens can have varying degrees of liquidity. Some markets may be quite liquid while others may be thinner or possibly even illiquid. Thin and illiquid Secondary Markets can experience greater volatility in market prices. Tether Tokens may be issued by Tether on multiple blockchains in its sole discretion. Tether Tokens trading on one blockchain may not be readily exchangeable for Tether Tokens trading on a different blockchain. There is never a guarantee that there will be an active Primary Market or Secondary Market for you to purchase or dispose of Tether Tokens.

- 3.2. Trading exchanges or markets may list Tether Tokens and may delist them from trading without prior notice or consent by Tether or anyone else. Furthermore, it is possible that any Secondary Market for Tether Tokens could abruptly appear and then vanish. Merchants and other commercial parties who accept Tether Tokens for their goods and services do so at their discretion. They may cease to accept Tether Tokens in the future or value them at less than their redemption value. Tether may cease supporting the availability of Tether Tokens on any particular blockchain. The use of Tether Tokens in any trading exchange, market or commercial transaction does not require permission from Tether and does not constitute an endorsement by Tether.
4. **Risk Related to Reserves:** Each Tether Token in circulation is backed by an amount of Reserves equal to the redemption value of the Tether Token. The preparation of transparency disclosures and the valuations of the Reserves may involve uncertainties and judgmental determinations. Independent pricing information about some of the Reserves may not always be available and any assumptions made may include normal trading conditions without a large-scale sale, and valuing certain assets at cost and others at fair value. In some cases, there is limited historical experience upon which to base these estimates and assumptions. Reported information may be adversely affected if assumptions change or if actual circumstances differ from those in the estimates and assumptions. Reserves could be subject to unexpected diminution in value if any of those assumptions prove not to be correct. This may result in delays and other barriers to redemption and sale. For further information on transparency disclosures, please refer to paragraph 16 below.
- 4.1. **No Government Backing:** Tether Tokens are not legal tender and are not issued, backed, or guaranteed by any Government and, consequently, some of the protections that apply to Fiat currencies do not apply to Tether Tokens. For instance, no Government can be expected to bolster the value of Tether Tokens in case of a crash in value.
- 4.2. **No Security:** Your right to request redemption of your Tether Tokens is a contractual right and does not represent security in favour of a holder of Tether Tokens. Post sale, Tether's only obligation is to redeem Tether Tokens through the Site subject to the Terms.
- 4.3. **Liquidity Risk:** Although Tether seeks to ensure that the majority of its Reserves are held in liquid assets, there can be no assurance that the liquidity of the Reserves will always be sufficient to meet redemption requests as and when made. As a consequence, it is possible that the redemption of Tether Tokens may be deferred or suspended in certain circumstances.
- 4.4. **Banking Risk:** Tether relies on financial institutions and intermediaries to hold funds, cash equivalents, and other assets forming part of the Reserves. Such Reserves held at or through financial institutions or intermediaries may be subject to the risk of loss, theft, insolvency, and governmental and regulatory freezes and seizures. Furthermore, these parties have their own policies and may change their view and acceptance of Tether which could affect Tether's access to its reserves at any time. Financial institutions or intermediaries may refuse to process funds for Digital Token transactions, process wire transfers to or from Digital Token trading platforms, Digital Token-related companies or service providers, or maintain accounts for persons or entities transacting in Digital Tokens. This may result in delays and other barriers to redemption and sale of your Tether Tokens. You should be aware of these risks at all times.
- 4.5. **Obligations and Reserves Uninsured:** Neither Tether Tokens nor the Reserves are insured by a private company or Government, and are not subject to Federal Deposit Insurance Corporation or Securities Investor Protection Corporation protections, or to analogous protections in other jurisdictions. Accordingly, any loss you may experience as a holder of Tether Tokens would not be offset by any insurance payment.
- 4.6. **Counterparty Risk:** Reserves may include loan receivables owed to Tether and its Affiliates and other assets that depend upon the performance of a counterparty, including Affiliates of Tether. These assets are subject to the risk of default, insolvency, inability to collect, inability to enforce rights over security (if any), illiquidity of any counterparty and possible invalidation of transactions under relevant creditor and insolvency laws. The inability of Tether or its Affiliates to recover funds owed by counterparties will adversely impact the value the Reserves. Tether is not responsible for any loss that any counterparty may cause to you.
5. **Risk Related to Redemption of Tether Tokens:** Redemption requests must comply with the Terms. The execution of such redemption requests could be subject to postponement or rejection by Tether under certain circumstances. In addition, Tether will reject a redemption request if it is not in proper form or if the fulfillment of the request might be unlawful. Any such postponement or rejection could adversely affect a redeeming holder of Tether Tokens. Tether reserves the right to delay the redemption or withdrawal of Tether Tokens if such delay is necessitated by the illiquidity or unavailability or loss of any Reserves held by Tether to back the Tether Tokens. Redemption is subject to fees and conditions that may make the exercise

of your right to redemption impractical or reduce the profit from the exercise of such rights. You should consult your own tax advisors as to the tax consequences of redemption.

6. **Risks of Third Parties:** Once you send Tether Tokens to an address of a third party, you are subject to a risk that access to, and any claim on, those Tether Tokens may be lost permanently if the Tether Tokens are transferred to an address or wallet that the intended recipient does not control, including as a result of: (i) sending Tether Tokens to an incorrect address; or (ii) the intended recipient no longer holding the private keys to that address. Transferring Tether Tokens to any other person or depositing Tether Tokens with any third party in a custodial relationship has attendant risks. These risks include security breaches, risk of contractual breach, and risk of loss. You should carefully consider the risks of allowing third parties to hold your property for any reason.
7. **Risks of Immutable Transactions:** Blockchain transactions are immutable. Once a transaction is completed on the blockchain underlying a Tether Token, the transaction is irreversible, and Tether does not have the ability to reverse or recall any transaction. You bear all responsibility for any loss that might be incurred as a result of sending Tether Tokens to an incorrect or unintended blockchain address. None of Tether or its Affiliates have any obligation to track or verify any Tether Token transactions.
8. **Conflicts of Interest Risk:** From time to time, Tether and its Affiliates may enter into contracts with persons who are related parties. There is a risk that the proximity of the counterparties in related-party transactions may compromise the objectivity and impartiality of decisions relating to the terms of those transactions.
9. **Regulatory Risk in Issuance and Transfer:** The applicable legal regime and legality of transactions involving Tether Tokens may not be clear and may vary under the laws of different jurisdictions. For example, whether and on what basis a Tether Token may constitute property, an asset, a financial instrument or a right of any kind might vary from one jurisdiction to another. Prospective purchasers or holders of Tether Tokens are responsible for knowing and understanding how the laws apply to them or their property, rights or assets in their jurisdiction.
10. **Risks of Regulatory Change and Enforcement Actions:** Regulators continue to assess how Digital Tokens, such as Tether Tokens, should be regulated. Any new regulation could potentially affect or impair Tether's ability to operate and may raise transaction costs, potentially offsetting and/or eliminating many of the key benefits of stablecoins. Changes in the regulatory environment may impact the ability of, or process for, users to acquire and redeem Tether Tokens, and the availability of Secondary Markets. In addition, if Tether fails to comply with changing regulatory regimes, Tether and its Affiliates may be subject to regulatory actions, which may adversely affect Tether and its ability to operate. Tether and its Affiliates have been, are, and may continue to be subject to regulatory and other investigations in various jurisdictions. The outcome of any pending or future regulatory or other investigation could have a materially adverse impact on Tether and its Affiliates and their ability to operate.
11. **Commingling and Redemption Risks:** Any Tether Tokens transferred to Tether to enable redemptions may be commingled with the Tether Tokens of other users of the Site and with the Tether Tokens of Tether and its Affiliates and service providers. Transferring Tether Tokens to Tether exposes you to risks of loss from, among other things, security breaches from cyber attacks that hack and steal Tether Tokens, electronic or technological failures that impede or prevent access, or recordkeeping errors.
12. **Blockchain Network and Protocol Risks:** Tether Tokens may be issued by Tether on multiple blockchains in its sole discretion, but Tether does not own or control the blockchain protocols which govern the operation of the Tether Tokens. In general, the underlying protocols are open source and anyone can use, copy, modify, and distribute them. These blockchain networks and protocols may not have the functionality, security, or availability desired by a user of Tether Tokens. Some of the protocols are subject to consensus-based proof of stake validation methods which may allow, by virtue of their governance systems, changes to the associated blockchain or digital ledger, and the operation of the Tether Tokens on such blockchains may be affected accordingly. Protocols are subject to the possibility that miners and users begin using different versions of the protocol, resulting in a fork. Forks of protocols can create security concerns due to reduced network distribution and questions as to protocol operability. These could impact the operation of Tether Tokens on a forked network. In addition, the growth and development of Tether Tokens and their underlying networks and other cryptographic and algorithmic protocols governing the creation, transfer, and usage of Tether Tokens are subject to a variety of factors that are difficult to evaluate, including that Tether maintains and secures crucial administrative cryptographic keys for the operation of Tether Tokens protocols on public blockchains. Breaches in the custody, control and operations associated with these keys could lead to failures in the operation of Tether Tokens. Protocols are subject to the possibility that miners and users begin using different versions of the protocol, resulting in a fork. Forks of protocols can create security concerns due to reduced

network distribution and questions as to protocol operability. Where a blockchain or protocol on which Tether Tokens are issued is forked, Tether may elect to suspend Services temporarily or for an extended period of time on little or no notice.

13. **Risk of Account or Transfer Freeze:** Tether may suspend or terminate your access to the Site or any of the Services, freeze any Tether Tokens held by you, or terminate your Tether Token Wallet, as required by applicable Law or where Tether, in its sole discretion, determines it is prudent to do so or where you have violated, breached, or acted in a manner inconsistent with any provision of these Terms or applicable Law. If Tether Tokens are frozen or destroyed, you will not be able to make transfers of those Tether Tokens to or from your wallet. In the event that you attempt to send Tether Tokens to a sanctioned or suspicious blockchain address, Tether may freeze the Tether Tokens. In certain circumstances, Tether may be required to report suspected illegal activity to applicable law enforcement agencies and you may forfeit any rights associated with your Tether Tokens.
14. **No Advice from Tether:** Tether does not provide investment, portfolio management, legal, accounting, tax or other advice, or advice on trading techniques, models, algorithms, or any other schemes. All information provided in connection with your access and use of the Services is for informational purposes only and should not be construed as professional advice. You should not take, or refrain from taking any action based on any information contained on the Site or any other information that we make available at any time. You should not take, or refrain from taking any action based on any information contained on the Site or any other information that we make available at any time. Before you make any financial, legal, or other decisions involving the Services, you should seek independent professional advice from an individual who is licensed and qualified in the area for which such advice would be appropriate.
15. **Cyber Security Threats and Operational Challenges:** The nature of Digital Tokens may lead to an increased risk of fraud or cyberattack. Tether may experience sophisticated cyberattacks, unexpected surges in activity or other operational or technical difficulties that may cause interruptions in the Services. You are aware of and accept the risk of cyberattacks and operational challenges. You understand that cyberattacks and operational challenges may lead to delays, including delays in the ability to redeem your Tether Tokens. Tether is not responsible for any loss that might arise from any cyberattacks or operational challenges.
16. **Transparency:** Tether reports information about Tether Tokens and Reserves at tether.to/en/transparency. This information is provided as part of Tether's continued commitment to transparency, it is not a part of the Terms, and should not be relied upon in a decision to utilize the Services or to hold or transact in Tether Tokens. The information provided is based on the information available to Tether, which may be delayed. In addition, the information is not a representation or warranty to any person except as otherwise agreed in writing by Tether.
 - 16.1. **Limited Accounting Guidance:** There is limited guidance from accounting standards setting bodies on applying complex financial accounting rules to stablecoins. There is also limited precedent in financial reporting by other companies. This creates significant uncertainty in the proper accounting and disclosure for certain assets and transactions. Accounting standards setting bodies may adopt new principles, and precedents may develop, which could have a significant effect on the information reported by Tether. Uncertainties in, or changes to financial accounting standards could result in the need to change accounting methods and may impair Tether's ability to continue to provide transparency disclosures.
 - 16.2. **Estimates and Assumptions:** The preparation of transparency disclosures requires Tether to make estimates and assumptions that affect the amounts reported. These assumptions include normal trading conditions without a large-scale sale and valuing certain assets at cost and others at fair value. In some cases, there is limited historical experience upon which to base these estimates and assumptions. Reported information may be adversely affected if assumptions change or if actual circumstances differ from those in the estimates and assumptions.
 - 16.3. **Timing:** Information contained in the transparency pages is only accurate as of the dates provided, and Tether does not undertake to notify users of the Services or holders of the Tether Tokens of any updates to this information. Accordingly, the information available in the transparency pages at any time may not reflect the Reserves or the Tether Tokens in circulation at the time the information is reviewed.
 - 16.4. **Limited Information:** The information presented in the transparency pages is subject to the limitations, qualifications and assumptions expressed therein. It does not purport to be financial statements of Tether. The independent accountant's reports issued in respect of Tether's consolidated reserves reports are issued to the Board of Directors and Management of Tether Holdings, S.A. de C.V. and are not for the benefit of users of the Services or holders of Tether Tokens.

17. **Litigation Risk:** As of the date set forth above in this Statement, Tether and its Affiliates are defendants in ongoing civil litigation proceedings, and may be subject to further litigation (including civil and administrative proceedings). There can be no assurance that Tether will not be added as defendants to further litigation, or that the outcome of any such proceedings will be favourable to Tether and its Affiliates. Any such unfavourable outcome or any other legal proceeding in the future could have a material adverse effect on Tether, its Affiliates and the Reserves.
18. **Publicity Risk:** Unfavourable media coverage can negatively affect the value of the Tether Tokens on the Secondary Market. Tether, its Affiliates, and Tether Tokens receive a high degree of media and social media coverage around the world. Unfavourable publicity regarding, for example, liquidity, litigation or regulatory activity, the Reserves, privacy practices, terms of service, the use of Tether Tokens for illicit or objectionable ends, has in the past, and could in the future, adversely affect the Secondary Market price of Tether Tokens.

Defendants,

v.

TETHER INTERNATIONAL, S.A. de C.V.,

Garnishee.

Plaintiffs, 1,335 U.S. military servicemembers, or their surviving family members, who were victims of terrorist attacks sponsored by the Islamic Republic of Iran (“Iran”) and are judgment creditors of Iran, bring this action on their judgments to enforce those judgments and execute against blocked assets of agencies or instrumentalities of Iran.

INTRODUCTION

1. This action concerns cryptocurrency wallets identified by Plaintiffs, through their investigation, as holding ~~approximately \$344 million~~ millions of dollars worth of cryptocurrency assets—specifically, USDT stablecoins—that are property of agencies and instrumentalities of Iran. Initially, Plaintiffs’ investigation identified a number of cryptocurrency wallets with balances large and small, with ties to Iran and Iranian-based cryptocurrency exchanges. While that investigation was ongoing, the U.S. government confirmed its interest in two wallets that Plaintiffs’ investigation had identified: one, the wallet with Tron address TNiq9AXBp9EjUqhDhrwrfvAA8U3GUQZH81 (the “TNiq Wallet”), was the most valuable wallet that Plaintiffs had identified by far, holding assets worth more than \$212 million, and the other—with Tron address TTiDLWE6fZK8okMJv6ijg42yrH6W2pjSr9 (the “TTiD Wallet”)—was one that Plaintiffs had linked to the TNiq Wallet through public blockchain data and held assets worth over \$131 million.

2. The U.S. government’s interest in, and actions against, those wallets progressed in parallel with Plaintiffs’ investigation and, on April 24, 2026, the U.S. Treasury Department’s Office of Foreign Assets Control (“OFAC”) officially added both the TNiq Wallet and the TTiD Wallet to its list of Specially Designated Nationals (“SDN”), identifying the wallets as property

of an agency or instrumentality of Iran, ~~3.~~ namely the Central Bank of Iran (“CBI”).¹ This designation establishes that the assets in these wallets are “blocked assets” of an agency or instrumentality of Iran that are “subject to execution or attachment in aid of execution in order to satisfy” Plaintiffs’ judgments against Iran, as provided by Section 201(a) of the Terrorism Risk Insurance Act of 2002 (“TRIA”).

3. Additionally, on July 14, 2026, OFAC took similar action against four additional digital wallet addresses—referred to herein as the TAhw Wallet, the TJdg Wallet, the TXGH Wallet, and the TFQb Wallet—adding those wallet addresses to its designation of CBI on its SDN list, and thereby identifying the wallets as identifiers of an agency or instrumentality of Iran, namely CBI.² This designation establishes that the assets in these wallets are “blocked assets” of an agency or instrumentality of Iran that are “subject to execution or attachment in aid of execution in order to satisfy” Plaintiffs’ judgments against Iran, as provided by Section 201(a) of TRIA.

4. ~~3.~~ Plaintiffs are 1,335 U.S. military servicemembers, or their surviving family members, who were victims of terrorist attacks sponsored by Iran. Their lives were forever altered by attacks involving gunfire, improvised explosive devices (“IEDs”), suicide bombings, rocket-propelled grenades (“RPGS”), indirect fire attacks (“IDFs”) such as mortar attacks, and others. Today, Plaintiffs are judgment creditors of Iran collectively holding judgments awarding

them \$20 billion in damages, including \$~~10,461,103,568.10~~ 10,476,975,424.14³ in compensatory damages.²⁴

5. ~~4.~~ Plaintiffs include Frederick Benson, the father of Petty Officer 1st Class Darrik C. Benson, who served in Afghanistan as a member of the U.S. Navy. On August 6, 2011, SO1 (SEAL) Benson was injured in an attack on a helicopter committed by the Haqqani Network, a part of the Taliban, in Wardak Providence, Afghanistan. SO1 (SEAL) Benson died on August 6, 2011, as a result of his injuries. Third. Am. Compl. ¶¶ 278–82, *Cabrera v. Islamic Republic of Iran*, No. 1:19-cv-03835-JDB (D.D.C. Feb. 1, 2023), ECF No. 133.

6. ~~5.~~ Iran’s material support to terrorist organizations substantially contributed to the attacks that caused each of Plaintiffs’ injuries, including those of surviving victims of attacks and family members grieving the deaths of their loved ones. Each Plaintiff has their own unique harm, but all stem from atrocities Iran supported and caused in Iraq and Afghanistan.

7. ~~6.~~ Plaintiffs sought justice across five actions in D.C. District Court—*Martino*, *Cabrera*, *Adamkavicius*, *Neiberger*, and *Zambon*. Evaluating both Iran’s liability for the attacks and the damages each Plaintiff suffered as a result, the District Court for the District of

³ Due to certain calculation errors in the underlying judgments, Plaintiffs mistakenly listed the total awarded compensatory damages in the Initial Complaint and Amended Complaint as \$10,461,103,568.10. Various other minor errors related to the listed awarded compensatory damages are corrected throughout.

²⁴ These figures include forty-nine (49) claimants whose judgments ~~have not~~ are in the process of being served pursuant to 28 U.S.C. 1608(a)(4), though no affidavit of service by the U.S. State Department has yet been ~~served~~ entered. See Order, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Oct. 14, 2025), ECF No. 105; Order, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Excluding these, the Plaintiffs’ claims are worth a total of \$9,950,895,064.75 in compensatory damages.

Columbia awarded final judgments to each Plaintiff in nineteen orders.³⁵ Plaintiffs have registered those judgments in this District pursuant to 28 U.S.C. § 1963.⁴⁶

8. ~~7.~~ Plaintiffs are entitled to execute on (and to attach in aid of execution on) Defendants' assets in the TNiQ ~~and~~ Wallet, TTiD ~~wallets~~ Wallet, TAhw Wallet, the TJdg Wallet, the TXGH Wallet, and the TFQb Wallet, including through a turnover order directed to Garnishee Tether International, S.A. de C.V. ("Tether"), the issuer of the USDT stablecoins held in those wallets, which maintains the ability to freeze, "burn and remint," and otherwise transfer Defendants' property interests and the value thereof to Plaintiffs.

9. ~~8.~~ The case for attachment, execution, and turnover is clear. TRIA provides that, “[n]otwithstanding any other provision of law,” those who hold judgments against “a terrorist party” may execute on the “blocked assets” of that terrorist party or its “agency or instrumentality.” TRIA § 201(a), (d)(2). Iran is a well-established “terrorist party,” having been a designated state sponsor of terrorism since 1984. OFAC has designated the assets held in the Defendants’ wallets as the property of an agency or instrumentality of Iran, also rendering those assets blocked. Thus, the wallets and their assets satisfy the test for execution, and attachment in aid of execution, under TRIA “notwithstanding any other provision of law.” *See also* Executive Order 13599; 31 C.F.R. §§ 510.211, 594.201(a)(5); *Kirschenbaum v. 650 Fifth Ave. & Related Props.*, 830 F.3d 107, 131 (2d Cir. 2016) (“*Kirschenbaum I*”) (recognizing that “all assets belonging to an entity that satisfies Executive Order 13,599’s definition of ‘Government of Iran’ are automatically blocked”), *abrogated on other grounds by Rubin v. PARTIES

10. ~~9.~~ Plaintiffs are direct victims and surviving family members of victims of Iranian-sponsored terrorism. They have been injured by Iranian-backed proxy militias, which carried out the kidnapping, murder, or attempted murder of U.S. servicemembers and civilian contractors deployed in Iraq and Afghanistan during the Global War on Terror. Plaintiffs have obtained judgments against Iran in five separate actions brought in the U.S. District Court for the District of Columbia. Collectively, those judgments award Plaintiffs more than \$20 billion USD in damages for their suffering, including ~~\$10,461,103,568.10 USD~~ \$10,476,975,424.14 USD in compensatory damages including prejudgment interest, as detailed in Exhibit 1.⁵⁷

11. ~~10.~~ **The Adamkavicius Plaintiffs.** Fourteen (14) *Adamkavicius* plaintiffs obtained a judgment against Iran for the injuries they sustained as a result of Iranian-backed proxy militias injuring or killing U.S. servicemembers in Iraq during the Global War on Terror. *See* Order, *Adamkavicius v. Islamic Republic of Iran*, No. 23-cv-03571-EGS-ABJ (D.D.C. July 30, 2025), ECF No. 41. The judgment is in the process of being served upon Iran pursuant to 28 U.S.C. 1608(a)(4), though no affidavit of service by the U.S. State Department has ~~not~~ yet been ~~served on Iran~~entered. On April 25, 2025 the D.D.C. awarded these plaintiffs \$56,250,000 in compensatory damages, \$33,268,564.36 in prejudgment interest, and \$89,518,564.35, for a total of \$179,037,128.70 in damages. *Id.*

JURISDICTION AND VENUE

23. ~~20.~~ This Court has subject-matter jurisdiction over this action pursuant to its ancillary jurisdiction to enforce the judgments of a federal court, pursuant to 28 U.S.C. § 1331, and pursuant to TRIA § 201(a). *See Weinstein v. Islamic Republic of Iran*, 609 F.3d 43, 50 (2d Cir. 2010) (“[W]e find it clear beyond cavil that Section 201(a) of the TRIA provides courts with subject matter jurisdiction over post-judgment execution and attachment proceedings against property held in the hands of an instrumentality of the judgment-debtor, even if the instrumentality is not itself named in the judgment.”).

24. ~~21.~~ This court has personal jurisdiction over Defendants and Tether pursuant to Federal Rule of Civil Procedure 4(k)(1)(A), which permits this Court to exercise personal jurisdiction to the extent allowed by New York statutes. CPLR § 301 provides that courts “may exercise such jurisdiction over persons, property, or status as might have been exercised heretofore”—including, as relevant here, quasi-in rem jurisdiction. *See Banco Ambrosiano, S.P.A. v. Artoc Bank & Tr. Ltd.*, 464 N.E.2d 432, 435 (N.Y. 1984). Quasi-in rem jurisdiction over the Defendants and Tether is appropriate because Defendants hold a property right in the

forum—the right to redeem their stablecoin and/or a debt claim on Tether that “is closely related to [the] plaintiff’s claim,” *id.* at 435. Alternatively, this Court has personal jurisdiction over Defendants pursuant to Federal Rule of Civil Procedure 4(k)(2).

25. ~~22.~~ Jurisdiction over Garnishee Tether is also proper under CPLR § 302 because this action arises from and relates to Tether’s transaction of business in New York, namely the relationship Tether maintains with the New York-based custodian that holds the dollar-denominated assets that back the stablecoins at issue in this action. *See Peterson v. Bank Markazi*, 121 F.4th 983, 100405 (2d Cir. 2024) (holding that jurisdiction is proper in actions to compel turnover of property where, as here, there is a right to payment of money in New York). Because this action arises out of and relates to Tether’s transaction of business in New York, including reserves which are in the custody of and managed by New York financial institutions, Hannah Lang, *Tether Is in Talks With “Big Four” Firm About Reserve Audit, CEO Says*, REUTERS (Mar. 21, 2025), <https://www.reuters.com/technology/tether-is-talks-with-big-four-firm-about-reserve-audit-ceo-says-2025-03-21/>; Tether has “purposefully avail[ed] [itself] of the privilege of conducting activities within” New York, *Hanson v. Denckla*, 357 U.S. 235, 253 (1958), and this Court has personal jurisdiction over Tether to order turnover. For similar reasons, jurisdiction over Defendants is proper under CPLR § 302.

26. ~~23.~~ Venue is proper in this District pursuant to 28 U.S.C. 1391. Under Section 1391(b)(2), “a substantial part of property that is the subject of the action” is situated in the Southern District of New York because the Tether maintains custody of the assets underlying the stablecoin in the Southern District of New York. In the alternative, venue is also proper pursuant to 28 U.S.C. § 1391(b)(2) because “a substantial part of the events ... giving rise to the claim”

occurred in this district or 28 U.S.C. 1391(b)(3) because there is no other district where venue is proper and there is personal jurisdiction over Defendants and/or Tether.

FACTUAL ALLEGATIONS

A. Plaintiffs Are Entitled to Judgments Totaling Nearly \$20 billion Against Iran.

27. ~~24.~~ Iran's terrorist attacks and its sponsoring of terrorist attacks had devastating consequences for Plaintiffs, who, across several decades, fell victim to the series of Iranian-sponsored attacks described below.

Complex Ambush Attacks

28. ~~25.~~ A complex ambush attack, often carried out by IRGC forces or proxy forces, is a coordinated, multi-layered attack designed to maximize casualties and create chaos. These attacks often begin with an explosive-initiated method, like use of an Improvised Explosive Device, roadside bomb, or vehicle born explosive device, to stop a convey or patrol. Multiple insurgent teams then simultaneously initiate attacks on the convey or patrol using small arms, rocket-propelled grenades, and sometimes mortars (a portable, muzzle-loaded weapon that projects explosive devices over indirect trajectories, allowing it to clear buildings or hills, and drop vertically into targets). The aim is to inflict maximum damage quickly followed by rapid retreat.

29. ~~26.~~ During the Global War on Terror, Iran would use complex ambush attacks, whereby rocket propelled grenades and large groups of insurgents would attack American soldiers. These type of attacks were repeatedly employed and killed hundreds of Americans, including Plaintiffs.

30. ~~27.~~ For example, in what became known as the "Good Friday Ambush", on April 9, 2004, in Baghdad, Iraq, Sergeant Elmer C. Krause and civilian contractors Stephen F. Hulett,

Timothy E. Bell, Tony Duane Johnson, and Jack A. Montague were in a convoy when insurgents attacked by small arms fire, approximately fifteen RPGs, and additional small arms from what seemed like “hundreds of insurgents ... firing rifles and rocket-propelled grenades and triggering IEDs.” Mem. Op. & Order at 51, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Sept. 30, 2024), ECF No. 55 (quoting ECF No. 38-133). Hulett, Johnson, and Montague were killed in the attack, but Krause and Bell were deemed missing and later declared dead. The D.C. District Court concluded Iran was liable for supporting this attack due to its material support of the Zarqawi organization, and awarded damages to the loved ones of Sgt. Krause and Hulett, Bell, Johnson and Montague, including their children. *Id.*; *see also* Order, ECF No. 92.

31. ~~28.~~ Another complex ambush attack occurred on October 10, 2005 in Al Anbar Province, Iraq. U.S. Army Sergeant Jared Kriger was severely injured by the Zarqawi Organization in this attack. SGT Kriger and his unit were traveling in a convoy when an IED detonated on the last vehicle in the convoy. Some of the unit was able to leave the scene but, due to its extensive damage, SGT Kriger’s vehicle had to wait for an Army Quick Reaction Force (“QRF”). As the vehicle waited, it received fire from small arms and rocket-propelled grenades (“RPGs”). Then, when the QRF arrived, a second IED detonated. The QRF team was doused in diesel, and two servicemembers “burn[ed] to death on the street.” Mem. Op. at 29, *Zambon v. Islamic Republic of Iran*, Case No. 18-cv-02065-JDB (D.D.C. Apr. 25, 2025), ECF No. 303. Approximately two hours later, the rest of SGT Kriger’s unit returned to the scene to extract those who remained, only to be attacked with RPG and small arms fire. *Id.* SGT Kriger suffered severe injuries including gunshot wounds to his lower right leg, shrapnel in his upper thigh, and severe back issues. First Am. Compl. at 13-14, *Zambon v. Islamic Republic of Iran*,

Case No. 18-cv-02065-JDB (D.D.C. Feb. 3, 2023). On April 25, 2025, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries that SGT Kriger's and his wife, Jessica Kriger endured as a result. Mem. Op. at 33–34.

32. ~~29.~~ Many other Plaintiffs were injured or had their loved ones killed because of complex attacks supported by Iran. *See, e.g.,* Order, *Cabrera v. Islamic Republic of Iran*, Case No. 19-cv-03835-JDB (D.D.C. Sept. 30, 2024), ECF No. 285 (judgment against Iran including on behalf of CPL John Zelko III and his loved ones, after an April 18, 2007 complex attack with AK-47s and RPGs left CPL Zelko with partial paralysis in his right arm, a severe traumatic brain injury, hearing loss and vision impairment); Order, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. May 16, 2023), ECF No. 138; Order, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. Feb. 3, 2023), ECF No. 133 at 154, 176, 389; Third. Am. Compl. at 27-28, ECF. No. 133 (On July 13, 2008, Jason M. Bogar, 1LT Jonathan P. Brostrom, SGT Israel Garcia, SPC Jason D. Hovater, CPL Pruitt A. Rainey, and CPL Gunnar Zwilling were killed, and SSG Jonathan Benton was injured in a complex attack involving small arms fire and RPGs launched by the Taliban and likely al-Qaeda with Iranian backing).

Improvised Explosive Device (“IED”) Attacks

33. ~~30.~~ During the Global War on Terror, Iran used IED attacks. These devices are constructed with additional shrapnel and use artillery shells or conventional high-explosive charges, in addition to toxic chemicals and other radioactive agents, to inflict mass harm. Hundreds of Americans, including Plaintiffs, were killed or seriously injured as a result of Iran's use of IEDs.

34. ~~31.~~ For example, on July 21, 2004, in Saladin Province, Iraq, Ansar al-Islam, an al-Qaeda affiliate in Iraq, killed Private First Class Nicholas Blodgett in an IED attack. First

Amended Comp. at 89-90, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (Nov. 5, 2021), ECF No. 15. On September 30, 2024, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries PFC Blodgett’s loved ones endured, including his mother, Rita Blodgett. Mem. Op. & Order at 19–20, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Sept. 30, 2024), ECF No. 55.

35. ~~32.~~ Another IED attack occurred on May 4, 2013, in Kandahar Province, when the Taliban killed U.S. Army Specialist Kevin Cardoza. SPC Cardoza was part of a patrol sent to clear an accident on Highway 1 in Maiwand District, Kandahar province. On the patrol’s return trip, its “vehicle was struck by a command wire IED with 500 pounds of explosive material.” Mem. Op. at 22, *Adamkavicius v. Islamic Republic of Iran*, No. 23-cv-03571-EGS-ABJ (D.D.C. July 30, 2025), ECF No. 42. The explosion killed all six occupants of the vehicle, including SPC Cardoza. On July 30, 2025, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries SGT Cardoza’s loved ones endured, including his biological minor daughters, D.C. and M.C. *Id.* at 68–69.

Suicide Attacks

36. ~~33.~~ A suicide attack is a deliberate attack in which the perpetrators intentionally end their lives, often through self-detonating a bomb, to harm or maim multiple, nearby people. Suicide attacks have long been used by Iranian terrorist groups to wound or seriously maim Americans.

37. ~~34.~~ For example, on September 13, 2004, the Zarqawi Organization killed Cpl. Adrian Soltau when a bomber crashed into Cpl. Soltau’s vehicle and the explosion instantly killed him and numerous other servicemembers. *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Feb. 26, 2025), ECF No. 74 at 96. On May 7, 2025, the D.C.

District Court concluded that Iran was liable because it supported this attack and caused each of the injuries to Cpl. Soltau's loved ones, including his mother, Marjorie Paul, father Andrew Soltau, stepmother Desiree Soltau, stepbrothers James Perry III and Scott Perry, and stepsister Lakiesha Perry-Smith. Mem. Op. at 4 *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. May 7, 2025), ECF No. 91 at 1, 4, 9 (adopting in part ECF No. 74).

38. ~~35.~~ Another suicide attack occurred on October 1, 2012, in Khost Province, Afghanistan, SGT Jeremy Hardison was killed when he was attacked by the Haqqani Network and al-Qaeda, acting together in a joint al-Qaeda-Taliban cell, in a suicide attack. Third. Am. Compl. at 332-33, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. Feb. 3, 2023), ECF No. 133. On May 31, 2024, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries to SSG Hardison's loved ones, including his father Jerry Hardison and sister Justina Hardison. *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. May 31, 2023), ECF No. 264.

Small Arms, Rocket-Propelled Grenade ("RPG"), and Anti-Aircraft Attacks

39. ~~36.~~ Anti-aircraft attacks use surface-to-air missiles to destroy enemy aircrafts, drones, or incoming missiles. These systems are often within civilian areas and deployed around key sites.

40. ~~37.~~ On April 28, 2008, in Baghdad, Iraq, JAM conducted an attack during the months-long Battle of Sadr City that resulted in severe injuries to CPL Samuel Montalbano. During the attack, JAM terrorist operatives targeted CPL Montalbano's unit with direct rocket fire. Sec. Am. Compl. at 21-22, *Neiberger v. Islamic Republic of Iran*, No. 16-cv-02193-EGS-ZMF (D.D.C. Oct. 23, 2019), ECF No. 21. This forced CPL Montalbano to jump from the rooftop of a building in order to avoid being killed and resulted in CPL

Montalbano suffering from a debilitating back injury. R. & R. at 8-9, 18-19, *Neiberger v. Islamic Republic of Iran*, No. 16-cv-02193-EGS-ZMF (D.D.C. Sept. 30, 2022), ECF No. 86; Order, ECF No. 92. The D.C. District Court concluded that Iran was liable because it materially supported the attack carried out by JAM and caused CPL Montalbano's pain and suffering and each of the injuries CPL Montalbano's loved ones suffered as a result, including CPL Montalbano's mother Deborah Wilson. R. & R. at 26, 33-34, 41, *Neiberger v. Islamic Republic of Iran*, No. 16-cv-02193-EGS-ZMF (D.D.C. Sept. 30, 2022), ECF No. 86; Order, ECF No. 92.

Indirect Fire ("IDF") Attacks

41. ~~38.~~ Indirect fire involves shooting a projectile without a line-of-sight target. The aim instead is to use curved trajectories to calibrate a target. However, because the target is not visible, they often result in more scattered shot grouping, which translates to a much higher risk of collateral damages.

42. ~~39.~~ Iran would commonly support proxy terrorist groups' use of mortar and rockets in such IDF attacks, including those who killed loved ones of Plaintiffs. For example, on April 24, 2004, in Baghdad Province, Ansar al-Islam insurgents killed CPT Arthur Felder and SSG Billy Orton by firing enemy artillery, which were either mortars or 107mm rockets, which were launched from a truck. Mem. Op. & Order at 83, *Martino v. Islamic Republic of Iran*, No. 21-cv-01808-RDM (D.D.C. Sept. 30, 2024), ECF No. 55. On September 30, 2024, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries to CPT Felder and SSG Orton's loved ones, including CPT Felder's mother, Cheryl Felder Stuart, and brother, Rao Felder; and SSG Orton's spouse, Margarita Orton, son, David Scott Orton, adopted son, Manaser Orton. *Id.* at 10.

43. ~~40.~~ In another such attack, on June 18, 2013, in Parwan Province, Afghanistan, SPC Robert W. Ellis was killed by the Taliban in an indirect fire rocket attack on Bagram Airfield. Again, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries to SPC Ellis’s loved ones, including his mother, Joelle Rene Ellis, father John Fitzgerald Ellis, and brother James Earl Ellis. Third. Am. Compl. at 332-33, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. Feb. 3, 2023), ECF 133; Order at 2-3, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB, (D.D.C. May 16, 2023), ECF No. 138.

Insider Attacks

44. ~~41.~~ Insider attacks involve Iranian agents, often through the Haqqani Network, infiltrating the ranks of Afghan or American forces.

45. ~~42.~~ For example, on September 26, 2013, in Paktia Province, Afghanistan, Staff Sergeant Thomas Baysore, Jr. was killed in an insider attack carried out by the Haqqani Network. An Afghan National Army soldier named Ataul Rahman fired at least four rounds at SSG Baysore, striking him twice in the back and the neck. SSG Baysore subsequently died from his wounds. The D.C. District Court noted the expert opinion on how such an attack is undertaken with the intent to kill Americans—this type of attack requires the Haqqani Network “to identify a potential Afghan soldier target, then recruit and radicalize this Afghan soldier, in addition to training or advising the Afghan soldier about what type of Coalition targets to attack.” Mem. Op. at 26, *Adamkavicius v. Islamic Republic of Iran*, No. 23-cv-03571-EGS-ABJ (D.D.C. July 30, 2025), ECF No. 42 (internal quotation marks omitted). The D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries

SSG Baysore's loved ones endured including his mother, Sandra Lee Hackenberg and sister, Jennifer Mabus. *Id.* at 68–69.

Kidnappings

46. ~~43.~~ Iran also provided material support for terrorist groups to abduct and terrorize hostages.

47. ~~44.~~ For example, on August 7, 2016, Professor Kevin King was kidnapped at gunpoint by the Haqqani Network outside the front gates of American University of Afghanistan in Kabul Province, Afghanistan. Mr. King was held hostage under deplorable conditions, beaten frequently, and denied adequate medical care for over three years before being released in a prisoner exchange on November 19, 2019. The attack severely wounded Mr. King, who has suffered from severe caloric malnutrition, muscle atrophy, peripheral neuropathy, hypocalcemia, vitamin D deficiency, low bone mineral density, hyperparathyroidism, frostbite on feet and ankles, a weak bladder, and other physical injuries due to repeated beatings. Third. Am. Compl. at 343-44, *Cabrera v. Islamic Republic of Iran*, No. 19-cv-03835-JDB (D.D.C. Feb. 3, 2023). On July 19, 2022, the D.C. District Court concluded that Iran was liable because it supported this attack and caused each of the injuries to Mr. King and his loved ones including his sister Stephanie King. Mem. Op. at 85-86, ECF No. 78; Order, ECF No. 77.

Explosively Formed Penetrator (“EFP”) Attacks

48. ~~45.~~ An explosively formed penetrator, also known as an explosively formed projectile, is an explosive designed to penetrate armor from longer standoff distances. They are a type of IED.

49. ~~46.~~ From 2004 to 2011, IRGC and Hezbollah provided its Special Groups with weapons to target Americans. These weapons included EFPs, which were professionally manufactured and specially designed to target and penetrate U.S. armor, including Plaintiffs.

50. ~~47.~~ For example, on October 4, 2006, in Baghdad, Iraq, Jaysh al-Mahdi (“JAM”) terrorists committed a complex attack that killed civilian contractor Rod Richardson. The attack included the use of an Iranian-manufactured EFP planted and detonated by JAM operatives, who were funded and trained by Iran. Second Amended Compl. at 15, *Neiberger v. Islamic Republic of Iran*, No. 1:16-cv-02193-EGS-ZMF (D.D.C. Oct. 23, 2019). On September 30, 2022, the D.C. District Court concluded that Iran was liable because it materially supported the attack carried out by JAM and caused each of the injuries Mr. Richardson and his loved ones suffered as a result, including Mr. Richardson’s sister, Pamela Thrall. R. & R. at 17, 34, *Neiberger v. Islamic Republic of Iran*, No. 1:16-cv-02193-EGS-ZMF (D.D.C. Sept. 8, 2022), ECF No. 86. Order, *Neiberger v. Islamic Republic of Iran*, No. 1:16-cv-02193-EGS-ZF (D.D.C. Oct. 23, 2019), ECF No. 92.

51. ~~48.~~ In another EFP attack, on August 6, 2007, in Baghdad, Iraq, JAM terror operatives conducted an attack in the Al Rashid District of western Baghdad that involved planting and detonating an Iranian-manufactured EFP that resulted in the death of SPC Christopher Neiberger. Sec. Am. Compl. at 18, *Neiberger v. Islamic Republic of Iran*, No. 1:16-cv-02193-EGS-ZMF (D.D.C. Oct. 23, 2019). The JAM operatives involved in the attack were funded and trained by Iran. On September 30, 2022, the D.C. District Court concluded that Iran was liable because it materially supported the attack carried out by JAM and caused each of the injuries SPC Neiberger’s loved ones suffered as a result, including SPC Neiberger’s mother Mary Neiberger and father Richard Neiberger, his sister Ami Neiberger, and brothers Robert

Neiberger and Eric Neiberger. R. & R. at 34, 41, *Neiberger v. Islamic Republic of Iran*, No. 16-cv-02193-EGS-ZMF (D.D.C. Sept. 30, 2022), ECF No. 86; Order, ECF No. 92. The D.C. District Court also concluded that Iran was liable to the estate of SPC Neiberger for materially supporting the attack carried out by JAM because it caused economic damages to the estate. R. & R. at 28-29, *Neiberger v. Islamic Republic of Iran*, No. 16-cv-02193-EGS-ZMF (D.D.C. Sept. 30, 2022), ECF No. 86; Order, ECF No. 92.

B. Total Judgments Against Iran

52. ~~49.~~ Plaintiffs are all judgment-holders—or their estates, heirs, or other beneficiaries or successors-in-interest—from the above-described suits, which all involved injuries from acts of terrorism supported by Iran.

53. ~~50.~~ In total, Plaintiffs in this action have been awarded \$20 billion against Iran. Of that sum, ~~\$10,461,103,568.10~~ is \$10,476,975,424.14 is in compensatory damages, as detailed in Exhibit 1. These judgments were entered to provide justice and compensation to the direct victims and victims' family members who suffered in numerous terrorist attacks enabled by Iran's state-sponsored terrorism. Iran has refused to voluntarily pay a single cent, and not one of the judgments has been fully satisfied. They continue to accrue post-judgment interest pursuant to 28 U.S.C. § 1961.

54. ~~51.~~ In all of the above cases, the district courts entered orders with sufficient time elapsing such that Iran's failure to satisfy their judgments satisfies 28 U.S.C. § 1610(c) requirement that a reasonable period of time elapse following the entry of judgment before enforcement commences.⁴⁷¹⁹

network of machines uses a cryptographic function called a “hash” to validate a series of transactions (a “block”), and connect the block to all the prior transactions (to create a “chain”) in a way that is verifiable.

58. ~~55.~~ Cryptocurrency is a digital or virtual currency, like Bitcoin, that operates on the blockchain. It serves as a medium of exchange and a store of value.

59. ~~56.~~ Users transact in cryptocurrency on blockchain networks such as Ethereum, TRON, Binance Smart Chain, Polygon, Avalanche, and Optimism using wallet addresses. A wallet address is a unique digital identifier that represents where cryptocurrency can be sent to or received from on a blockchain. These addresses function similarly to account numbers, allowing users to transfer assets such as Bitcoin (BTC), Tether (USDT), or USD Coin (USDC) between parties on the network.

60. ~~57.~~ The value of cryptocurrency depends on the asset, how it functions, and market dynamics. Bitcoin, for example, is generally more volatile because its price fluctuates based on market supply and demand and it is not pegged to any fiat currency. By contrast, stablecoins such as Tether (USDT) are pegged to a matching currency on a 1-to-1 basis—for example, one U.S.-backed Tether token (“USDT”) equals one U.S. dollar.¹⁹²¹

61. ~~58.~~ Thus, to acquire a USDT Tether token (Image 1), a user completes a U.S. dollar wire deposit, and receives the corresponding amount of USD Tether tokens.²⁰²²

64. ~~61.~~ To make this redemption possible, Tether keeps treasury on hand that exceeds the Tethers in circulation.²⁴²⁶ Tether holds its U.S. treasuries in New York at Cantor Fitzgerald, a New York-based financial services firm.²⁵²⁷

65. ~~62.~~ USDT is an issuer-controlled stablecoin, meaning that Tether retains administrative control over the lifecycle of its tokens. Tether can mint (create) new tokens when there is corresponding demand and can burn (destroy) tokens when they are redeemed or otherwise removed from circulation, thereby managing total supply.

66. ~~63.~~ Once USDTs are exchanged for U.S. dollars, they are either burned, taken out of circulation, or ready for future issuance.²⁶²⁸ Tether “may also seize and destroy Tether Tokens remotely, in response to demands from government, law enforcement or other authorities.”²⁷²⁹

67. ~~64.~~ Tether requires users to comply with their terms of service and warn users that failure to comply will result in forfeiting any USD funds otherwise eligible for redemption and potentially freezing of coins in external wallets.²⁸³⁰ Thus, both directly control when and how their respective stablecoins are issued, redeemed, and frozen, and have the legal and practical ability place to freeze, seize, and transfer stablecoin assets in precisely the circumstances presented here.

ii. Iran Uses Cryptocurrency to Evade U.S. Sanctions.

68. ~~65.~~ Since the Iranian Revolution in 1979, Iran has been subject to comprehensive U.S. sanctions. These sanctions block Iranian government assets in the United States, ban nearly all U.S. trade with Iran, and prohibit foreign assistance and arms sales. U.S. sanctions in particular have targeted Iran's energy sector, including foreign corporations that invest in it and entities that buy, sell, or transport Iranian oil and natural gas; Iran's financial sector, including its Central Bank; other sectors of Iran's economy, including shipping, construction, mining, textiles, automotive and manufacturing; arms trade to or from Iran; and many components of Iran's government, such as Iran's Supreme Leader and the IRGC.

69. ~~66.~~ Iran has long sought to evade those comprehensive sanctions imposed by the United States.

70. ~~67.~~ For example, in 2011, Ayatollah Ali Hosseini Khamenei, the supreme leader of Iran from 1989 to 2026, called for a "Year of Economic Jihad," and directed the Iranian nation to mobilize against international sanctions and "focus the major portion of its efforts on the economic arena."²⁹³¹ The next year, Iranian oil minister Rostam Qasemi asserted that "[a]ll possible options have been planned in government to counter sanctions...."³⁰³² And after facing renewed sanctions in 2018, Iranian foreign minister Mohammad Javad Zarif boasted that "[i]f there is an art we have perfected in Iran ... it is the art of evading sanctions."³¹³³

71. ~~68.~~ In recent years, Iran began utilize cryptocurrency in its evasion tactics.

72. ~~69.~~ As the Congressional Research Service explained in 2019, “the Iranian government has recognized a potential role for cryptocurrencies.”³²³⁴ For example, Iran uses crypto transactions to pay for imports that cannot be processed through conventional payment systems and to compensate for revenues lost due to sanctions. Iran’s regime also uses crypto to move capital out of Iran.³³³⁵ More simply, cryptocurrency allows Iran to facilitate cross-border settlement, to access foreign liquidity, and in many cases to support activities conducted outside the formal financial system, including operations connected to sanctioned entities or terrorism financing.

73. ~~70.~~ Iran has developed a significant domestic cryptocurrency ecosystem to support these activities, including supporting at least fifteen cryptocurrency exchanges operate in Iran or primarily serve Iranian users. Reporting demonstrates that the Islamic Revolutionary Guard Corps controls a significant portion of Iran’s cryptocurrency exchange.³⁴³⁶

74. ~~71.~~ These exchanges are supported by a broader ecosystem that includes over-the-counter (“OTC”) trading desks, payment and liquidity intermediaries, mining operations, technical infrastructure providers, and related service businesses. Taken together, this infrastructure reflects a mature and relatively sophisticated digital asset ecosystem that

allows both state-linked actors and private individuals in Iran to access cryptocurrency markets and move value internationally despite restrictions imposed by international sanctions.

D. The Assets Held In Defendants’ Wallets Are The Property of an Agency or Instrumentality of Iran.

75. ~~72.~~ Plaintiffs have conducted an investigation to identify cryptocurrency assets that are property of agencies or instrumentalities of Iran. They identified the TNiq Wallet as the most valuable among many wallets with evident ties to Iranian cryptocurrency exchanges and other public data indicative of ties to Iran and its agencies or instrumentalities. Although not named in the initial complaint, Plaintiffs also identified the TTiD Wallet as having significant transactional ties to the TNiq Wallet, and identified both wallets as having significant transactional ties in close proximity to Iranian exchanges and other sanctioned and/or illicit entities.

76. ~~73.~~ Plaintiffs commenced this action to attach and execute on assets held in a number of cryptocurrency wallets, including the TNiq Wallet. While that action was pending, Plaintiffs became aware of increased US government scrutiny of the TNiq Wallet and the TTiD Wallet.

77. ~~74.~~ On April 23, 2026, Tether announced that it had frozen “more than \$344 million in USDT in coordination with OFAC and U.S. Law Enforcement.” In its press release, Tether said that the “freeze follows information shared with Tether by several U.S. authorities about activity tied to unlawful conduct.” It continued, stating that the “wallets are identified as connected to sanctions evasion, criminal networks, or other illicit activity.”³⁵³⁷

78. ~~75.~~ While Tether did not name the addresses of the wallets it froze, the wallets were the TNiq Wallet and the TTiD Wallet.

79. ~~76.~~ On April 24, 2026, CNN published an article titled “US freezes \$344 million in cryptocurrency said to be linked to Iran” discussing Tether’s freeze that occurred the prior day.³⁶³⁸ The article said that “[t]he Trump administration has frozen \$344 million in cryptocurrency it says was linked to Iran as the United States ratchets up pressure on Tehran” and quoted Treasury Secretary Scott Bessent as commenting that the Treasury Department “is sanctioning multiple wallets tied to Iran” and that the Trump Administration “will follow the money that Tehran is desperately attempting to move outside of the country and target all financial lifelines tied to the regime.”³⁷³⁹ The CNN article cited a U.S. Official as stating that the U.S. Government had “information linking the currency [frozen by Tether] to Iran.” The Official provided a quote describing the work conducted that identified the \$344 million in USDT to Iran:

Working with blockchain analytics experts, the US government has observed evidence of material links to the Iranian regime, including confirmed transactions with Iranian exchanges and a series of transactions routed through intermediary addresses that interact with Central Bank of Iran-associated wallets[.]³⁸⁴⁰

80. ~~77.~~ The CNN article also quoted Chainalysis—a crypto-tracing firm—that said with regards to the wallets held by Defendant TNiQ and Defendant TTiD “[w]hen these wallets were regularly active several years ago, they engaged in frequent large transfers up to tens of millions of dollars, largely with other private wallets” which are “patterns . . . consistent with how we’ve observed other known IRGC wallets move funds on chain.”

³⁶³⁸ Jennifer Hansler & Sean Lyngaas, *US freezes \$344 million in cryptocurrency said to be linked to Iran*, CNN (Apr. 24, 2026), <https://www.cnn.com/2026/04/24/politics/us-freezes-cryptocurrency-iran>.

³⁷³⁹ *Id.*

³⁸⁴⁰ *Id.*

81. ~~78.~~ Treasury Secretary Bessent also released a statement on X explicitly stating that the “Treasury’s Office of Foreign Assets Control is sanctioning multiple wallets tied to Iran — resulting in the freeze of \$344 million in cryptocurrency.”³⁹⁴¹

82. ~~79.~~ On the afternoon of April 24, 2026, the U.S. Government officially designated the TNiq Wallet and TTiD Wallet as SDNs because they were property of an agency or instrumentality of Iran.⁴⁰⁴²

83. On July 14, 2026, the U.S. Government officially designated the TAhw Wallet, TJdg Wallet, TXGH Wallet, and TFQb Wallet as SDNs because they were property of an agency or instrumentality of Iran. These wallets were added by OFAC as identifiers of the Central Bank of Iran alongside the TNiq Wallet and TTiD Wallet.⁴³

CLAIMS FOR RELIEF

FIRST COUNT:

Attachment and Execution Under §201(a) of the Terrorism Risk Insurance Act of 2002 (Against Defendants)

84. ~~80.~~ Plaintiffs incorporate all above paragraphs, *supra*, as if fully set forth herein.

85. ~~81.~~ Plaintiffs are entitled to execute on, and attach in aid of execution on, Defendants’ assets under TRIA § 201(a).

86. ~~82.~~ TRIA provides that “[n]otwithstanding any other provision of law ... in every case in which a person has obtained a judgment against a terrorist party on a claim based on an act of terrorism ... the blocked assets of that terrorist party (including the blocked assets of any

agency or instrumentality of that terrorist party) shall be subject to execution or attachment in the aid of execution in order to satisfy such judgment to the extent of any compensatory damages for which such terrorist party has been adjudged liable.” TRIA § 201(a).

87. ~~83.~~ Plaintiffs satisfy every element required under TRIA.

88. ~~84.~~ *Terrorist Party.* Iran has been designated a state sponsor of terrorism pursuant to Section 6(j) of the Export Administration Act of 1979, 50 U.S.C. App. § 2405(j), beginning January 19, 1984, and therefore is a “terrorist party” as defined by TRIA, § 201(a).

89. ~~85.~~ *Obtained Judgments.* As described above, Plaintiffs hold judgments for compensatory damages against Iran based on an act of terrorism under 28 U.S.C. § 1605A. Those judgments are registered in this District pursuant to 28 U.S.C. § 1963, and accordingly “shall have the same effect as a judgment of” a court of this District “and may be enforced in like manner.”

90. ~~86.~~ *Blocked Assets.* Defendants’ assets, including and specifically the assets held in the TNiq Wallet ~~and~~, TTiD Wallet, TAhw Wallet, TJdg Wallet, TXGH Wallet, and TFQb Wallet, are blocked within the meaning of TRIA § 201(a), including because of their designation as SDNs by OFAC.

91. ~~87.~~ *Agency or Instrumentality.* Finally OFAC has officially designated Defendants as SDNs under the Iran sanctions regime because they are agencies or instrumentalities of Iran. Additionally, an entity qualifies as an agency or instrumentality “of a terrorist party” if it “(1) was a means through which a material function of the terrorist party is accomplished, (2) provided material services to, on behalf of, or in support of the terrorist party, or (3) was owned, controlled, or directed by the terrorist party.” *Kirschenbaum I*, 830 F.3d at

135 (footnote omitted). The Defendants are agencies or instrumentalities of Iran under both theories, each of which serves as an independent basis for attachment of the assets under TRIA.

92. ~~88.~~ Plaintiffs are accordingly entitled to execution, and attachment in aid of execution, against the assets held in the TNiq Wallet ~~and~~, the TTiD Wallet, the TAhw Wallet, the TJdg Wallet, the TXGH Wallet, and the TFQb Wallet.

**SECOND COUNT:
Execution and Turnover Pursuant to CPLR §§ 5225, 5227
(Against Tether)**

93. ~~89.~~ Plaintiffs incorporate herein all above paragraphs, *supra*, as if fully set forth herein.

94. ~~90.~~ Tether is in possession of money or property in which Defendants have an interest, or are indebted to or will become indebted to the Defendants.

95. ~~91.~~ Plaintiffs' rights in that property or debt are superior to those of Tether, and Plaintiffs are entitled to possession of the money or property or debt.

96. ~~92.~~ Pursuant to Rule 69(a) of the Federal Rules of Civil Procedure and CPLR §§ 5225(b) and 5227, Plaintiffs respectfully request that the Court enforce Plaintiffs' judgments against Iran by issuing an order conveying, assigning, and directing the payment to Plaintiffs of all rights, title, and interest of Iran, and its agencies or instrumentalities—Defendants—in the USDTs now in possession of Tether.

PRAYER FOR RELIEF

WHEREFORE, Plaintiffs respectfully request that this Court:

- A. Issue a writ of attachment against all property of Defendants, including the USDT held at the cryptocurrency addresses belonging to Defendants;

- B. Enter judgment declaring that Defendants, and any owners of property held in wallets designated by OFAC as identifiers of CBI, are agencies and instrumentalities of Iran within the meaning of TRIA~~;~~, and that the assets held in the the TNiq Wallet, TTiD Wallet, TAhw Wallet, TJdg Wallet, TXGH Wallet, and TFQb Wallet, and any crypto addresses designated by OFAC as identifiers of Defendants, or CBI, are blocked assets subject to attachment and execution under TRIA;
- C. Issue a writ of execution against all blocked property of Defendants, including the USDT held at the cryptocurrency addresses belonging to Defendants (including any crypto addresses designated by OFAC as identifiers of CBI);
- D. Enter an order directing Tether to turn over all blocked property of Defendants, including the Tether USDT stablecoins, held in the TNiq Wallet ~~and~~, TTiD Wallet, TAhw Wallet, TJdg Wallet, TXGH Wallet, TFQb Wallet, and any crypto addresses designated by OFAC as identifiers of Defendants, or CBI, including by burning and re-minting the same;
- E. Award Plaintiffs other and further relief the Court deems just and proper.

~~Plaintiffs demand a jury trial on all issues so triable.~~

4. About Tether Tokens:

4.1. **Issuances and Redemptions.** Issuances and redemptions of Tether Tokens may be completed with Tether pursuant to these Terms. Tether Tokens may also be used, kept, or exchanged online wherever parties are willing to accept Tether Tokens. Tether may from time to time make Tether Tokens available for purchase subject to minimum purchase and

other requirements. Where Tether makes Tether Tokens available to purchase through the Site, and subject to compliance with these Terms, the purchase price payable by a user for one Tether Token will be one unit of the Fiat currency to which it is pegged (for the USD₮ Tether Token, 1 USD for 1 USD₮; for the MXN₮ Tether Token, 1 Mexican Peso (MXN) for 1 MXN₮), plus fees, where applicable. Each Tether Token in circulation is 100% backed by an amount of assets ("**Reserves**") equal to the stated value of the Tether Token. Tether Tokens are denominated in a specific Fiat currency. For example, if you purchase 100 USD₮, Reserves valued at US\$100.00 back those Tether Tokens. The Reserves are comprised of cash, cash equivalents and other assets and may include loan receivables and other assets from Affiliates. Tether Tokens are backed by Tether's Reserves, including Fiat, but Tether Tokens are not Fiat themselves. Issuances and redemptions of Tether Tokens are administered by Tether. Tether may from time to time make redemptions of Tether Tokens through the Site subject to minimum redemption amounts and other requirements. Subject to compliance with these Terms, the redemption price payable by Tether for one Tether Token will be one unit of the Fiat currency to which it is pegged (for the USD₮ Tether Token, 1 USD for 1 USD₮; for the MXN₮ Tether Token, 1 Mexican Peso (MXN) for 1 MXN₮; and for the CNH₮ Tether Token, 1 offshore Chinese yuan (CNH) for 1 CNH₮) less fees, where applicable. The Fiat currency payable on redemption will be paid to the bank account in your name designated by you via the process specified by Tether. Tether Tokens may be issued on multiple blockchain protocols. In order to cause Tether Tokens to be issued or redeemed by Tether, you must be a verified customer of Tether. The right to purchase Tether Tokens or have Tether Tokens redeemed is a contractual right personal to you. Tether Tokens are not legal tender and are not backed by any Government or protected through any insurance provided by Tether or any of its Affiliates. Tether Tokens are not subject to Federal Deposit Insurance Corporation or Securities Investor Protection Corporation protections, or to analogous protections in other jurisdictions. As previously announced, Tether ceased to redeem: (a) USD₮ pursuant to these Terms on the Omni, Bitcoin Cash SLP, Kusama, EOS, and Algorand blockchains effective as of September 1, 2025; and (b) EUR₮ pursuant to these Terms effective as of November 27, 2025 .

4.2. **Forks.** Tether Tokens are or may be issued on various decentralised and open source blockchains and protocols. Blockchains and protocols can sometimes experience events called “forks” where an alternative version of a blockchain or protocol is created. Where forks occur, it is possible that multiple versions of a Digital Token available on such blockchain or protocol could be created, for example, one on each fork. Due to the nature of Tether Tokens, if a fork creates two or more Digital Tokens which purport to be a Tether Token, it is only possible for one of those Digital Tokens to be a Tether Token. Where a blockchain or protocol on which Tether Tokens are issued is forked, Tether may elect to suspend the Services temporarily or for an extended period of time on little or no notice. As a result, in the event of a fork only the Digital Tokens on the particular blockchain or protocol that Tether or its Affiliate announces on the Site as being supported by Tether or such Affiliate are Tether Tokens. Any other Digital Tokens resulting from the fork are not Tether Tokens.

4.3. **Support for Blockchains and Protocols.** Tether is under no obligation to support, or to maintain support for, any particular blockchain or protocol, including any particular blockchain or protocol or any Digital Tokens, including as a result of a fork of a blockchain, the identification of a security issue, community support or otherwise. Tether may determine, in its sole discretion, whether to support a particular fork of a blockchain or protocol or whether to cease support for all versions of a particular blockchain or protocol (whether as a result of a fork, the identification of a security issue, community support or otherwise). Where Tether determines to cease support for a particular blockchain or protocol (whether as a result of a fork, the identification of a security issue, community support or otherwise), you must take any and all actions reasonably necessary to effectuate the migration of your Tether Token to a supported blockchain or protocol identified by Tether. Tether assumes no liability or responsibility whatsoever arising out of or relating to your failure to effectuate such migration of your Tether Token to another blockchain or protocol identified by Tether.

4.4. **No Liability for Withdrawal of Support.** Tether assumes no liability or responsibility whatsoever for any Losses or other issues that might arise from Tether electing to support or not support a particular blockchain or protocol, any forked version of any particular blockchain or protocol or any Digital Tokens resulting from a fork of a blockchain or protocol.

4.5. **Risk of Wrapped or Bridged Tokens:** It is also possible that a third-party could create a Digital Token which claims to be an alternative version of Tether Tokens, such as by “wrapping” or “bridging” Tether Tokens. These Digital Tokens are not Tether Tokens. They are not sold or issued through the Site or supported by Tether, they cannot be redeemed with Tether or otherwise used with the Site and Tether assumes no liability or responsibility whatsoever for any Losses or other issues that might arise from use of such Digital Tokens.

4.6. **Incurrence of Liability and Passage of Title:** The Parties hereby agree that (i) Tether has obtained authorisation as a Stablecoin Issuer and Digital Assets Service Provider under the El Salvador Regulations for Issuance of Stablecoin Public Offerings and is subject to the regulatory requirements specified by the National Commission of Digital Assets of El Salvador; (ii) each Party incurs liability irrevocably for: (x) the sale and purchase of Tether Tokens through the Site upon the satisfaction of the conditions to purchase through the Site, and, (y) the redemption of Tether Tokens through the Site upon the satisfaction of the conditions to redeem through the Site in each case, such transactions deemed to be located within the Republic of El Salvador; and (iii) title in the Tether Tokens passes from Tether to a verified customer of Tether when Tether initiates transmission of the Tether Tokens to a User Wallet designated by such customer, such initiation deemed to be from the Republic of El Salvador.

5. **Transfer of Tether Tokens; Mechanics:** Your Digital Tokens Address and associated User Wallet are controlled by your private key and your Digital Tokens Address and associated User Wallet, including the ability to access Tether Tokens through the Site, may be stolen or lost and otherwise unrecoverable if the private key is compromised or lost. You accept all consequences of sending Tether Tokens off of, or otherwise interacting with, the Site. Tether Token transactions are not reversible. Once you send Tether Tokens to an address, whether intentionally or by a fraudulent or accidental transaction, you accept the risk that you may lose access to, and any claim on, those Tether Tokens indefinitely or permanently. Further, Tether does not guarantee the security or functionality of third-party software or technology, which may fail or malfunction.

6. **Suspension of Services.** You acknowledge that Tether may delay or suspend your access to the Site or the Services (including in respect of purchases and

redemptions), and through that your ability to interact with the Site or the Services at its sole discretion, including in the event that Tether determines that you have engaged in a Prohibited Use; when Tether suspects that there has been a violation of these Terms; if Tether believes that providing any Service to you (including any purchase or redemption) would be contrary to Law; when Tether is directed to do so by any Government; if your Tether Tokens Wallet or other User Wallet is subject to pending litigation, investigation, or Government proceedings; when Tether believes that someone is attempting to gain unauthorised access to your Tether Tokens Wallet or other account or wallet; or circumstances in which Tether believes that providing any Service to you (including any purchase or redemption) would otherwise expose Tether or any Associate to legal liability or unacceptable risk.

7. **Mandatory Resolution of Disputes Through Arbitration:**

7.1. **Covered Claims.** Except for excluded claims described below in paragraph 7.2, Tether and you each agree that any dispute, claim or controversy arising out of or relating to (a) these Terms or the existence, breach, termination, enforcement, interpretation or validity thereof, or (b) your Tether Tokens Wallet or the operations and services of the Site or any Services, or (c) your access to or use of the Site or any Services at any time, will be subject to and finally resolved by confidential, binding arbitration on an individual basis and not in a class, representative or consolidated action or proceeding. If you are subject to the Laws of the United States of America, the interpretation and enforceability of this arbitration provision will be governed by the U.S. Federal Arbitration Act, 9 U.S.C. §§ 1 et seq. Arbitration will be conducted through the use of videoconferencing technology (unless both arbitration parties agree that an in-person hearing is appropriate given the nature of the dispute) before a single arbitrator in accordance with the International Institute for Conflict Prevention and Resolution International Non-Administered Arbitration Rules, as amended from time to time (the "**CPR Rules**"). The sole arbitrator selected by the arbitration parties must be a licenced attorney in England and Wales or the British Virgin Islands with at least fifteen (15) years of experience in commercial disputes. If the arbitration parties do not jointly appoint an arbitrator within thirty (30) days of the commencement of the arbitration, any vacancies will be filled by an arbitrator meeting the above qualifications selected by the International Institute for Conflict Prevention and Resolution. Judgment upon the

award rendered by the arbitrator may be entered by any court having jurisdiction thereof. If the arbitral parties do not promptly agree on the seat of arbitration if an in-person hearing is selected, the seat will be London, United Kingdom. The language of the arbitral proceedings will be English. No discovery shall be conducted except by agreement of the parties or after approval by the arbitrator, who shall attempt to minimise the burden of discovery. The arbitrator may award any relief that a court of competent jurisdiction could award, including attorneys' fees when authorised by Laws, and the arbitral decision may be enforced in court. For claims less than U.S.\$15,000, Tether will reimburse you for all initiating filing fees. Should you be deemed the losing party, the filing fees reimbursed by Tether will be added to the final arbitrator's costs and fees award. The prevailing party, will be entitled to its costs of the arbitration (including the arbitrator's fees) and its reasonable attorney's fees and costs.

7.2. **Excluded Claims.** The following claims and causes of action will be excluded from arbitration as described in paragraph 7.1: causes of action or claims in which either party seeks injunctive or other equitable relief for the alleged unlawful use of its intellectual property, including without limitation copyrights, trademarks, trade names, trade secrets, or patents or its confidential information or private data. Nothing in this paragraph 7 will prevent Tether from seeking any other form of injunctive relief in any court of competent jurisdiction, whether or not interim relief has also been sought from the arbitrator.

7.3. **Delegation.** The arbitrator will have the power to hear and determine challenges to its jurisdiction, including any objections with respect to the formation, existence, scope, enforceability or validity of the arbitration agreement. This authority extends to jurisdictional challenges with respect to both the subject matter of the dispute and the parties to the arbitration. Further, the arbitrator will have the power to determine the existence, validity, or scope of the contract of which an arbitration clause forms a part. For the purposes of challenges to the jurisdiction of the arbitrator, each clause within this paragraph 7 will be considered as separable from any contract of which it forms a part. Any challenges to the jurisdiction of the arbitrator, except challenges based on the award itself, will be made not later than the notice of defence or, with respect to a counterclaim, the reply to the counterclaim; provided, however, that if a

claim or counterclaim is later added or amended such a challenge may be made not later than the response to such claim or counterclaim as provided under the CPR Rules.

7.4. **Class Action Waiver.** You and Tether expressly intend and agree that: (a) class action and representative action procedures are hereby waived and will not be asserted, nor will they apply, in any arbitration pursuant to these Terms; (b) neither you nor Tether will assert class action or representative action claims against the other in arbitration or otherwise; (c) each of you and Tether will only submit their own, individual claims in arbitration and will not seek to represent the interests of any other person, or consolidate claims with any other person; (d) nothing in these Terms will be interpreted as your or Tether's intent to arbitrate claims on a class or representative basis; and (e) any relief awarded to any one user of the Site or the Services cannot and may not affect any other user of the Site or the Services. No adjudicator may consolidate or join more than one Person's or party's claims and may not otherwise preside over any form of a consolidated, representative, or class proceeding.

7.5. **Confidentiality.** The Parties will maintain the confidential nature of the arbitration proceeding and any award, including the hearing, except as may be necessary to prepare for or conduct the arbitration hearing on the merits, or except as may be necessary in connection with a court application for a preliminary remedy, a judicial challenge to an award or its enforcement, or unless otherwise required by Law or judicial decision.

7.6. **JURY TRIAL WAIVER: TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, THE PARTIES HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVE ALL RIGHT TO TRIAL BY JURY IN ANY LEGAL ACTION OR PROCEEDING OF ANY KIND WHATSOEVER ARISING OUT OF OR RELATING TO THESE TERMS OR ANY BREACH THEREOF, ANY USE OR ATTEMPTED USE OF THE SITE OR THE SERVICES BY YOU, AND/OR ANY OTHER MATTER INVOLVING THE PARTIES.**

From time to time, Tether receives information requests about its customers from law enforcement agencies around the world. This page is here to provide you and law enforcement with information about how these requests are processed.

When Tether is contacted, law enforcement is generally interested in two types of data: information about customers' identities and information about their activities using Tether Tokens. As well, as part of their investigation, law enforcement may be interested in requesting that an address is frozen.

When information requests are received, Tether requires that it be accompanied by appropriate legal process. This can vary from place to place. For example, production orders, search warrants, and subpoenas, but also requests for voluntary disclosure of data may all amount to legal process. Tether reviews each order and request for voluntary disclosure to determine that it has valid legal basis and that any response is narrowly tailored to ensure that only the data to which law enforcement is entitled is provided. Similarly, requests to freeze Tether addresses should be accompanied by appropriate legal process.

Tether also reserves the right to make disclosures to authorities in order to protect itself, any Associates, and its customers.

Tether welcomes inquiries from law enforcement agencies about its policies and procedures. Please contact Tether at inforequests@tether.to.

This Tether Token Risk Disclosure Statement ("**Statement**") provides you with a summary of certain risks you should consider when deciding whether to purchase, hold or dispose of Tether Tokens or use the Services offered by Tether (each, as defined in the Tether Token Terms of Service (the "**Terms**")). By purchasing, holding and disposing Tether Tokens or using the Services offered by Tether, you acknowledge that you have read and understand this Statement. You should not purchase, hold or dispose of Tether Tokens or use the Services offered by Tether unless you understand the related risks.

This Statement discusses some of the principal risks of Tether Tokens and the Services, but it does not and cannot describe every risk or consideration associated with Tether Tokens and the Services. This Statement utilizes certain terms that are defined in the Terms. Please consult the Terms for further information regarding those terms.

Risks of purchasing, holding and disposing of Tether Tokens and using the Services include, but are not limited to, the following:

1. **Market Risk:** Secondary Market prices for Tether Tokens can fluctuate and be unpredictable due to a variety of factors outside of Tether's control. Whether the future market price for a Tether Token will move up or down, or even sustain a market value, is unknowable. There is no assurance that Tether Tokens will maintain their long-term value in the future or that the acceptance of Tether Tokens for payments by mainstream and commercial businesses will continue to grow. A Tether Token may trade at, above or below the unit of Fiat for which such token is redeemable. The market price of Tether Tokens in Secondary Markets could fluctuate in response to conditions in those markets irrespective of the value of the unit of Fiat underlying a Tether Token. The amount of the discount or premium in the market price for Tether Tokens relative to the unit of Fiat for which a Tether Token is redeemable may be affected by the trading activity in Tether Tokens, the ease and costs of redemption, and other factors. Tether cannot control how third parties value Tether Tokens. For purposes of this Statement, the term "**Primary Market**" refers to users purchasing or selling Tether Tokens directly through the Site and "**Secondary Market**" refers to any transaction in Tether Tokens other than with users and transactions taking place in the Primary Market.
2. **Settlement Risk:** Tether may from time to time make Tether Tokens available for purchase subject to minimum purchase and other requirements which are not set forth on the Site. Redemptions of Tether Tokens or exchanges of Tether Tokens for Tether Tokens issued on another protocol may also be subject to requirements imposed by Tether. Tether may amend the Terms at any time, without notice. Transactions and settlement conditions imposed by Tether may not be set forth on the Site at the time of transaction and the period for the settlement of any transaction in Tether Token may depend upon these transaction and settlement conditions. Tether makes no representations or warranties that it will sell or exchange new Tether Tokens on comparable terms or on any terms in the future.
3. **Liquidity and Listing Risk:**
 - 3.1. Markets for Digital Tokens can have varying degrees of liquidity. Some markets may be quite liquid while others may be thinner or possibly even illiquid. Thin and illiquid Secondary Markets can experience greater volatility in market prices. Tether Tokens may be issued by Tether on multiple blockchains in its sole discretion. Tether Tokens trading on one blockchain may not be readily exchangeable for Tether Tokens trading on a different blockchain. There is never a guarantee that there will be an active Primary Market or Secondary Market for you to purchase or dispose of Tether Tokens.

- 3.2. Trading exchanges or markets may list Tether Tokens and may delist them from trading without prior notice or consent by Tether or anyone else. Furthermore, it is possible that any Secondary Market for Tether Tokens could abruptly appear and then vanish. Merchants and other commercial parties who accept Tether Tokens for their goods and services do so at their discretion. They may cease to accept Tether Tokens in the future or value them at less than their redemption value. Tether may cease supporting the availability of Tether Tokens on any particular blockchain. The use of Tether Tokens in any trading exchange, market or commercial transaction does not require permission from Tether and does not constitute an endorsement by Tether.
4. **Risk Related to Reserves:** Each Tether Token in circulation is backed by an amount of Reserves equal to the redemption value of the Tether Token. The preparation of transparency disclosures and the valuations of the Reserves may involve uncertainties and judgmental determinations. Independent pricing information about some of the Reserves may not always be available and any assumptions made may include normal trading conditions without a large-scale sale, and valuing certain assets at cost and others at fair value. In some cases, there is limited historical experience upon which to base these estimates and assumptions. Reported information may be adversely affected if assumptions change or if actual circumstances differ from those in the estimates and assumptions. Reserves could be subject to unexpected diminution in value if any of those assumptions prove not to be correct. This may result in delays and other barriers to redemption and sale. For further information on transparency disclosures, please refer to paragraph 16 below.
- 4.1. **No Government Backing:** Tether Tokens are not legal tender and are not issued, backed, or guaranteed by any Government and, consequently, some of the protections that apply to Fiat currencies do not apply to Tether Tokens. For instance, no Government can be expected to bolster the value of Tether Tokens in case of a crash in value.
- 4.2. **No Security:** Your right to request redemption of your Tether Tokens is a contractual right and does not represent security in favour of a holder of Tether Tokens. Post sale, Tether's only obligation is to redeem Tether Tokens through the Site subject to the Terms.
- 4.3. **Liquidity Risk:** Although Tether seeks to ensure that the majority of its Reserves are held in liquid assets, there can be no assurance that the liquidity of the Reserves will always be sufficient to meet redemption requests as and when made. As a consequence, it is possible that the redemption of Tether Tokens may be deferred or suspended in certain circumstances.
- 4.4. **Banking Risk:** Tether relies on financial institutions and intermediaries to hold funds, cash equivalents, and other assets forming part of the Reserves. Such Reserves held at or through financial institutions or intermediaries may be subject to the risk of loss, theft, insolvency, and governmental and regulatory freezes and seizures. Furthermore, these parties have their own policies and may change their view and acceptance of Tether which could affect Tether's access to its reserves at any time. Financial institutions or intermediaries may refuse to process funds for Digital Token transactions, process wire transfers to or from Digital Token trading platforms, Digital Token-related companies or service providers, or maintain accounts for persons or entities transacting in Digital Tokens. This may result in delays and other barriers to redemption and sale of your Tether Tokens. You should be aware of these risks at all times.
- 4.5. **Obligations and Reserves Uninsured:** Neither Tether Tokens nor the Reserves are insured by a private company or Government, and are not subject to Federal Deposit Insurance Corporation or Securities Investor Protection Corporation protections, or to analogous protections in other jurisdictions. Accordingly, any loss you may experience as a holder of Tether Tokens would not be offset by any insurance payment.
- 4.6. **Counterparty Risk:** Reserves may include loan receivables owed to Tether and its Affiliates and other assets that depend upon the performance of a counterparty, including Affiliates of Tether. These assets are subject to the risk of default, insolvency, inability to collect, inability to enforce rights over security (if any), illiquidity of any counterparty and possible invalidation of transactions under relevant creditor and insolvency laws. The inability of Tether or its Affiliates to recover funds owed by counterparties will adversely impact the value the Reserves. Tether is not responsible for any loss that any counterparty may cause to you.
5. **Risk Related to Redemption of Tether Tokens:** Redemption requests must comply with the Terms. The execution of such redemption requests could be subject to postponement or rejection by Tether under certain circumstances. In addition, Tether will reject a redemption request if it is not in proper form or if the fulfillment of the request might be unlawful. Any such postponement or rejection could adversely affect a redeeming holder of Tether Tokens. Tether reserves the right to delay the redemption or withdrawal of Tether Tokens if such delay is necessitated by the illiquidity or unavailability or loss of any Reserves held by Tether to back the Tether Tokens. Redemption is subject to fees and conditions that may make the exercise

of your right to redemption impractical or reduce the profit from the exercise of such rights. You should consult your own tax advisors as to the tax consequences of redemption.

6. **Risks of Third Parties:** Once you send Tether Tokens to an address of a third party, you are subject to a risk that access to, and any claim on, those Tether Tokens may be lost permanently if the Tether Tokens are transferred to an address or wallet that the intended recipient does not control, including as a result of: (i) sending Tether Tokens to an incorrect address; or (ii) the intended recipient no longer holding the private keys to that address. Transferring Tether Tokens to any other person or depositing Tether Tokens with any third party in a custodial relationship has attendant risks. These risks include security breaches, risk of contractual breach, and risk of loss. You should carefully consider the risks of allowing third parties to hold your property for any reason.
7. **Risks of Immutable Transactions:** Blockchain transactions are immutable. Once a transaction is completed on the blockchain underlying a Tether Token, the transaction is irreversible, and Tether does not have the ability to reverse or recall any transaction. You bear all responsibility for any loss that might be incurred as a result of sending Tether Tokens to an incorrect or unintended blockchain address. None of Tether or its Affiliates have any obligation to track or verify any Tether Token transactions.
8. **Conflicts of Interest Risk:** From time to time, Tether and its Affiliates may enter into contracts with persons who are related parties. There is a risk that the proximity of the counterparties in related-party transactions may compromise the objectivity and impartiality of decisions relating to the terms of those transactions.
9. **Regulatory Risk in Issuance and Transfer:** The applicable legal regime and legality of transactions involving Tether Tokens may not be clear and may vary under the laws of different jurisdictions. For example, whether and on what basis a Tether Token may constitute property, an asset, a financial instrument or a right of any kind might vary from one jurisdiction to another. Prospective purchasers or holders of Tether Tokens are responsible for knowing and understanding how the laws apply to them or their property, rights or assets in their jurisdiction.
10. **Risks of Regulatory Change and Enforcement Actions:** Regulators continue to assess how Digital Tokens, such as Tether Tokens, should be regulated. Any new regulation could potentially affect or impair Tether's ability to operate and may raise transaction costs, potentially offsetting and/or eliminating many of the key benefits of stablecoins. Changes in the regulatory environment may impact the ability of, or process for, users to acquire and redeem Tether Tokens, and the availability of Secondary Markets. In addition, if Tether fails to comply with changing regulatory regimes, Tether and its Affiliates may be subject to regulatory actions, which may adversely affect Tether and its ability to operate. Tether and its Affiliates have been, are, and may continue to be subject to regulatory and other investigations in various jurisdictions. The outcome of any pending or future regulatory or other investigation could have a materially adverse impact on Tether and its Affiliates and their ability to operate.
11. **Commingling and Redemption Risks:** Any Tether Tokens transferred to Tether to enable redemptions may be commingled with the Tether Tokens of other users of the Site and with the Tether Tokens of Tether and its Affiliates and service providers. Transferring Tether Tokens to Tether exposes you to risks of loss from, among other things, security breaches from cyber attacks that hack and steal Tether Tokens, electronic or technological failures that impede or prevent access, or recordkeeping errors.
12. **Blockchain Network and Protocol Risks:** Tether Tokens may be issued by Tether on multiple blockchains in its sole discretion, but Tether does not own or control the blockchain protocols which govern the operation of the Tether Tokens. In general, the underlying protocols are open source and anyone can use, copy, modify, and distribute them. These blockchain networks and protocols may not have the functionality, security, or availability desired by a user of Tether Tokens. Some of the protocols are subject to consensus-based proof of stake validation methods which may allow, by virtue of their governance systems, changes to the associated blockchain or digital ledger, and the operation of the Tether Tokens on such blockchains may be affected accordingly. Protocols are subject to the possibility that miners and users begin using different versions of the protocol, resulting in a fork. Forks of protocols can create security concerns due to reduced network distribution and questions as to protocol operability. These could impact the operation of Tether Tokens on a forked network. In addition, the growth and development of Tether Tokens and their underlying networks and other cryptographic and algorithmic protocols governing the creation, transfer, and usage of Tether Tokens are subject to a variety of factors that are difficult to evaluate, including that Tether maintains and secures crucial administrative cryptographic keys for the operation of Tether Tokens protocols on public blockchains. Breaches in the custody, control and operations associated with these keys could lead to failures in the operation of Tether Tokens. Protocols are subject to the possibility that miners and users begin using different versions of the protocol, resulting in a fork. Forks of protocols can create security concerns due to reduced

network distribution and questions as to protocol operability. Where a blockchain or protocol on which Tether Tokens are issued is forked, Tether may elect to suspend Services temporarily or for an extended period of time on little or no notice.

13. **Risk of Account or Transfer Freeze:** Tether may suspend or terminate your access to the Site or any of the Services, freeze any Tether Tokens held by you, or terminate your Tether Token Wallet, as required by applicable Law or where Tether, in its sole discretion, determines it is prudent to do so or where you have violated, breached, or acted in a manner inconsistent with any provision of these Terms or applicable Law. If Tether Tokens are frozen or destroyed, you will not be able to make transfers of those Tether Tokens to or from your wallet. In the event that you attempt to send Tether Tokens to a sanctioned or suspicious blockchain address, Tether may freeze the Tether Tokens. In certain circumstances, Tether may be required to report suspected illegal activity to applicable law enforcement agencies and you may forfeit any rights associated with your Tether Tokens.
14. **No Advice from Tether:** Tether does not provide investment, portfolio management, legal, accounting, tax or other advice, or advice on trading techniques, models, algorithms, or any other schemes. All information provided in connection with your access and use of the Services is for informational purposes only and should not be construed as professional advice. You should not take, or refrain from taking any action based on any information contained on the Site or any other information that we make available at any time. You should not take, or refrain from taking any action based on any information contained on the Site or any other information that we make available at any time. Before you make any financial, legal, or other decisions involving the Services, you should seek independent professional advice from an individual who is licensed and qualified in the area for which such advice would be appropriate.
15. **Cyber Security Threats and Operational Challenges:** The nature of Digital Tokens may lead to an increased risk of fraud or cyberattack. Tether may experience sophisticated cyberattacks, unexpected surges in activity or other operational or technical difficulties that may cause interruptions in the Services. You are aware of and accept the risk of cyberattacks and operational challenges. You understand that cyberattacks and operational challenges may lead to delays, including delays in the ability to redeem your Tether Tokens. Tether is not responsible for any loss that might arise from any cyberattacks or operational challenges.
16. **Transparency:** Tether reports information about Tether Tokens and Reserves at tether.to/en/transparency. This information is provided as part of Tether's continued commitment to transparency, it is not a part of the Terms, and should not be relied upon in a decision to utilize the Services or to hold or transact in Tether Tokens. The information provided is based on the information available to Tether, which may be delayed. In addition, the information is not a representation or warranty to any person except as otherwise agreed in writing by Tether.
 - 16.1. **Limited Accounting Guidance:** There is limited guidance from accounting standards setting bodies on applying complex financial accounting rules to stablecoins. There is also limited precedent in financial reporting by other companies. This creates significant uncertainty in the proper accounting and disclosure for certain assets and transactions. Accounting standards setting bodies may adopt new principles, and precedents may develop, which could have a significant effect on the information reported by Tether. Uncertainties in, or changes to financial accounting standards could result in the need to change accounting methods and may impair Tether's ability to continue to provide transparency disclosures.
 - 16.2. **Estimates and Assumptions:** The preparation of transparency disclosures requires Tether to make estimates and assumptions that affect the amounts reported. These assumptions include normal trading conditions without a large-scale sale and valuing certain assets at cost and others at fair value. In some cases, there is limited historical experience upon which to base these estimates and assumptions. Reported information may be adversely affected if assumptions change or if actual circumstances differ from those in the estimates and assumptions.
 - 16.3. **Timing:** Information contained in the transparency pages is only accurate as of the dates provided, and Tether does not undertake to notify users of the Services or holders of the Tether Tokens of any updates to this information. Accordingly, the information available in the transparency pages at any time may not reflect the Reserves or the Tether Tokens in circulation at the time the information is reviewed.
 - 16.4. **Limited Information:** The information presented in the transparency pages is subject to the limitations, qualifications and assumptions expressed therein. It does not purport to be financial statements of Tether. The independent accountant's reports issued in respect of Tether's consolidated reserves reports are issued to the Board of Directors and Management of Tether Holdings, S.A. de C.V. and are not for the benefit of users of the Services or holders of Tether Tokens.

17. **Litigation Risk:** As of the date set forth above in this Statement, Tether and its Affiliates are defendants in ongoing civil litigation proceedings, and may be subject to further litigation (including civil and administrative proceedings). There can be no assurance that Tether will not be added as defendants to further litigation, or that the outcome of any such proceedings will be favourable to Tether and its Affiliates. Any such unfavourable outcome or any other legal proceeding in the future could have a material adverse effect on Tether, its Affiliates and the Reserves.
18. **Publicity Risk:** Unfavourable media coverage can negatively affect the value of the Tether Tokens on the Secondary Market. Tether, its Affiliates, and Tether Tokens receive a high degree of media and social media coverage around the world. Unfavourable publicity regarding, for example, liquidity, litigation or regulatory activity, the Reserves, privacy practices, terms of service, the use of Tether Tokens for illicit or objectionable ends, has in the past, and could in the future, adversely affect the Secondary Market price of Tether Tokens.
