UPDATE FROM NEBO

Already in 2020, in the wake of COVID-19, there have been quite a few updates sent out from NEBO. Currently there are almost daily conversations with the NEBO Executive Committee as more information is released regarding plans for credit availability and the impact this virus will have on our processes for those recertifying in the next few years. As we await final decisions for this fall and the style of future meetings for Ocularists to come, please know your NEBO Board has many contingency plans already worked out in case the impact is further reaching than just 2020.
