**For Immediate Release**

**“Statement on the League City Council Meeting on November 28th, 2023”**

**League City, Texas November 29th, 2023-** Last night, the city council voted in a 4 to 3 decision to remove the city attorney, Nghiem Doan. He will be replaced by Deputy Michelle Villarreal. This was a politically motivated firing, which was acknowledged by Mayor Long.

This decision could potentially cost the city hundreds of thousands of dollars as echoed by Council Members Chad Tressler and Tom Crews. Council Member Sean Saunders asked that the vote wait until there is a full council.

It's decisions like these that highlight how there's a clear divide among our council members. Despite the differences in opinion that led to this decision, my commitment is to foster unity within our city council. I believe in open dialogue, collaboration, and finding common ground to address the challenges our community faces. Together, we can work towards a more cohesive and effective council that prioritizes the best interests of our city and its residents.
