## CAPE COD CLIMATE

What a busy weekend we had! Friday and Saturday we spent in Cape Cod. In just 2 days, we had FOUR climate events! This weekend was "Rise for Climate," which occurred on each continent worldwide; demanding climate action from leaders. We attended 3 events on Saturday, which marked the "day of action." Shahir's voice was tired by the end of the day! We had a significant amount of media coverage! While usually speaking in

more formal attire, Shahir broke out his activist T-shirt for the international day of action (shown above)! We also had our interview with former Senator, Barbara Boxer this week. We'll share the link when available. *Beyond Debate* had a great weekend and peaked a lot of interest, with over 50 copies sold! That brings us to this week's spotlight, which is

# THE CAPE COD CRAZE!

This weekend on the Cape we had 4 climate talks in less than 30 hours! It was extremely busy, but exciting. Highlights and photos from each event are below.

**Event 1** (above) was on Friday, Sept 7th. We had a great turnout at the Harwich community center and covered climate impacts and local issues. We learned that communities in the Cape are very torn over proposed wind power projects.

**Event 2** was a "Rise for Climate" rally hosted by 350.org on Sat morning.

The event was one of many hosted around the world that day. Shahir spoke of the importance of getting active and demanding a price on carbon from our Washington! Other speakers urged support of wind power on the Cape.

**Event 3** was held in Plymouth at First Parish Church. Shahir was one of three speakers. One speaker was a retired bird scientist who spoke of the plight of shore birds, largely due to climate change.

**Event 4** was held at Cape Space in Hyannis. On the Cape, residents have been observing more ticks, earlier springs, and coastal erosion. Even the bark beetle has made its way to town, destroying pine trees!

## UPCOMING EVENTS
