### IN PRAISE OF "BEYOND DEBATE"

*"Written in an easily understandable and positive style, this concise and refreshing book explains what is true and not true about one of the most important environmental problems of our time, and offers approaches each of us can take to contribute to a more sustainable world."*—Dr. Arthur Winer, Professor Emeritus, UCLA

*"If you are confused about any aspect of climate change, you need to read this book. Even if you are convinced of its urgency, you will learn a lot you didn't know."*—Dr. Nicholas Ashford, Professor, MIT

*"The next generation of climate change activists led by Shahir Masri and his peers is taking over. Shahir's book Beyond Debate, obliterates the false arguments to do nothing. Though Shahir has a doctorate degree in environmental health and is smart as can be, he writes in everyday language, making climate science readable, and understandable. Clear up all doubt, read this book!"*—Marshall Saunders, Founder, Citizens' Climate Lobby
