

DR. SHAHIR MASRI

ENVIRONMENTAL SCIENTIST
AUTHOR
PUBLIC SPEAKER

PRESENTATION TOPICS

CLIMATE CHANGE

- Learn about the causes, impacts, and solutions relating to global climate change.

HOW TO GREEN YOUR BUSINESS

- Discover improvements that will green your business AND save you money.

RENEWABLE ENERGY & SUSTAINABILITY

- Hear the latest on global energy, from fossils fuels and nuclear to solar power and wind.

HOW TO LOWER YOUR CARBON FOOTPRINT

- Discover lifestyle changes that will reduce your negative impact on the environment.

ENVIRONMENTAL POLICY

- Discussing environmental policies past & present, including The Green New Deal, etc.

"ON THE ROAD FOR CLIMATE ACTION" PROJECT

- Hear stories and lessons learned from a national climate outreach project across 40 states.

CLIMATE MISCONCEPTIONS IN "BEYOND DEBATE"

- Based on my new book, we'll discuss the facts and fictions surrounding climate change.

GRASSROOTS ACTIVISM & LEADERSHIP

- Discover useful tips to becoming an effective leader and grassroots mobilizer.

TOXIC CHEMICALS: HOW TO REDUCE YOUR EXPOSURE

- Learn simple ways to avoid toxic chemicals in cosmetics, cleaning agents, food, and more.

AUDIENCE TESTIMONIALS

"Dr. Masri is an intelligent, educated and informed expert on the critical need to take action to avert massive devastation to the global environment. His committed work on behalf of sustainability is inspiring and gives hope that we, humans, can still make a difference to the globe with accurate information and appropriate action needed to restore balance. We applaud his efforts on behalf of climate action." -Dr. Susan Chamberlain, President of OC Interfaith Coalition for the Environment

"There are many scientists who get climate change and understand the dire consequences we face if we, as a global community, don't act, but most scientists don't carry the message to the public. Shahir, like James Hansen and Michael Mann, is doing the right thing. He is using his knowledge, energy and creativity to go beyond the ivy covered university walls and work for needed change." -Mark Tabbert, Governing Board of Citizens' Climate Education

Dr. Masri is making a ground level impact that is rising to the highest levels of social change." -Frank Lane, Executive Director, UnitedVegan.org
