ABOUT AMIGO

Amigo Mobility International was founded in 1968 by Al Thieme when he invented the first three-wheel mobility vehicle for a family member with a disability. Little did he know that a long-lasting family business and an entire industry had just been born.

With our roots originating in healthcare, finding quality solutions for mobility needs has become our passion. We have over half a century's worth of experience in designing and manufacturing products that serve others, and our pace of innovation continues to accelerate. We proudly manufacture all Amigo carts in Michigan, USA.

From the creation of a single healthcare unit, Amigo has grown to include a robust grocery and retail division and is now expanding into material handling. Moving more is our business, and our mission continues to be *Improving Lives Through Mobility*®.

GIVE YOUR TEAM AN EDGE

“The Dex Pro helps me cover more ground in our large facility without feeling fatigued. It allows me to easily and safely move materials in and out of areas that other industrial carts can't go. They are in use for 16 to 20 hours per day.”

- *John Kocisky*
Quality Assurance Specialist
FEDEX GROUND

IDEX Pro™

DEX PRO

Stand-up platform carrier

24-volt battery system extends run time and charges in a 110V outlet

Platform deck dimensions: 40" x 22"/102 cm x 56 cm

30+ mile continuous run time

Narrow turning radius: 42.5"/108 cm

1,100 lb/498 kg capacity, including rider

Battery gauge, hour meter and smart diagnostics on handle for quick troubleshooting

Fits through a standard doorway

Overall dimensions: 81" x 26"/206 cm x 66 cm

Adjustable speed up to 4 mph/6.4 kph

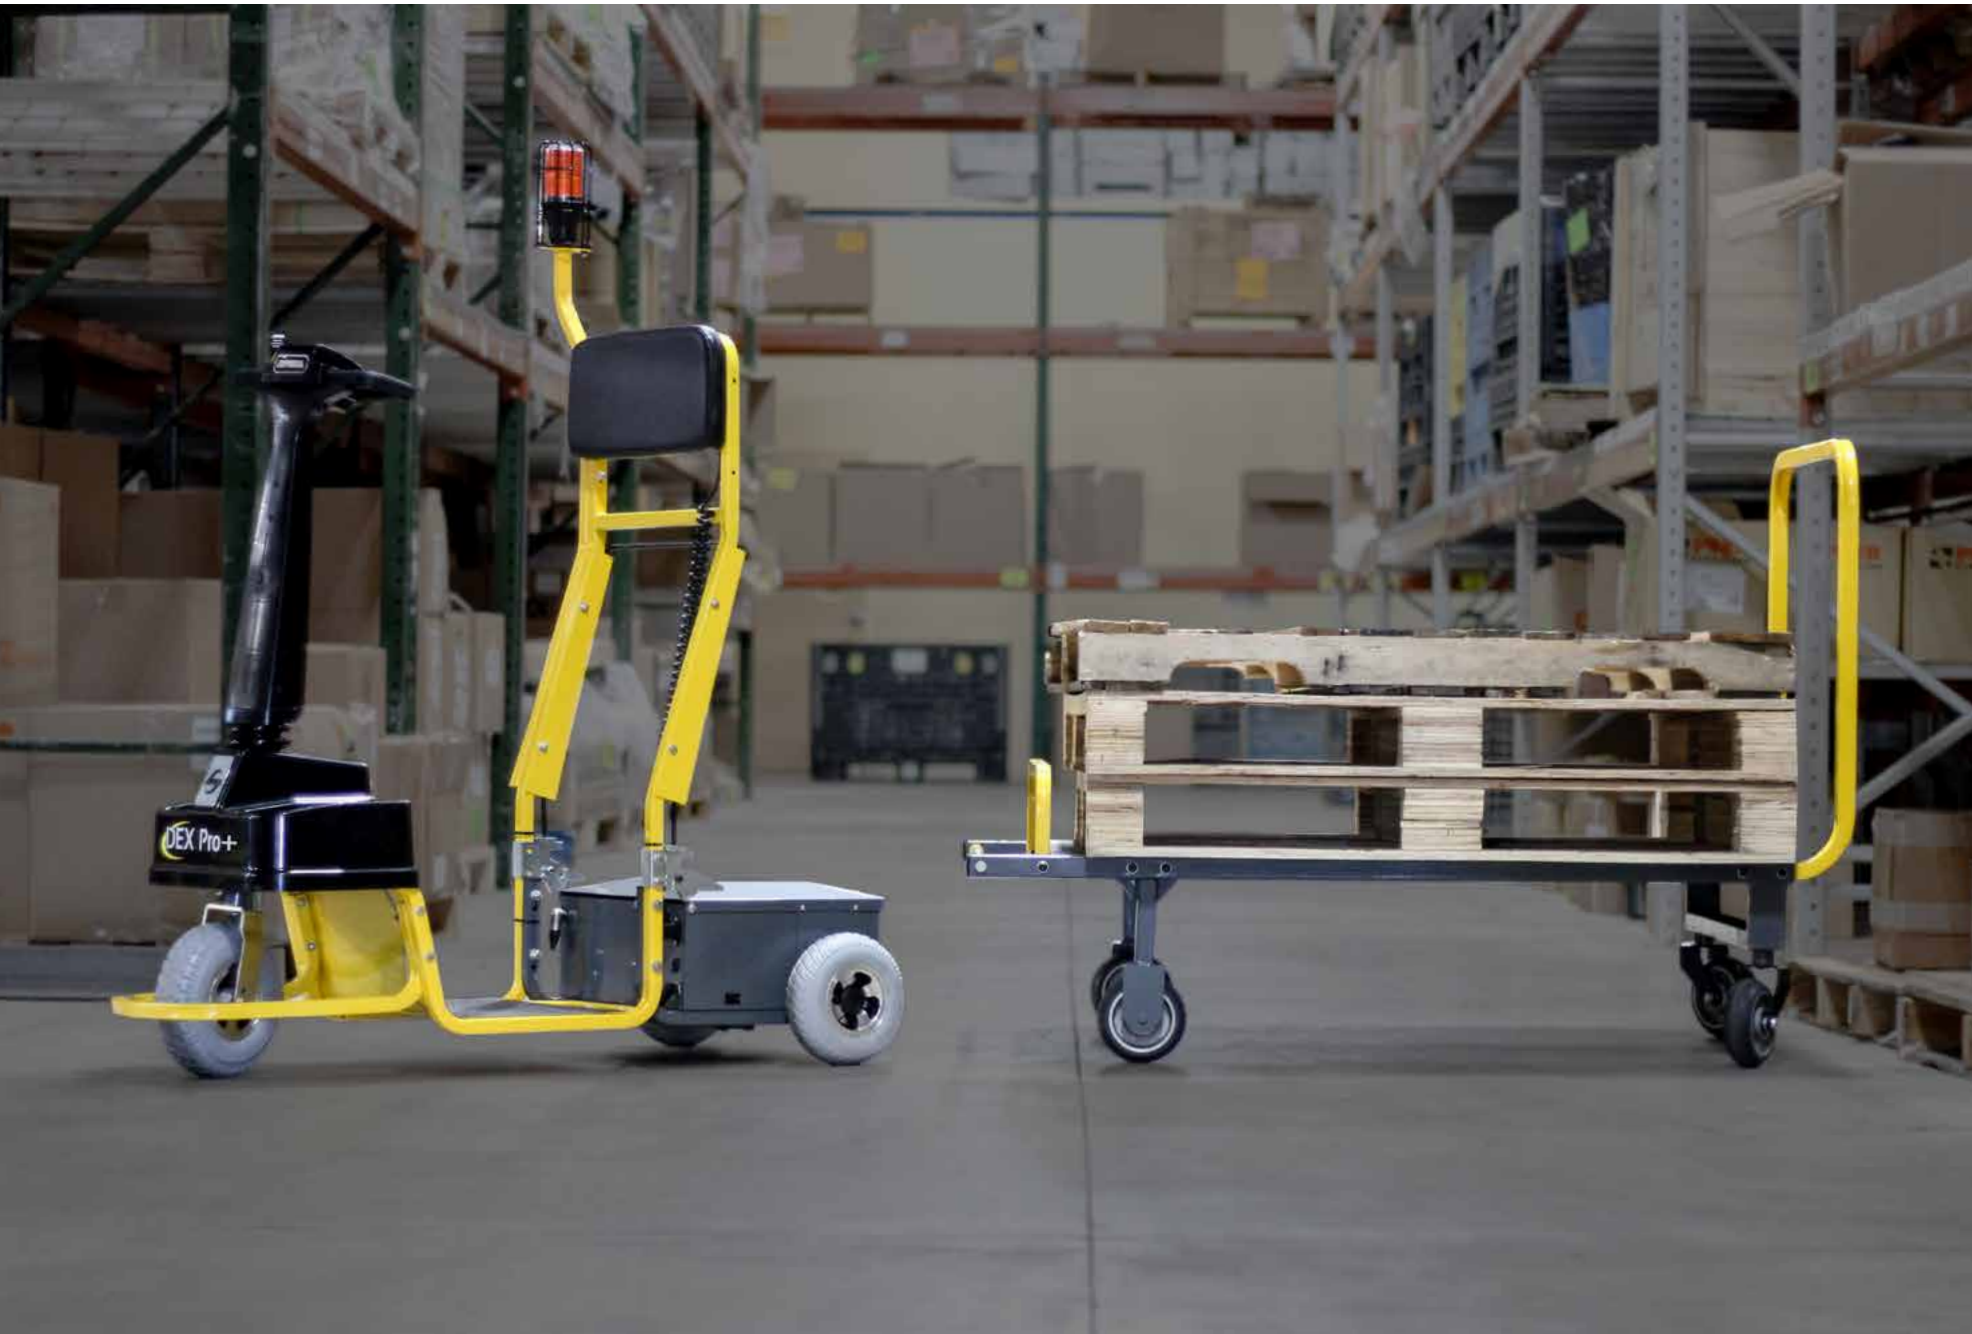

Dex Pro is easy to maneuver in tight spaces and increases efficiency.

IDEX Pro+™

DEX PRO+

Stand-up carrier with detachable trailer

Detachable trailer provides a drop-and-go solution

Trailer dimensions: 50" x 30"/127 cm x 76 cm

24-volt battery system extends run time and charges in a 110V outlet

Turning radius: 52.5"/133 cm

1,100 lb/498 kg capacity, including rider

Trailer fits a standard pallet

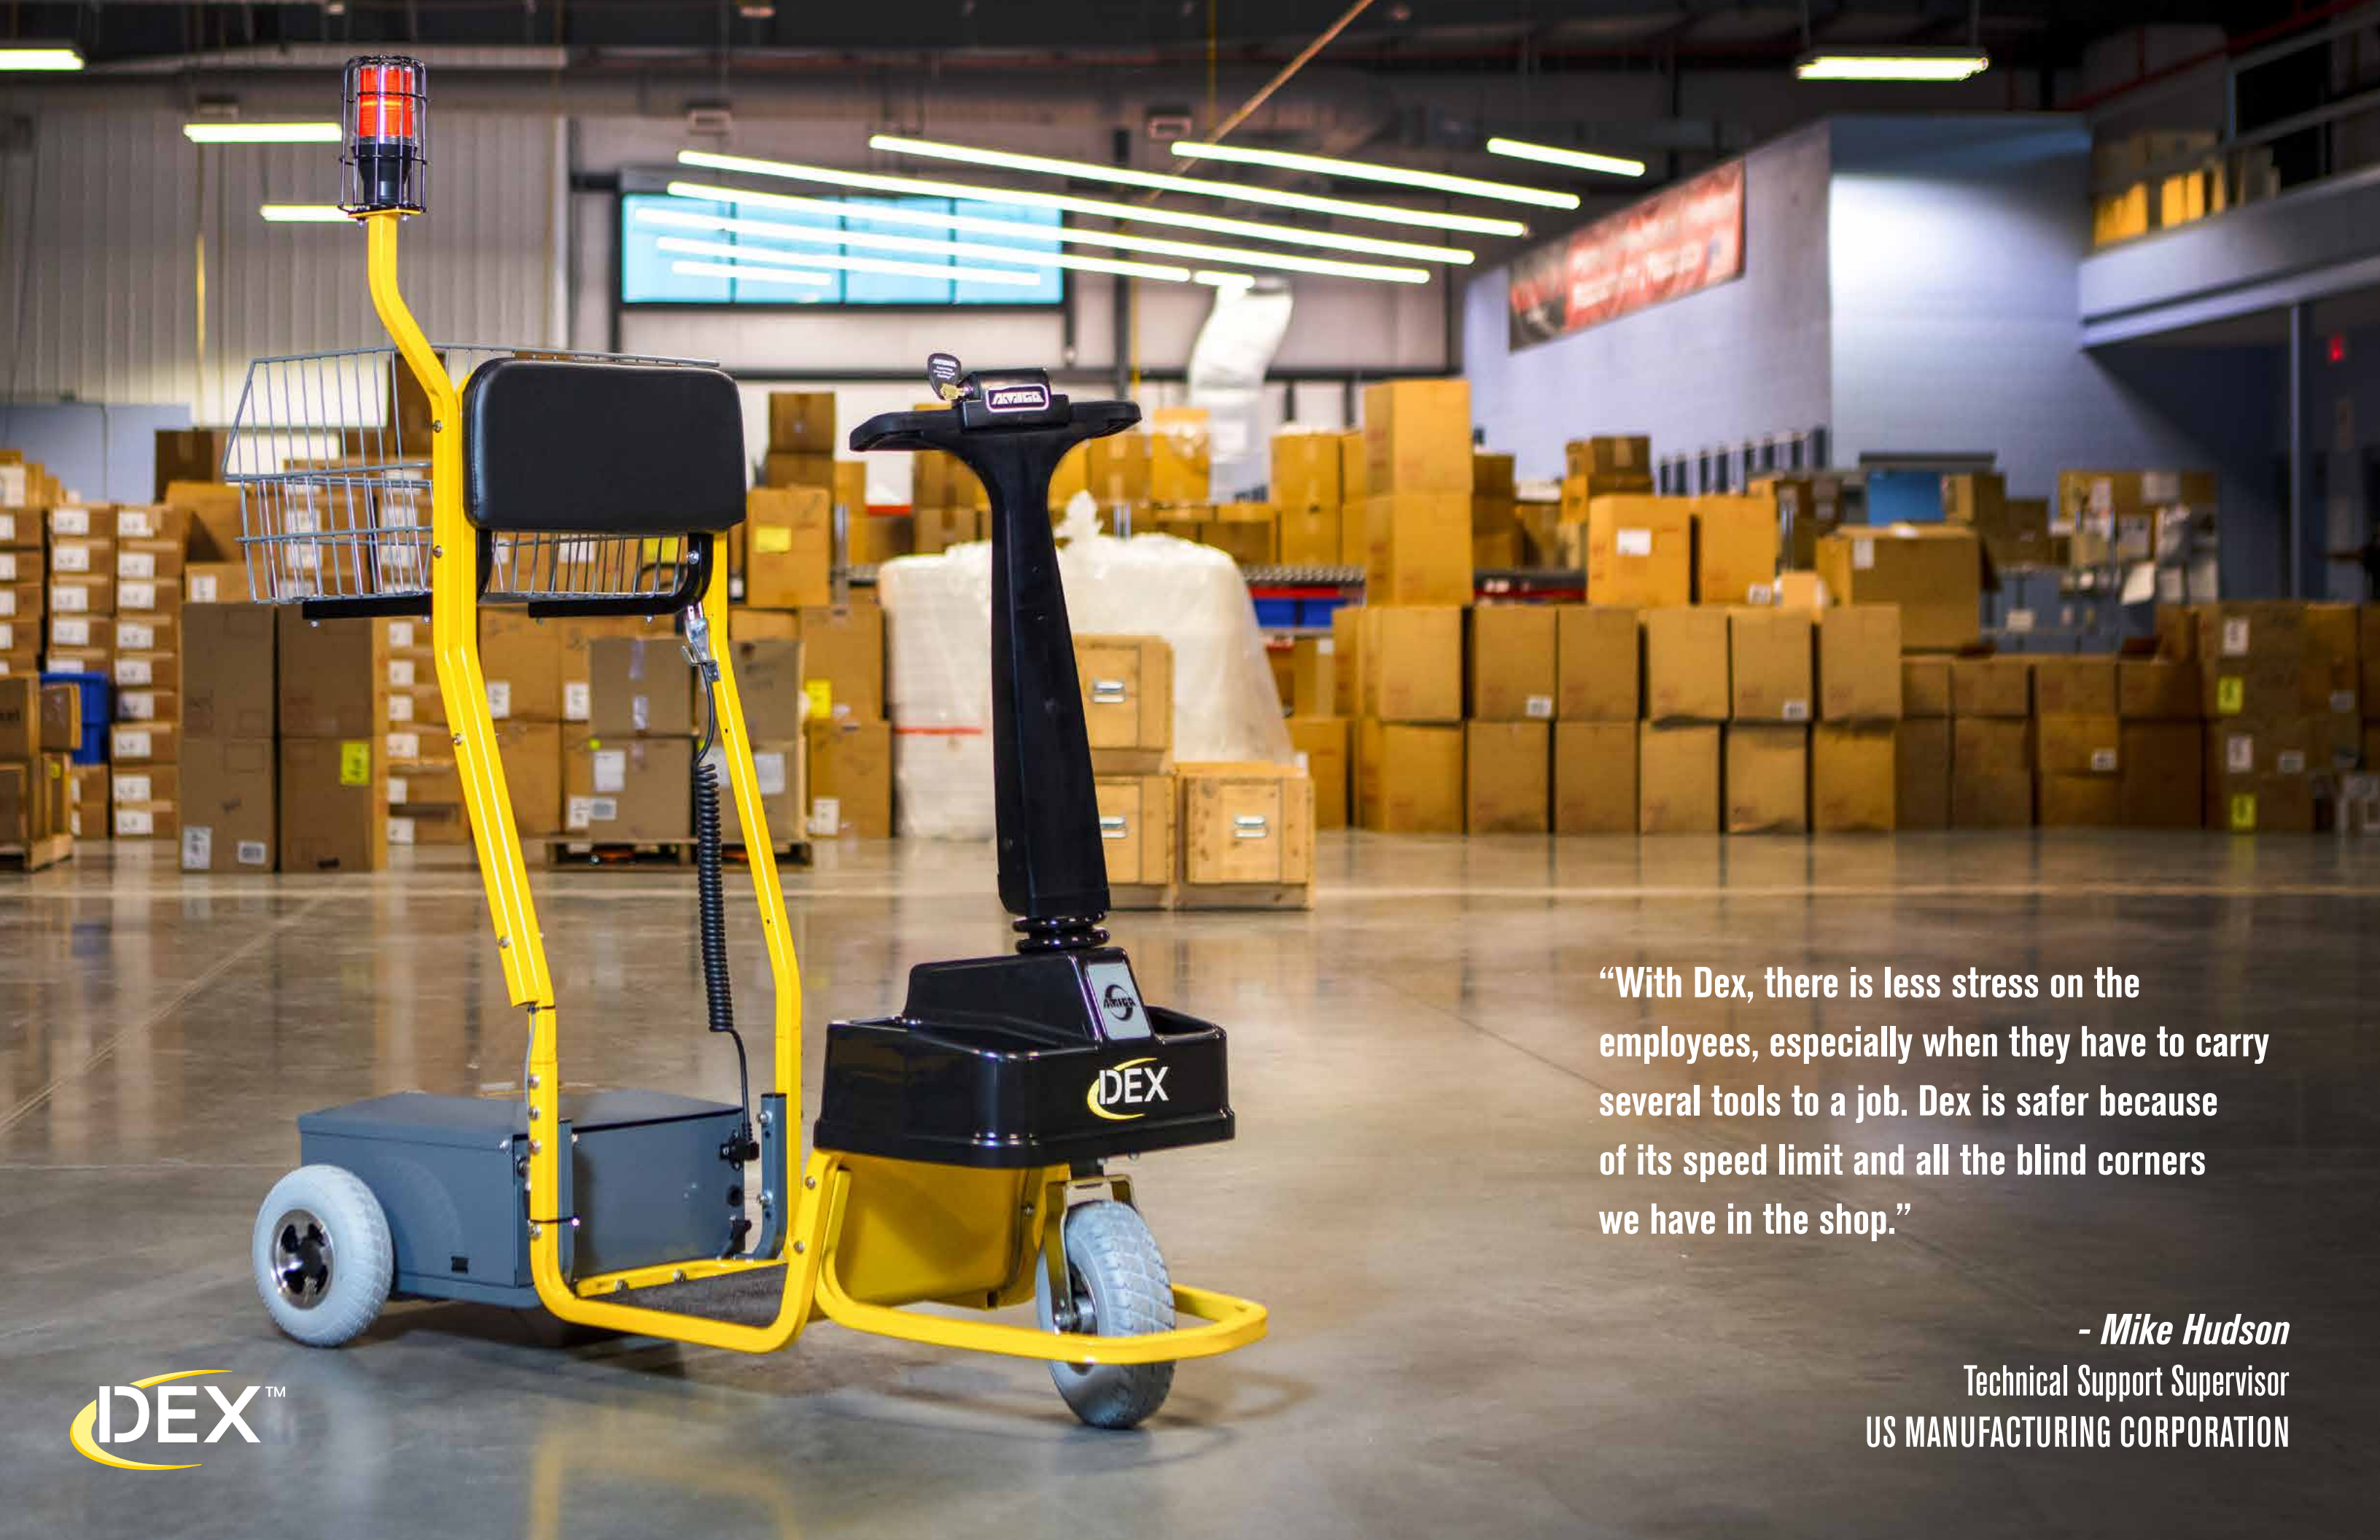

Battery gauge, hour meter and smart diagnostics on handle for quick troubleshooting

Adjustable speed up to 4 mph/6.4 kph

Additional trailers can be purchased separately

Trailer easily detaches for flexible transportation of goods.

“With Dex, there is less stress on the employees, especially when they have to carry several tools to a job. Dex is safer because of its speed limit and all the blind corners we have in the shop.”
