"Save"ty[®] Stand Guard Rails & Systems

Protecting The Supply Chain.

We Deliver MORE Than Just Our Products!

We Deliver PEACE OF MIND!

Without "Save"ty Yellow Products, you may be worrying more about safety issues than you should be.

You have invested in your business – equipment, inventory, and especially employees – to meet the needs of your customers. You don't want unexpected safety issues to cause you downtime, added expense, or personal injury. Let "Save"ty Yellow Products help protect your business and **SAVE YOUR ASSETS!**

Our products have been shown to protect employees, facilities, products, and equipment from impact with fork trucks, and do it better and at a lower cost! We have supplied products to facilities used by some of America's finest companies, including Sears, U.S. Foods, Adidas, Home Depot, and General Electric.

Built on the foundation of "The Original **LIFT-OUT Sleeve Design**" guard rail system, "Save"ty Yellow Products has branched out to include facility protection, hand rails,

safety gates and more. We continue to develop new products to meet safety needs and also customize products for specific applications.

The products we manufacture are made in America, powder coated with certified lead-free paint, and stocked in Illinois.

We invite you to enjoy the peace of mind that comes from knowing that your business is protected 24/7. "Save"ty Yellow Products can help you do that!

Ribbed Rail "Stand Guard"

Our most popular item: the **Stand Guard** ribbed rail. "The Original **LIFT-OUT Sleeve Design**" reduces installation cost by half!

- Sleeves are welded to posts, **no costly brackets as an afterthought.**
- Posts: 4" (10,000 lbs.) with 10" x 10" x 1/2" base or 5" (12,000 lbs.) with 10" x 10" x 5/8" base, both rated at 5 mph, and with painted steel caps.
- Post heights: 18", 26" & 42".
- 10-gage, high-tensile steel rails fit either post.
- Rails are 2' through 10' in 1' increments.

FULLY WELDED SLEEVES!

Offset posts are in stock.

Lite ribbed guard rail

Create a pedestrian walkway with Stand Guard Lite

Twin Rail with LIFT-OUT design

Quick release hardware for rails is included

Lite Duty Guard Rail

"Stand Guard" Lite is designed for powered and manual stackers, electric pallet trucks, steel carts & hoppers, etc.

- A great alternative to high strength guard rail, with *The Original LIFT-OUT Sleeve Design*.
- Designed for heavy impacts up to 5,000 lbs. at 5 mph.
- 4" posts, 18" & 42" high, with 8" x 8" base.
- 14-gage, high-tensile steel rails are 2' through 10' in 1' increments.

FAST DELIVERY →

Twin Rail

Durable steel protection

- Our original Twin Rail design from 2003 re-styled with stronger rails. It comes standard with **LIFT-OUT** rails that offer holes for bolting together if desired.
- Great for mezzanine fall protection, or light duty applications where standard guard rail isn't required.
- 44" tall posts with a powder coated steel cap.
- 3" x 3" posts, with a 6" x 6" x 1/2" base plate is rated for 5000 lbs. impact at 4 mph.
- 4" tall x 2" wide rail is 11-gage high-tensile steel.
- Top rail is 42" high and meets OSHA fall protection.
- Available in 4', 6', 8' and 10' length.

Twin Rail

Durable steel protection

- Great for mezzanine fall protection.
- 44" tall posts with a powder coated steel cap.
- 3" x 3" posts, with a 6" x 6" x 1/2" base plate.
- 4" tall x 2" wide rail is 1 1-gage high-tensile steel.
- Top rail is 42" high and meets OSHA fall protection.

PickerPal gate (optional 2nd bar shown)

Great 360 degree mezzanine protection

Bumper style

Mezzanine Safety Gates

We have four different styles of Mezzanine gates available to meet your needs - all are designed with fall protection per OSHA guidelines!

PickerPal Mezzanine Gates

- 6 self closing arms, operate independently.
- 6' or 8' width.
- Includes 8' tall rack frames and height limiter.
- MEETS OSHA & IBC REQUIREMENTS.

SavetyMezz360

For mezzanines or pick modules.

- Comes with 60" or 100" clear opening.
- Includes 4" safety toeboard.
- Complies with OSHA and ANSI standards.
- Utilizes a counter-balanced gate system and includes a slam-proof design.
- Easy to install and allows for one-handed operation.

Bumper Style Gates

- Standard Sizes: 60" or 72" clear opening width and clear opening height up to 84", includes gate columns, three (3) springs per gate, housed within hinge pivot.
- Teardrop Impact Bumpers: High-impact, ABS bumpers with 3" projection. Black.
- Specifications: High-impact, ABS adjustable 4" toe boards.
- MEETS OSHA & IBC REQUIREMENTS.

Mezzanine Gates

Horizontal sliding gate

Vertical lift gate

Pivot gate

Mezzanine Gates

The Horizontal Sliding Gate and the Vertical Lift Gate are designed to be durable, productive, provide the same protection as your railing systems, and meet federal OSHA requirements for standard railings.

- Easily slides open and closed.
- Manufactured to specific width requirements.
- Factory welded steel framework.
- Gates are 42" high, with one mid-rail and 4" toeboard.
- Electric or pneumatic operation available with remote control. Call for details.
- Easy Installation.

Pivot Gate

Single or Double width gates.

- All welded tubular steel frame.
- Easily pivots to up or down position.
- Requires only 10-20 lbs. of lift force depending on gate size.
- Made to order to fit your specific opening at no additional charge.
- Can ship completely assembled — simply anchors to mezzanine floor.
- MEETS OSHA & IBC REQUIREMENTS.

Lift Gates: 8', 10' & 12' clear opening

Dock Door Gates

Ideal for overhead doors. Great visibility to prevent accidents.

The "Save"ty Yellow Dock Gate is fabricated and bolts to post creating visibility. It is an economical and simple solution to comply with OSHA fall protection.

- Available in an 8', 10' and 12' clear opening.
- All sizes in stock.
- 42" tall at top of rail.
- New locking-pin design.
- Air actuation cylinder holds gate open during deliveries or shipments.

Dock Gates

Rotating gates: widths from 4' to 14'

Open dock

Driveway rotating gates: widths from 4' to 28'

NOTE: Gate sleeve is bollard supported

Rotating Dock Gate

Provides security, creates awareness and fall protection.

- Mounts over a 42" tall bollard which is required.
- Choose widths from 4' to 14'.
- Install two gates to meet in the center to accommodate space restrictions if needed.
- Add an optional bollard with eyelet at the opposite end for security.

Rotating Driveway Gate

Provides security, creates awareness.

- Mounts over a 42" tall bollard which is required.
- Choose widths from 4' to 28'.
- Install two gates to meet in the center to accommodate space restrictions if needed.
- Add an optional bollard with eyelet at the opposite end for security.

Gate Sleeves Are Bollard Supported!

POWDER
COATED
TOUGH™

CREATE A REAL BARRIER

- Stop fork trucks from driving or backing off the dock.
- Dock Stop includes two rotating arms.
- Includes two 42" bollards with 30" bollard available.
- Locking slide bars with locking pin.
- Impact rated for 4000 lbs at 4 mph.
- 8', 9', 10', 11' and 12' door sizes in stock.
- Built in height-levelers, so arms meet in the middle every time.
