ABOUT US

Established in 1997, **vapco paints**[®] caters to clients with a strong forte of Decorative & Speciality Paints and Ancillaries. We have a well-established manufacturing facility at Jejuri near Pune city - two locations totalling a 50000 sq ft area with installed capacity of 50 Metric Tons. We have a dedicated laboratory which caters to our R&D and QC needs of synthesis, processing and analytical testing.

Mr. Vivekanand Pathak, Mr. Vipul Kumthekar [M.Sc. (Polymer Science)] & Mr. Shreyas Pathak [B.Tech. (Surface Coatings Tech.)] have a combined experience of 50+ years in various sectors of manufacturing and development of speciality chemicals.

With a vision of expanding horizontally in niche sector where we can contribute with our technical know-how, we established of our new division which would cater to fundamental needs of the Wood and Bamboo Industry. We believe that adopting the new age technology for next generation innovative products should result in value addition and growth of the industry.
