## Seventeen Missions to Save the World by Leyth Sharaf

October 25, 2025

Reviewed by Timea Barabas

Your life can change in unimaginable ways in the blink of an eye, whether during a college basketball game or while picking up *Seventeen Missions to Save the World* by Leyth Sharaf. While the book mainly targets a younger audience, it is a refreshing read for all ages. The author's vivid narration makes the story cinematically unfold before the reader's eyes. [Purchase Here](#).

This young adult novel blends humor, satire, and touches of surrealism to explore a grand theme: saving the world. Rather than treating this ambitious goal as an impossible challenge, the author breaks it into seventeen smaller, achievable missions.

It all begins with a teenager who simply wants to win a basketball game for his team. But in the middle of the match, a shimmering portal opens, and a mysterious being known as *the Reminder* steps through, bringing a warning of impending doom.

The future is collapsing, and only the protagonist, Leyth, holds the key to saving it. By a twist of fate, his teammate Ellie is drawn into the mission as well. Together, they journey through a magical portal that transcends time and space, witnessing possible futures across the world as they strive to set things right.

Our two heroes embark on seventeen missions to save the world as we know it. Each mission unfolds in two parts. First, Leyth and Ellie are given a glimpse into a dystopian future that magnifies a pressing global issue, such as poverty, gender inequality, or rampant overconsumption. These scenarios are depicted in vivid detail, infused with sharp satire, humor, and wit. Then, they are transported back to the present day, where they must confront and resolve the problem before it spirals beyond control.

*Seventeen Missions to Save the World* by Leyth Sharaf is a light-hearted and thought-provoking exercise on enacting positive change in the world around us. It shows over and over again how even the smallest good deeds can reverberate into causing global change.

If two teenagers can save the world seventeen times, surely, collectively, we should manage to be able to as well. Leyth Sharaf serves as our Reminder of how we continue to neglect our responsibilities to care for and protect one another and our home.
