

The Complete Brain & Body Cycle

The human body is designed to be healthy. The primary system in the body which coordinates health and function is the nervous system. The nervous system requires a **free flow of communication** between brain and body for optimal function and health. Much like a safety pin, the entire complete cycle is required for proper function.

The *Nervous System* relays messages between the Brain & Body

Alignment
Communication
Natural
Function
Ease

Mis-alignment
Mis-communication
Un-natural
Mal-function
Dis-ease

Regular chiropractic care is essential in maintaining your *Normal Complete Cycle* through a nervous system free of interference.
