26 compatibility of the development with existing and planned development and uses in the adjacent

1 surrounding area.

2           2.       Lots developed in the C-V District shall be subject to the Parking Design Standards of  
3 19.08.110. The number of parking spaces required shall be calculated pursuant to the permissible uses tables  
4 of 19.12.010; however, the number of parking and loading spaces required for a site may be reduced if the

9 District, together with the following additional standards:

11 may be permanently set on the wall of the building, providing the sign does not exceed 50 square feet.

12           b.       Signs on public buildings meeting the foregoing criteria may be permitted on  
13 structures which are a part of the institutional architecture or which are symbolic of the institution, and the  
14 permitted square footage and maximum height limitation of public building signs shall apply only to the  
15 written message.

16           c.       One institutional wall sign not to exceed 60 square feet is permitted. The sign may  
17 include an animated or LED sign face that complies with the Residential Protection Standards of LVMC

4           5.       Properties in the C-V District that are located within areas where the Form-Based Code has  
5 been adopted shall, to the extent possible, conform to the standards of LVMC Chapter 19.09 that are  
6 associated with an adjacent transect.

7 **F.       Applicability of Standards**

8           1.       The approval of a major review of the site development plan review pursuant to the  
9 provisions of LVMC 19.16.100 shall be required upon determination by the Director that the proposed  
10 development is not compatible with existing and planned development or uses in the adjacent surrounding  
11 area, or that the potential impact of the proposed project on existing and planned development or uses in the  
12 adjacent surrounding area is significant enough to require a public hearing.

13           2.       The standards set forth in Subsections Paragraphs (4) and (5) of Subsection (E) of this  
14 Section are minimum requirements. Any request to deviate from these standards shall require the approval  
15 of a major review of a site development plan review pursuant to the provisions of LVMC 19.16.100.

16           SECTION 4:   The Department of Planning is authorized and directed to incorporate into  
17 the Unified Development Code the amendments set forth in Sections 2 and 3 of this Ordinance.

18           SECTION 5:   If any section, subsection, subdivision, paragraph, sentence, clause or phrase  
19 in this ordinance or any part thereof is for any reason held to be unconstitutional or invalid or ineffective by  
20 any court of competent jurisdiction, such decision shall not affect the validity or effectiveness of the  
21 remaining portions of this ordinance or any part thereof. The City Council of the City of Las Vegas hereby  
22 declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase  
23 thereof irrespective of the fact that any one or more sections, subsections, subdivisions, paragraphs,  
24 sentences, clauses or phrases be declared unconstitutional, invalid or ineffective.

25           SECTION 6:   Whenever in this ordinance any act is prohibited or is made or declared to  
26 be unlawful or an offense or a misdemeanor, or whenever in this ordinance the doing of any act is required

1 or the failure to do any act is made or declared to be unlawful or an offense or a misdemeanor, the doing of  
2 such prohibited act or the failure to do any such required act shall constitute a misdemeanor and upon  
3 conviction thereof, shall be punished by a fine of not more than \$1,000.00 or by imprisonment for a term of  
4 not more than six months, or by any combination of such fine and imprisonment. Any day of any violation  
5 of this ordinance shall constitute a separate offense.

6 SECTION 7: All ordinances or parts of ordinances or sections, subsections, phrases,  
7 sentences, clauses or paragraphs contained in the Municipal Code of the City of Las Vegas, Nevada, 1983

This is to change a rural residential zone to a commercial zone and will greatly affect the surrounding residents in a negative way.

**Comments:** Hi, I was in attendance at the Recommendation Committee meeting today for the C-V Zoning. I would like to note that I was correct to question the height requirements being removed, the new C-V does get rid of all of the height requirements listed in 19.06.060 that are currently in place. The current restrictions cap a building height at 35 ft or 2 stories in a Residential neighborhood. The 19.08.040 only refers to the slope requirements.

Additionally, I do not agree with allowing cell towers that obtain C-V Zoning to be built without any special approval process.

Highly oppose bill below for any to current CV ZONING changes. This bill will be detrimental to the rural preservation environment we currently live in.

PROPOSED: Bill No. 2024-8 repeals and replacing LVMC 19.10.020 to change the Civic Zoning district is scheduled for Wednesday, March 20th, at 9am at the Council Chambers · 495 South Main Street ·, 2nd Floor. You can attend the meeting to voice your opinion or

**Comments:**

I'm an owner of property immediately next to the proposed LDS temple and once this is granted it paves the way to the church making dramatic changes to accommodate their completely non compliant plans for their temple and meeting house they announced. It violates every single zoning, building, and interlock agreement fought for and established tens of years ago when families and owners made this their homes. I cannot stand for a 216 foot tall tower in my immediate backyard illuminated all night long and so tall requires blinking airports red beacon lights! It's absolutely ridiculous and will ruin my quiet enjoyment of my home as I have the right of.

Hickam is behind my back wall. We are the cul-d-sac shown on everyone of the plans.

**Comments:** This is in reference to Bill No. 2024-8, we are opposed to this change in zoning. We all live in the RNP and we do not want the zoning changed to allow a temple and other large structures to be allowed in our rural area and the middle of our neighborhood. This does not fit in to the restrictions on height of structures and lighting. Allowing this in a rural neighborhood will disrupt and ruin our living and will open the door for all other businesses in the RNP. Don't allow this to happen just because of money.

With regards to Bill No. 2024-8 (repeals and replacing LVMC 19.10.020) - proposed LDS Temple and Meeting House, we are very much opposed to granting any such zoning changes that would allow for this project to be built.

**Comments:** The increased traffic alone would create havoc in our otherwise relatively quiet area. We bought our home in this section in order to have less traffic and some general "breathing" room.

Please do NOT grant this zoning change.

**Comments:**

I am writing in opposition of Bill 2024-8. I am a resident of the Rural Preservation Area and see this Bill as a watering down of protections rural residents like myself currently have under current city zoning. Thousands of us have invested our livelihoods to build a life where we can have dark skies, farm animals, larger properties, and limited traffic. There are many, many areas of town that have a less rural feel for those that want or desire that.

As a life long resident of Las Vegas, I have seen how much this city has grown in my lifetime. I realize that with growth change is inevitable, but when bills like this come around it makes people like me question what the intention of our elected officials really is. We live right around the corner from the proposed LDS temple. The timing of this bill, in addition to large campaign contributions by Kaempfer Crowell to most of the council members, leaves us to wonder if this bill has been designed for the church- all while leaving residents throughout the entire city with negative fallout.

I implore planning and zoning to review this bill and see the contradictions in place with the Interlocal Agreement with Clark County.

## Comments

I am writing in opposition of Bill 2024-8. I am a resident of the Rural Preservation Area and see this Bill as a watering down of protections rural residents like myself currently have under current city zoning. Thousands of us have invested our livelihoods to build a life where we can have dark skies, farm animals, larger properties, and limited traffic. There are many, many areas of town that have a less rural feel for those that want or desire that.

As a lifelong resident of Las Vegas, I have seen how much this city has grown in my lifetime. I realize that with growth change is inevitable, but when bills like this come around it makes people like me question what the intention of our elected officials really is. We live right around the corner from the proposed LDS temple. The timing of this bill, in addition to large campaign contributions by Kaempfer Crowell to most of the council members, leaves us to wonder if this bill has been designed for the church-all while leaving residents throughout the entire city with negative fallout.

The fact that restrictions within C-V districts will be eased in this bill does not improve the quality of life for Las Vegas citizens. Having a "stealth tower" designed cell phone tower in front of our homes does not improve quality of life. Having a 216-foot-tall brightly lit church in our neighborhood, which happens to be the same exact height as the Durango Casino, does not improve the quality of life for our families. The council's primary concern should be that of the citizens of the city of Las Vegas - not the concerns of billion-dollar organizations or companies who couldn't care less about the implications of their developments in areas we call home.

I implore the council to go back to the drawing board on this bill and put the needs of the citizens of Las Vegas first.

**Comments** This project stands to change the peaceful and secure landscape of a neighborhood whose residents have resided in and worked hard to maintain for over 15 years. The construction of this temple will bring unwanted traffic, construction traffic, and crime to our neighborhood, and my neighbors are adamantly opposed to its construction, along with myself and my family.

**Comments** I oppose the planned Mormon Temple in our rural preservation area! Such monstrosity has no place in this area. The home owners that bought land here and have built their homes here (many of us 10 and 20+ years ago) did not sign up for this and we moved out here into the RURAL Lone Mountain area for a reason. We don't want this LDS temple! The size of this things is outrageous and will totally destroy the rural appeal.

**Comments** This project doesn't even come close to aligning with the current neighborhood feel and livability. We purchased our home because it was in the Rural Preservation Area. This project will negatively affect our neighborhood. It will degrade our views, cause unwanted light pollution, and create traffic congestion that we currently do not have to deal with. I'm not opposed too the LDS Church building a second Temple in Las Vegas, however the proposed location is not a good fit.

**Comments** While I am not opposed to another Morman Temple in Las Vegas, I am opposed to the location in a residential area. The number of parking spaces, alone, is staggering. There has to be property in more outlying areas where a Temple could be the first building there and if residential followed, it would be by choice.

**Comments**

We purchased our home because it was in a rural residential preservation area. We enjoy looking at stars, and quiet. This proposal will ruin our lifestyle.

We are closely monitoring the lawsuits in Heber Utah.

There are so many other locations better suited to handle the traffic, light pollution and noise

Do the right thing.

We will follow the money trails to all elected, and voting members.

| <b>Comments</b> | I OPPOSE Recommending Committee Bill #2024-8 (Item # 42) on the 3/20/2024 Las Vegas Council Meeting. I just become aware of this of Bill #2024-8, after it was passed out of the Recommending Committee, and therefore wasn't able to voice my opposition. I disagree with the changes to LVMC 19.10.020, pertaining to the C-V Civic Zoning District. Please DENY Bill #2024-8. |

| <b>Comments</b> | <p>The repeal and replacement of LVMC 19.10.020. I have a concern about this replacement version of the above change to the C-V Civic Zoning District. I am all for updating some of our statutes for the right reasons. I do have a concern with this new version which removes the height standards code LVMC 19.06.060. I feel removing this does a disservice to us in a more RNP area which in this case is specifically the new up and coming rezone and future development of the LDS temple north of Alexander in the Grand Canyon area. As I am all for approving the zone change for the LDS to build their temple, I do not support the 220 foot proposed height of this temple. By removing code 19.06.060, it opens the door to this situation. I don't know if the reason for the change to 19.10.020 was brought forth by Francis Polenski for this specific reason, but I do feel that I have been a little bit misled by the city of Las Vegas on my request for information concerning this temple And on which statutes apply. Therefore I would like to see this new code put into place, but adding back in the height restrictions or amending them to a more current version that would be suitable to specifically this RNP area instead of having a 220 ft tower in an area that this type of height would not be appropriate. I thank you in advance for your time and for listening to my concern.</p> |
