

Patient Informed Consent Form for Patients Who Cannot Get Pregnant:

To be completed by the patient (and parent or guardian if the patient is under age 18) and signed by the doctor.

Read each item below and initial in the space provided if you understand each item and agree to follow your doctor's instructions. A parent or guardian of a patient under age 18 must also read and understand each item before signing the agreement.

Do not sign this agreement and do not take isotretinoin if there is anything that you do not understand about all the information you have received about using isotretinoin.

understand that isotretinoin is a medicine used to treat severe nodular acne

that cannot be cleared up by any other acne treatments, including antibiotics.

(Patient's Name)

	In severe nodular acne, many red, swollen, tender lumps form in the skin. If untreated, severe nodular acne can lead to permanent scars. Initials:	 Start having thoughts about hurting myself or taking my own life (suicidal thoughts) Start acting on dangerous impulses Start seeing or hearing things that are not real
2.	My doctor has told me about my choices for treating my acne. Initials:	Initials:
 4. 	I understand that there are serious side effects that may happen while I am taking isotretinoin. These have been explained to me. These side effects include serious birth defects in babies of pregnant patients. [Note: There is a second Patient Enrollment Form for Patients who can get Pregnant]. Initials:	 I agree to return to see my doctor every month I take isotretinoin to get a new prescription for isotretinoin, to check my progress, and to check for signs of side effects. Initials:
Ιr	now allow my doctor	to begin my treatment with isotretinoin.

5. Before I start taking isotretinoin, I agree to tell my doctor if I have ever had

or seeing things that are not there.

• Start to feel sad or have crying spells · Lose interest in activities I once enjoyed

outbursts, thoughts of violence)

Withdraw from my friends or family

· Have feelings of worthlessness or guilt

Have trouble concentrating

• Feel like I have no energy

· Sleep too much or have trouble sleeping

Have a change in my appetite or body weight

or psychosis happen. I:

Initials:

symptoms of depression (see #7), been psychotic, attempted suicide, had any

other mental problems, or take medicine for any of these problems. Being psychotic means having a loss of contact with reality, such as hearing voices

Before I start taking isotretinoin, I agree to tell my doctor if, to the best of my

knowledge, anyone in my family has ever had symptoms of depression, been

psychotic, attempted suicide, or had any other serious mental problems.

Once I start taking isotretinoin, I agree to stop using isotretinoin and tell my doctor right away if any of the following signs and symptoms of depression

• Become more irritable, angry, or aggressive than usual (for example, temper

· Start having thoughts about hurting myself or taking my own life (suicidal
