

LENDER APPLICATION PACKAGE

Dear Merchant/Provider;

Thank you for enrolling with Credit Technologies / Finance Your Care!

The next step in the process is to get your Practice enrolled with any lenders that require a separate enrollment for your participation. All of the lenders that require your direct enrollment do so as they all pay your Practice directly on each loan funding. In order to streamline the enrollment process, we have listed the Lender Application Checklist and Enrollment Links online. But to avoid any mis-understandings, you must start by agreeing not to circumvent our relationship and try to set up a direct relationship with each lender we introduce.

NON-CIRCUMVENT AGREEMENT

By clicking on the link or button below and moving forward with the lender enrollments, you hereby agree not to circumvent Credit Technologies/ Finance Your Care in any way to build a direct relationship with any of the lenders listed. If you do, Credit Technologies will be entitled to charge your business a fee of \$575 per month for every month you continue the direct relationship with the lender(s) for up to 36 months.

PLEASE NOTE: If your Practice/Business is already using one of the lenders listed, they will be excluded from the non-circumvent. Please let us know if that is the case so we can verify your enrollment with the lenders for this exclusion. Also note; all the lenders listed have been made aware that Credit Technologies directed your Practice/Business to contact them to complete their enrollment.

Click the button or link below to accept the terms of the non-circumvent and continue with the direct lender enrollments.
