

Decorative Railing

Sunhaven Aluminum Deco Railing and Columns are designed to enhance the beauty and design of your home, whether alone or with a patio cover. Our railings are manufactured from extruded, maintenance-free aluminum with a baked-on enamel finish.

We keep our Deco Rail stocked in lengths of 2 to 10 foot sections for either level or step installations – each section contains scrolls, rail end brackets, binding bolts and self-tapping screws for easy installation. Color options are white, brown, tan and black.

Feel free to call our office with any questions!
