ABOUT US.

Omari Chemicals is a chemical solutions provider that offers chemical distribution, sourcing and technical services. Our focus areas are in the following industries:

- Manufacturing
- Mining
- Maritime
- Water Treatment

We have offices in Durban (KZN) and Rustenburg (NW) with warehousing facilities in Durban, Johannesburg, Cape Town and Port Elizabeth. We are led by a team of professionals with extensive knowledge, experience and networks in the chemical industry. Our ethos is to leverage our skills, resources and network of partners to add value to every aspect of our customers value chain. In doing so, we aim to foster long term relationships underpinned and Trust.

SERVICES WE OFFER.

Omari Chemicals provides the following primary services:

- **Chemical Commodity Supply** – We supply a range of quality bulk industrial, process and speciality chemicals products to support our customers operations. Our technical team can also provide customized services to meet individual client requirements.
- **Technical Services** – To compliment our chemicals supply, we offer technical services to support our clients' water treatment systems. These services include sampling and testing, evaluation and report generation, dosing and treatment recommendations. These include systems relating to boilers, cooling towers, chillers, potable water and effluent plants.
- **Warehousing & Storage** – We can provide warehousing services in Durban, Johannesburg, Cape Town and Port Elizabeth to support a customer's supply chain requirements. We can also provide and install bulk liquid storage tanks on-site.
- **Dedicated Inventory Policy Support** – we can provide a resource that can interface with the operations and procurement stakeholders to monitor product demand, inventory levels and provide pro-active supply chain management to mitigate stock-out risk.
- **Import Sourcing** – We can leverage our network of international sourcing partners to import consignments of commodities as per our clients requirements.

All of our services are designed to address your specific needs. We strive to ensure that we're doing all we can to serve you in a reliable and efficient manner.

INDUSTRIES WE SERVE.

At Omari Chemicals, we aim to work with businesses of different types adding value by providing a professional, efficient and cost-effective service.

Our team has been in the chemical business for years and their key focus areas are:

Transport Sector

Agriculture

Mining

Maritime

Water Treatment

Manufacturing (Steel, Textiles, Plastics, Glass, Soaps & Detergents, Paint and Adhesives, Food & Beverage, Pharmaceutical, Construction, Cosmetics and Personal Care)

Our expertise in these fields gives us a breadth of knowledge to serve most companies with chemical needs. If your business offers products that need quality chemical ingredients, or if your day-to-day industrial tasks require nothing but the best chemical supplies, Omari Chemicals has you covered.

WHY CHOOSE US.

We support you

Our sales team pride themselves on providing consistent reliable service. We can interface with your internal operations to help support demand and supply side management.

Technical expertise & analytical capabilities

By understanding what the specific needs are for a particular customer we can identify the right product or combination of products to support their business. Our team, and supporting partners, have a wealth of knowledge and experience within the chemical industry.

We can help De-Risk Your Supply Chain

The past few years have seen an increase in market volatility causing increased risk in the supply chain of many organisations. Our aim is to offer solutions to mitigate those risks and add value in the process. We can serve as an additional partner to compliment your existing suppliers in order to de-risk your supply chain.
