

Civil ENGINEERING IIT

CSRDF
Construction Sector Research & Development Foundation

Donation Appeal: “Donate a Stepping Stone for Sthapatya Bhavan, Sthapatya Pandhari”

A Step Towards Building India’s Construction Knowledge Temple

Every great structure begins with a single stone — and your contribution can become that stone.

The **Construction Sector Research and Development Foundation (CSRDF)** is developing ***Sthapatya Bhavan*** at **Sthapatya Pandhari**, a national-level campus dedicated to training, research, and innovation in the construction sector.

This campus will serve as a living classroom — where engineers, contractors, and students learn through real-life models, labs, and field demonstrations.

By donating a **Stepping Stone**, you are not just giving material — you are laying the foundation for thousands of future civil engineers and builders who will shape a better, sustainable India.

Your Contribution Becomes a Legacy

Each donated stone will be:

- Engraved (digitally/physically) with the **donor’s name or family name**.
 - Recorded in the **Founders’ Register of Sthapatya Pandhari**.
 - Symbolically placed in the **Campus Foundation Pathway** — representing collective effort and unity in nation-building.
-

Donation Options

- ₹70 – Per Stepping Stone

(You may donate more in multiples, One Stepping stone = 1 Red Chira Laterite Stone with bonding material)

How to Donate

You can contribute via: <https://rzp.io/rzp/steppingstone>

“आपण ठेवलेला एक दगड — हजारो युवकांच्या भविष्यासाठी एक पाऊल ठरेल.”
