

स्थापत्य पंढरी – विश्वकर्मा आश्रम शैक्षणिक पालकत्व उपक्रम

To,

Subject: Support Request for Temporary Containers to Initiate Vishwakarma Ashram – Sthapatya Pandhari

Dear Sir / Madam,

Greetings from **Construction Sector Research & Development Foundation (CSRDF)**.

I am writing to you with a practical request for support in the **initial phase** of an educational initiative that is closely connected to the construction sector and its workforce.

About the Initiative

CSRDF has been working for several years within the construction ecosystem across Maharashtra—engaging with builders, contractors, engineers, and site teams on training, safety, skilling, and worker welfare. During this work, one persistent issue we observed is the **disrupted education of children of construction workers**, primarily due to migration, site conditions, and lack of stable learning environments.

To address this gap, we have initiated “**Vishwakarma Ashram – Educational Guardianship Program**” under our **Sthapatya Pandhari** project.

The objective is to provide:

- Safe residential support
- Continuity of schooling through nearby SSC schools
- Structured after-school learning, discipline, sports, and basic digital exposure

This is a **non-profit, non-commercial initiative**, focused purely on long-term educational stability for construction workers’ children.

Our Immediate Requirement – Temporary Containers

To start this initiative efficiently and responsibly, we are planning to use **repurposed site containers** as **temporary classrooms, hostels, and learning spaces** in the initial phase.

In this context, we would like to explore whether your organization may have:

- **Idle / underutilized site containers**, or
- Containers that can be **made available for a period of up to 3 years**

These containers would help us:

- Start operations quickly without heavy upfront construction
- Optimize costs in the early phase
- Build a functional campus while permanent infrastructure is planned

We are currently seeking **initial ecosystem support** from responsible builders who understand site realities and workforce challenges.

How the Support Will Be Used

- Containers will be repurposed for classrooms, hostels, and labs
- Used exclusively for educational and child welfare purposes
- Maintained responsibly by CSRDF
- Acknowledged as support from your organization (if desired)

This support can also be aligned under:

- CSR initiatives
 - In-kind contribution
 - Social responsibility or workforce welfare efforts
-

If this proposal aligns with your organization's values, we would appreciate an opportunity to discuss feasibility, logistics, and duration at your convenience.

Thank you for your time and consideration. Even initial support at this stage can significantly accelerate the start of this initiative and create long-term impact.

Warm regards,

Pravin Arun Mundhe

Director

Construction Sector Research & Development Foundation (CSRDF)
