Words of Wisdom

WHAT CAN ONE PERSON REALLY DO

One person can change a mind, a heart and a vote. The time has come for each of us to become activists in our community in order to push back on this corrupt establishment. We can do this by calling, emailing, and writing your representatives at both the local and federal levels, signing petitions, joining committees, running for local offices, and recruiting other patriots to join our movement.

One of our goals in this initiative is to help facilitate these actions. We will be sending out regular emails detailing what is currently going on in our government. We will provide you with phone scripts, and email templates to send to your representatives to let them know that we will not accept their destructive policies starting with the issue of election fraud. Our focus at this time will be on the local level. All politics are local!
