STAINLESS STEEL RAINCHAINS

Stainless Steel rain chains

Our first offering in stainless steel, this chain will withstand the test of time. Made of very high quality, marine-grade 316L stainless, each link is welded for maximum strength and continuity, then highly polished. This is not a galvanized iron product!

Four sizes to choose from.

Comes with a bendable aluminum V-hook for universal installation.

Technical Specifications

	Thickness	Width	Length
SS01:	.31"	1.06"	1.93"
SS02:	.26"	.91"	1.76"
SS03:	.21"	.82"	1.34"
SS04:	.15"	.57"	1.25"

STAINLESS STEEL RAINCHAINS

Kumo™ rain chain in stainless steel

Three small circles support a larger fluted cup, combining the beauty of both link and cup style rain chains.

Made in stainless steel for strength and durability.

The Japanese word "kumo" means "cloud".

Like all of our chains, comes with a V-hook for easy installation

Technical Specifications

top opening: 3 1/2"

bottom opening: 1"

cup length: 3 1/2"

cups per 8.5 feet: 11

STAINLESS STEEL RAINCHAINS

Steel Cups rain chain

Simple, effective stainless steel cups.
Made in stainless steel for strength and durability.
Like all of our chains, comes with a V-hook for easy installation.

Technical Specifications

top opening: 3 1/2"
bottom opening: 1 1/2"
cup length: 3 3/8"
cups per 8.5 feet: 14

STAINLESS STEEL RAINCHAINS

Kenchiku stainless steel rain chain

A new modern design in a cylinder shape with a link chain passing through it. Our exclusive, patented design provides a very strong link connection and keeps the cups very straight, while still retaining length adjustability. Made of the highest grade 316L marine grade stainless steel. Comes with a V-hook for easy installation. Standard length is pre-assembled.

Technical Specifications

Length: ~7.5 feet

Width of cylinder: 2 1/2"

Height of cylinder: 4 "

Number of cylinders: 11
