

A new service for people moving house in Aberdeenshire.

Precision Home helps homeowners plan, organise, and coordinate their house move.

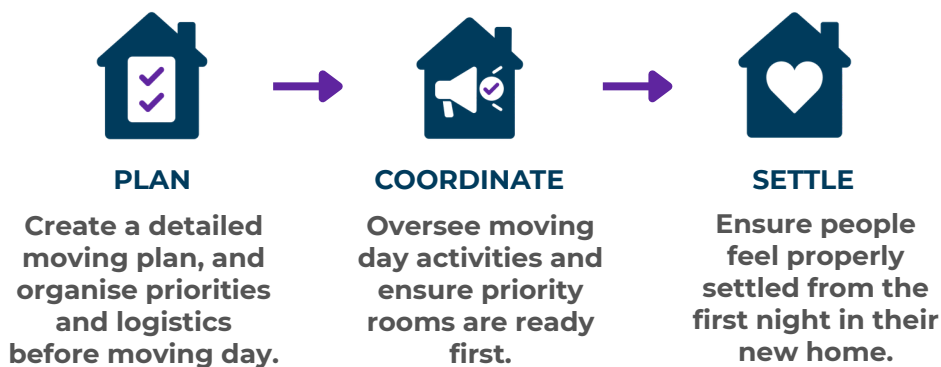

It isn't a removals company.

Think of Precision Home as experienced move coordinators who help people:

- ✓ Prepare properly before moving day
- ✓ Coordinate moving day itself
- ✓ Feel properly settled from the first night

How Precision Home helps:

Who is behind Precision Home?

I started Precision Home after planning multiple international, national, and local house moves myself.

I've experienced first-hand how much difference detailed planning and coordination can make when moving house.

Precision Home was built around a simple belief:

**Moving day is important.
The first night matters.**

Precision Home helps people in Aberdeenshire plan, organise, and coordinate their move so they can feel properly settled from the first night in their new home.
