

AYRTON
ENERGY

Chemical Intern – Part Time

Calgary, Alberta

Ayrton Energy's mission is to propel the global shift towards sustainable energy with broad deployment of our cutting-edge hydrogen storage technology, reshaping hydrogen distribution to mirror the safety, simplicity, and efficiency of traditional fuels such as diesel or gasoline.

Are you ready to embark on a dynamic career journey with a rapidly growing company? Ayrton is looking for a chemistry or chemical engineering student to support our team on a part-time hourly basis. As part of a fast-growing startup, the scientist or engineer in this role can anticipate learning about a wide range of topics in their support work on our technology development.

You will love this job if:

- You are looking to be part of a growth company where your contributions will be tangible in helping to shape the future success of the company
- You are detail orientated (obsessed?) and like following protocols for materials preparation/synthetic processes
- You want to work in a collaborative and supportive team environment where everyone's role is mission-critical

These are not just words, this is our company, this is what we stand for and we strive to find individuals who fit our team, our goals, and our future.

Your Responsibilities:

- Preparation of chemical formulations
- Materials coatings

Your Skills and Experience:

- Undergraduate student in chemistry, or engineering with lab experience (may be from classes)
- Passionate about innovation, self-motivated and keen to learn
- Organized and efficiently able to manage time for laboratory protocols

At Ayrton We Value:

- Honesty – We are solving hard problems and look for diversity in thought
- Dependability – We value action over words and will empower you to get things done
- Kindness – We are a team. Win together, lose together, learn together

Benefits:

- Compensation in the form of hourly salary

We're looking for an intern and we'll hire as soon as we meet the right person.

Ayrton is an equal opportunity employer that values equity, diversity and inclusion within our team. As a women-led venture, our company strives to provide a supportive atmosphere for under-represented individuals in business and STEM fields, including a focus on work-life balance and employee mental health.

How to apply:

Please send a cover letter and resume to jobs@ayrtonenergy.com and use Job Application –Chemical Intern in the subject line.
