

Changes in Possession of Marijuana enforcement

Changes in law, public policy, societal attitudes, economic and environmental factors, as well as other issues make conclusions about change over time difficult.

Incidents involving possession of marijuana (POM) have increased since the low observed during the COVID pandemic, but remain low relative to higher levels occurring during the 2010s.

Month-to-month changes are depicted on the following page.

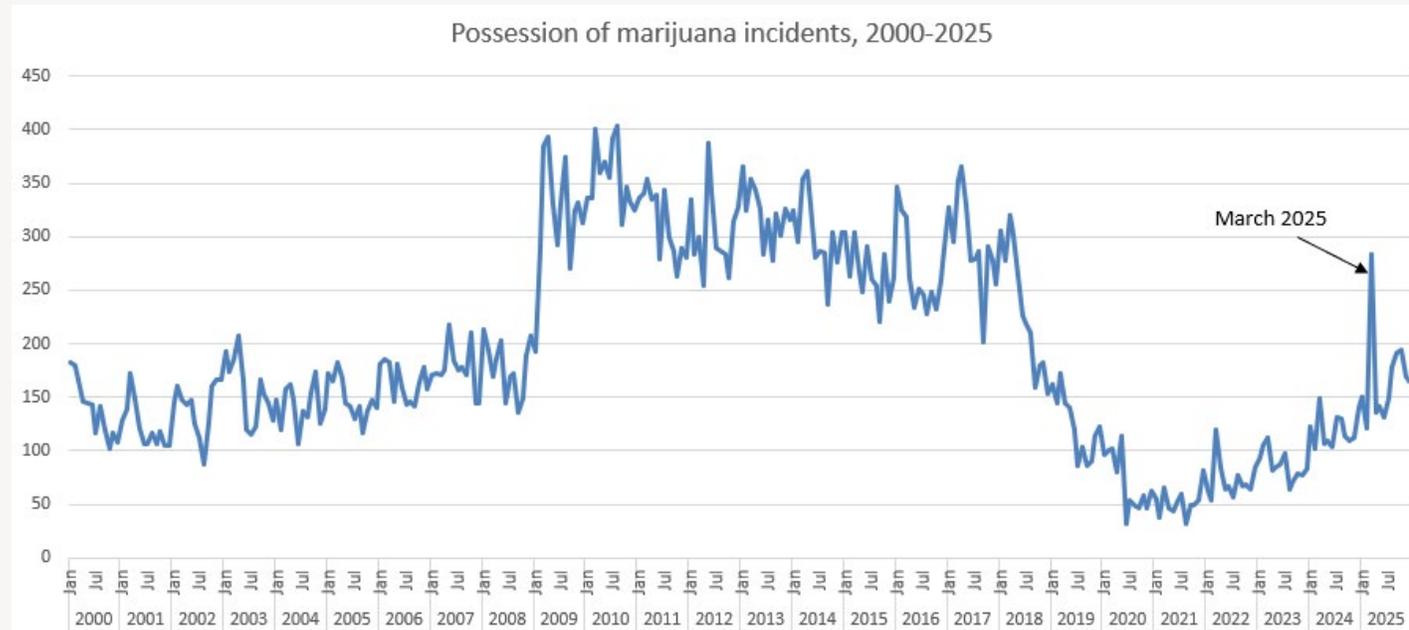

Annual number of incidents of possession of marijuana, with and without other offenses, 2000-2025

Year	Annual POM incidents	Rate per month
2023	1,036	86.3
2024	1,430	119.2
2025	2,012	167.7

Enforcement of marijuana possession laws has increased in recent years

Changes in Possession of Marijuana enforcement

*Monthly number of incidents of possession of marijuana, with and without other offenses, 2000-2025.
A large spike was observed during the SxSW festival during March 2025.*
