

# BETTER COW COOLING.

# AVSONIC

AVSONIC SOAKER SENSOR TECHNOLOGY

WAE2020  
PRESS KIT

## OUR MISSION

**To sustain the dairy industry and its way of life by:**

- HELPING MANAGE WATER USE AND EFFLUENT
- MEETING SGMA AND OTHER WATER AGENCY OBJECTIVES
- REDUCING ELECTRICITY COSTS
- PROTECTING FEED FROM DRIFT
- IMPROVING SYSTEM FLOW AND PRESSURE

## WHY AVSONIC?

1

### CONSERVES WATER

Water is the fundamental resource used in evaporative cooling of animals.

2

### REDUCES ELECTRICITY COST

Water is expensive to pump.

3

### PROMOTES HERD HEALTH & PRODUCTIVITY

Heat stress of dairy cows is common in hot regions and results in productivity and animal loss.

4

### REDUCES LAGOON RUN OFF

Mitigates effluent going to lagoon.

5

### PROTECTS FEED

Prevent unnecessary drift from soaker lines which often degrades feed quality and causes mold.

## KEY FEATURES

Uses existing soaker timer

Operates only when a cow is present

Battery - Operated
