Daylight Savings Time Is Here

Every year Daylight Savings sneaks up on us. We're here to provide you with a reminder to help ensure you aren't the person that forgets to change their clocks and has a tough start to their day.

On Sunday evening, MARCH 13, don't forget to set your clock FORWARD one hour.

This is also a great time to consider some basic but important maintenance.

- Replace batteries in your smoke & carbon monoxide detectors
- Replace expired items in your First Aid kit
- Check flashlight batteries
- Check your furnace and/or air conditioner filters
- Plan your Martha's Vineyard Summer Sail!
