### Disclaimer

1. All figures and calculations are based on the best information currently available.
2. Above information should be solely used as a reference as all Greenbox units are manufactured and designed to meet each customer's need.
3. Greenbox containers are material specific. Actual cubic capacity and rating will vary greatly depending on the degree of customization with utilization of aerators and the angle of the hopper.
4. Application for AAR certification for Greenbox is currently pending.
5. GPH-20 Models (High Cube) are stackable only up to 7 units high.
