

## SUSTAINABLE SHOPPING IN STYLE!

Dalton Park Outlet & Outdoors in County Durham is leading the charge with the first powerPOD in our new NCNI network bringing solar-powered e-bike charging to top tourist spots along the stunning North East coast – safe, off grid storage & charging while you shop!

## powerTRIP<sup>2</sup>: CHARGING IS EVOLVING

Introducing powerTRIP<sup>2</sup>, the newest addition to our range. Charge up to 4 e-bikes or light electric vehicles with the option to add a digital screen for dynamic, on-site DOOH advertising.

Versatile, multi-purpose solar power ☀

## WE'VE BEEN SPREADING THE SUNSHINE!

From Interchange25 in Manchester to the CPC Summit in London, to Anthropy25 at The Eden Project it's been a packed few weeks of sharing ideas, speaking and presenting, and meeting fantastic like-minded people passionate about sustainable change.

## BUILD IT AND THEY WILL COME

Vindolanda Roman Fort have been Riding on Sunshine for almost 2 years now and just look at all the e-bikes queuing up to use their powerPARK! What a great way to explore Hadrian's Wall! We love to see it! :-)

Watch our Vindolanda video [here!](#)

## RIDING ON SUNSHINE IN THE BROADS

In April, the first powerPOD in our new Broads network was installed at Carlton Marshes Nature Reserve, giving visitors the chance to arrive by e-bike and top up with clean, solar energy while they explore this stunning wetland haven. And there's more to come – Reedham Ferry Inn and Salhouse Broad will soon join the network, making it even easier to Ride on Sunshine through this incredible National Park. As Hugh Braidwood from Carlton Marshes puts it: *"PowerPODs make it easier for visitors to reach Carlton Marshes with the environment in mind – a perfect fit for our commitment to nature, climate, and greener travel."* Watch the video [here](#)

## COMING UP

### pod

#### Hexham Community E-Cargo Bike

We're teaming up with Northumberland County Council to give Hexham's community e-cargo bike a new home; a purpose-built, solar-powered powerPOD designed to keep it secure, charged, and ready to roll. Solar-powered takeaway anyone?

### park

#### New powerPARK at Debenham Leisure Centre

Suffolk e-bikers will soon be able to Ride on Sunshine all the way to Debenham Leisure Centre – an inspiring community hub soon powered by clean, solar energy.

### net work

#### 120 Miles of Sunshine – Our New North East Network!

We're rolling out more solar-powered charging across the North-East in partnership with Destination North East England. Next stops include Woodhorn Museum, Alnwick Garden, Segedunum Museum, Beach House Hotel in Seahouses, and Hauxley Wildlife Centre! Sun, Sea & Sustainable Tourism 🌱
