

Name: _____

Client #: _____

Pre-Treatment/T1 Rater: _____

Pre-Treatment/T1 Rating Date: _____

Post-Treatment/T2 Rater: _____

Post-Treatment/T2 Rating Date: _____

VRS Score Sheet

2nd Edition

Static Predictors

						<u>I or N*</u>
S1	Current Age	0	1	2	3	_____
S2	Age at First Violent Conviction	0	1	2	3	_____
S3	Number of Pre-Adult Convictions	0	1	2	3	_____
S4	Violence throughout Lifespan	0	1	2	3	_____
S5	Breaches of Legally Mandated Conditions	0	1	2	3	_____
S6	Stability of Family Upbringing	0	1	2	3	_____

Total Static Score Pre-Treatment/T1 Rating: _____

Total Static Score Post-Treatment/T2 Rating: _____

The Post-Tx/T2 score differs from Pre-Tx/T1 only if S1 or S5 have changed

** If it is necessary to omit rating a Static or Dynamic Predictor, the rater should indicate whether the omission is because there is insufficient information (I) or because the item is not applicable (N).*

Stages of Change:P/C = Precontemplation/Contemplation[†]

P = Preparation

A = Action

M = Maintenance

Symbols to Use:**O** = Pre-treatment**X** = Post-treatment**# of Stages Changed:**

No change = 0

1 stage = .5

2 stages = 1.0

3 stages = 1.5

[†] For treatment purposes, specify whether the individual being assessed is in Precontemplation or Contemplation Stage by circling (O) or marking (X) for the 'P' or 'C' stage for pre- and post-treatment, respectively.

^{††} If there is a deterioration during treatment, the 'b' score is added to the 'a' score for the corresponding Dynamic Predictor.
For items with no SOC rating, insert the Post-Tx/T2 rating in the Post-Tx/T2 column.

⁺⁺⁺ Insert the D20 Post-Tx/T2 rating.

⁺⁺⁺⁺ Insert Total Change Score here (i.e. Pre-Tx/T1 Total score (Static + Dynamic scores) minus Post-Tx/T2 Total score (Static + Dynamic scores).
Insert the Pro-Rated Total Scores as applicable.
