Shawn Rodriguez: Imprisoned for 20+ Years for Crimes He Didn't Commit!

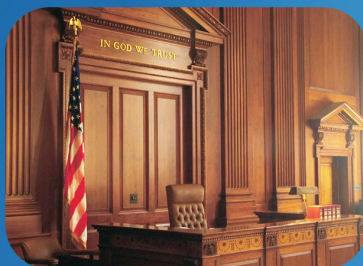

Discover the shocking truth about Shawn's wrongful conviction and his ongoing battle for freedom. He was falsely accused of a kidnapping he wasn't even there for and a "conspiracy" to commit murder which he bravely sabotaged. Unbelievably, jurors themselves admitted in writing that Shawn had NO intent to kill. Yet, despite unanimous agreement, he was still found guilty due to pressure from courtroom authorities.

Worst of all, the only victim in the case has admitted repeatedly to lying during the trial about how close to death he was. He led jurors to believe he almost died when the truth is his only "injury" was being a little bit cold. Placer County authorities have swept this repeated confession of perjury under the rug over and over again. Meanwhile, Shawn remains imprisoned despite the fact that no one was physically harmed and the only victim - whose life Shawn actually saved - has trouble telling reality from his paranoid schizophrenia delusions and is an immoral man capable of molesting children and lying under oath in a court of law. What's most disturbing is how little Placer County authorities have done to right this wrong despite multiple requests through the courts to do provide relief to Shawn.
