top image BLIND CORNER WITH LEMANS SWING-OUT Wasted corner no more! Make the most of an awkward space, while keeping it easily accessible.

bottom image METAL DRAWER
Keep contemporary consistency with metal drawers
that handily coordinate with slide-out trays.

top image METAL SLIDE-OUT TRAYS
For a contemporary vibe, choose full-extension, soft-closing slide-out trays to accentuate your modern space.

bottom image PUSH-TO-OPEN

Love a streamlined look? Our push-to-open latch eliminates
the use of decorative hardware of opening doors with ease.

right image GLIDE-BY DOORS
Sleek design is a smooth operator with our glide-by doors that seamlessly bypass without intrusion into your space.

EFFORTLESS ELEGANCE.

OR SO IT SEEMS.

ORGANIZING WAS SUCH A GOOD IDEA! WHY DIDN'T WE DO IT SOONER?

Anonymous

We don't know who said it, but they were right!

BUILDING A PASSION FOR WHAT WE DO.

I. IN THE BEGINNING.

We start with raw wood. Lumber—in board feet and a variety of species—right off the truck and into our Rough Mill. This is where your cabinetry begins. Meticulously sorted, expertly milled and then hand-crafted into a work of art.

$\begin{tabular}{ll} \bf 2. \\ \begin{tabular}{ll} \bf THE \ BEST \ TOOLS \ OF \ THE \ TRADE. \\ \end{tabular}$

Selecting the best tool for a task doesn't always mean choosing high technology. At Omega, we match device to assignment, knowing that often, time-honored methods are best.

OUR PEOPLE ARE OUR GREATEST ASSET.

Skill and sensibility is what makes our product great.

The human touch that goes into every piece with precision and thoughtfulness is non-negotiable.

FURNITURE QUALITY AS STANDARD.

We build cabinetry on the order of fine furniture. Expect dovetailed joints on drawers, drawer glides that move quickly and smoothly, and gently close with a push of a fingertip.

CARE AND CRAFTSMANSHIP, IT'S OUR BOTTOM LINE.

Painstaking care with an eye for detail, it's evident in everything we do.

We value the folks that build our products, and you'll appreciate
the conscious effort applied to every project.
