Ellendel School Book Club - Discover, Imagine and Explore

We are looking forward to starting our weekly inclusive and engaging programme which is open to readers of all levels. We hope that the club will be a fun and educational way to foster a love of reading by creating a supportive and positive environment where students can explore literature at their own pace. Groups will be organised based on age and reading ability, ensuring each child is both challenged and supported.

How it Works

- Weekly online sessions via Zoom
- Monthly themed reading lists sent to students
- Small group of up to 6 per class
- Collaborative sessions
- £9.50 per child per session
- Full report/feedback about student's engagement and progress each term upon request

English & Creative Writing Classes Ellendel School: Autumn Term

Students will be able to choose their own books, allowing them to explore genres and stories that interest them. Additionally, we will provide recommended reading lists tailored to different age groups and skill levels to inspire and guide their selections. The sessions will include discussions, reading aloud practice and storytelling to encourage creativity and comprehension.

Whether your child is a reluctant reader who needs encouragement or an avid reader looking for new challenges, our book club is designed to meet them where they are. We aim to create a positive, relaxed and enriching experience that helps every student develop a lifelong love of reading.

- If your child is interested in joining, please email us: info@ellendel.co.uk and let us know their age, reading habits, and available days. We will send more details and group assignments based on the responses we receive.
- This club is open to all Ellendel students and students who do not already attend the school. We look forward to meeting everyone weekly in our book clubs!

The Benefits of joining a book club:

- Fosters a love of reading
- Builds confidence by supporting readers of all levels
- Enhances critical thinking by promoting discussions that develop comprehension and analytical skills
- Encourages social interaction where students can share ideas and make friends
- Supports life long learning as it instills a habit of reading that benefits academic growth and personal development
- Students learn how to present their views and opinions effectively
- Builds good conversational skills
