ABOUT OUR COMPANY

GOCOM Systems and Solutions Corporation is an Information and Communications Technology (ICT) company specializing in delivering comprehensive Solutions and Services to organizations across various industries.

Established on August 9, 2012, in Makati City, the company has since expanded its capabilities and expertise to meet the evolving demands of modern businesses.

We provide not only robust network security solutions but also a wide range of IT infrastructure services designed to support both SMBs and large enterprises. Our continued growth has enabled us to enhance our offerings and develop more cost-effective, scalable, and innovative solutions that address the dynamic IT requirements of today's organizations.

A decorative graphic at the bottom of the page. It features a teal rectangular area on the left containing the text "IT SOLUTIONS", "MAINTENANCE", and "MANAGED SERVICES" in white, uppercase, sans-serif font. To the right of this area is a photograph of a modern glass skyscraper, viewed from a low angle looking up, with the sky visible through the windows.

BOARD OF DIRECTORS

ALLENE O. GONZALES

Chairman

With over 27 years of experience in the technology and legal sectors, Allene brings a rare blend of technical expertise and strategic legal insight to the helm of our organization. Appointed in February 2025, he leads with a vision grounded in innovation, compliance, and operational excellence.

He holds a Juris Doctor degree from Arellano University (2017), complementing his foundational training in Computer Engineering from Mapua Institute of Technology (1998). This dual-discipline background empowers him to navigate complex regulatory landscapes while driving digital transformation across the enterprise.

His career spans leadership roles in both domestic and international markets, including:

- **Technical Manager**, Westcon Solutions Philippines (2012–2013): Spearheaded technical operations and client solutions in enterprise IT.
- **Business Development Manager**, Automated Technologies Inc. (2009–2012): Led strategic growth initiatives and market expansion.
- **IT Consultant**, Emerio Globesoft Singapore (2007–2009): Delivered high-impact consulting services to multinational clients across Southeast Asia.

As a Filipino national with deep roots in the local industry and a global perspective, he continues to shape our company's trajectory with integrity, foresight, and a commitment to excellence.

ABIGAIL T. TUBONGBANUA

Corporate Secretary

Abigail is an accomplished HR and operations leader with a proven track record of driving organizational success through strategic vision, business insight, and empathetic leadership. With over eight years of experience in human resources and more than two decades of entrepreneurial management, she demonstrates a rare blend of people-centric leadership and sharp business acumen.

Strategic Leadership

- **Visionary Direction:** Spearheaded company-wide initiatives that foster accountability, responsibility, and professional growth, aligning employee development with organizational goals.
- **Policy Implementation:** Led the completion and rollout of comprehensive company policies, ensuring clarity, compliance, and consistency across operations.
- **Change Management:** Guided teams through organizational transitions with clear communication and motivational strategies that improved retention and morale.

Business Acumen

- **Operational Excellence:** Designed and implemented efficient HR systems tailored to company needs, streamlining workflows and strengthening record management.
- **Entrepreneurial Success:** As proprietor of Living Concepts Furniture, managed end-to-end business operations—from vendor relations to customer service—sustaining profitability and growth for over two decades.
- **Marketing Expertise:** Coordinated nationwide campaigns at STI Education Services Group, demonstrating skill in brand positioning and large-scale project execution.

People-Focused Leadership

- **Employee Engagement:** Developed motivational communication strategies that significantly improved employee retention and engagement.
- **Coaching & Development:** Initiated employee development programs that enhanced skills and performance, cultivating a culture of continuous learning.
- **Conflict Resolution:** Applied empathy and mediation skills to resolve workplace challenges, strengthening trust and collaboration across teams.

Distinctive Value

Abigail's career reflects a consistent ability to balance strategic foresight with operational detail, ensuring both organizational growth and employee well-being. Her leadership style is defined by compassion, clarity, and results orientation—qualities that inspire teams while delivering measurable business outcomes.

GLENN PAUL P. CACANINDIN

Treasurer

Appointed in February 2025, Glenn brings nearly two decades of experience in client engagement, technical pre-sales, and strategic growth initiatives. With 19 years in the field, he plays a critical role in expanding our market reach, forging key partnerships, and aligning technical capabilities with business objectives.

He holds a Bachelor of Science in Information Technology from Bulacan State University, graduating in 2006. As a Filipino national with a strong foundation in both technical and customer-facing roles, he combines analytical precision with a deep understanding of client needs to drive sustainable growth.

His career highlights include:

- **Sales Director of GOCOM** (present): Has driven the growth and direction of the sales team, championing innovative solutions and service excellence that strengthen customer partnerships.
- **Senior Pre-Sales Engineer**, Automated Technologies Inc. (2009–2012): Led solution design and client presentations, bridging technical requirements with business outcomes.
- **Technical Support Engineer / Onsite Engineer**, Ansi Information Systems, Inc. (2006–2008): Delivered frontline support and onsite deployment services, ensuring seamless client operations.

His leadership is defined by a proactive approach to business development, a keen eye for emerging opportunities, and a commitment to delivering value through innovation and collaboration.

DOMINGO “JUN” S. ORTIZ JR.

Board Member

Jun brings over two decades of hands-on experience in systems engineering, network administration, and enterprise IT solutions. With 24 years in the field, he plays a pivotal role in shaping our technical strategy, driving innovation, and ensuring operational excellence across all platforms.

He earned his Bachelor of Science in Computer Engineering from Lyceum of the Philippines University in 2001, laying the foundation for a career marked by technical rigor and client-focused delivery. As a Filipino national with deep industry roots, he combines local insight with global standards to lead high-performance teams and deliver scalable solutions.

His professional journey includes:

- **Technical Director of GOCOM** (present): he has led the technical division with strategic vision and operational excellence, ensuring the consistent delivery of superior solutions and exceptional service to the company's growing customer base.
- **Technical Consultant**, Westcon Solutions Philippines (2012–2014): Delivered expert guidance on infrastructure deployment and system integration.
- **Account Customer Engineer**, Automated Technologies Inc. (2006–2012): Managed client accounts with a focus on technical support and service optimization.
- **System/Network Support Administrator**, Qassim Cement Corporation (2004–2005): Oversaw critical network operations and support services in a multinational setting.

His leadership is defined by a commitment to excellence, technical precision, and a forward-thinking approach that keeps our company at the forefront of digital transformation.

JUAN LUIS FAUSTO B. TUBONGBANUA

Board Member

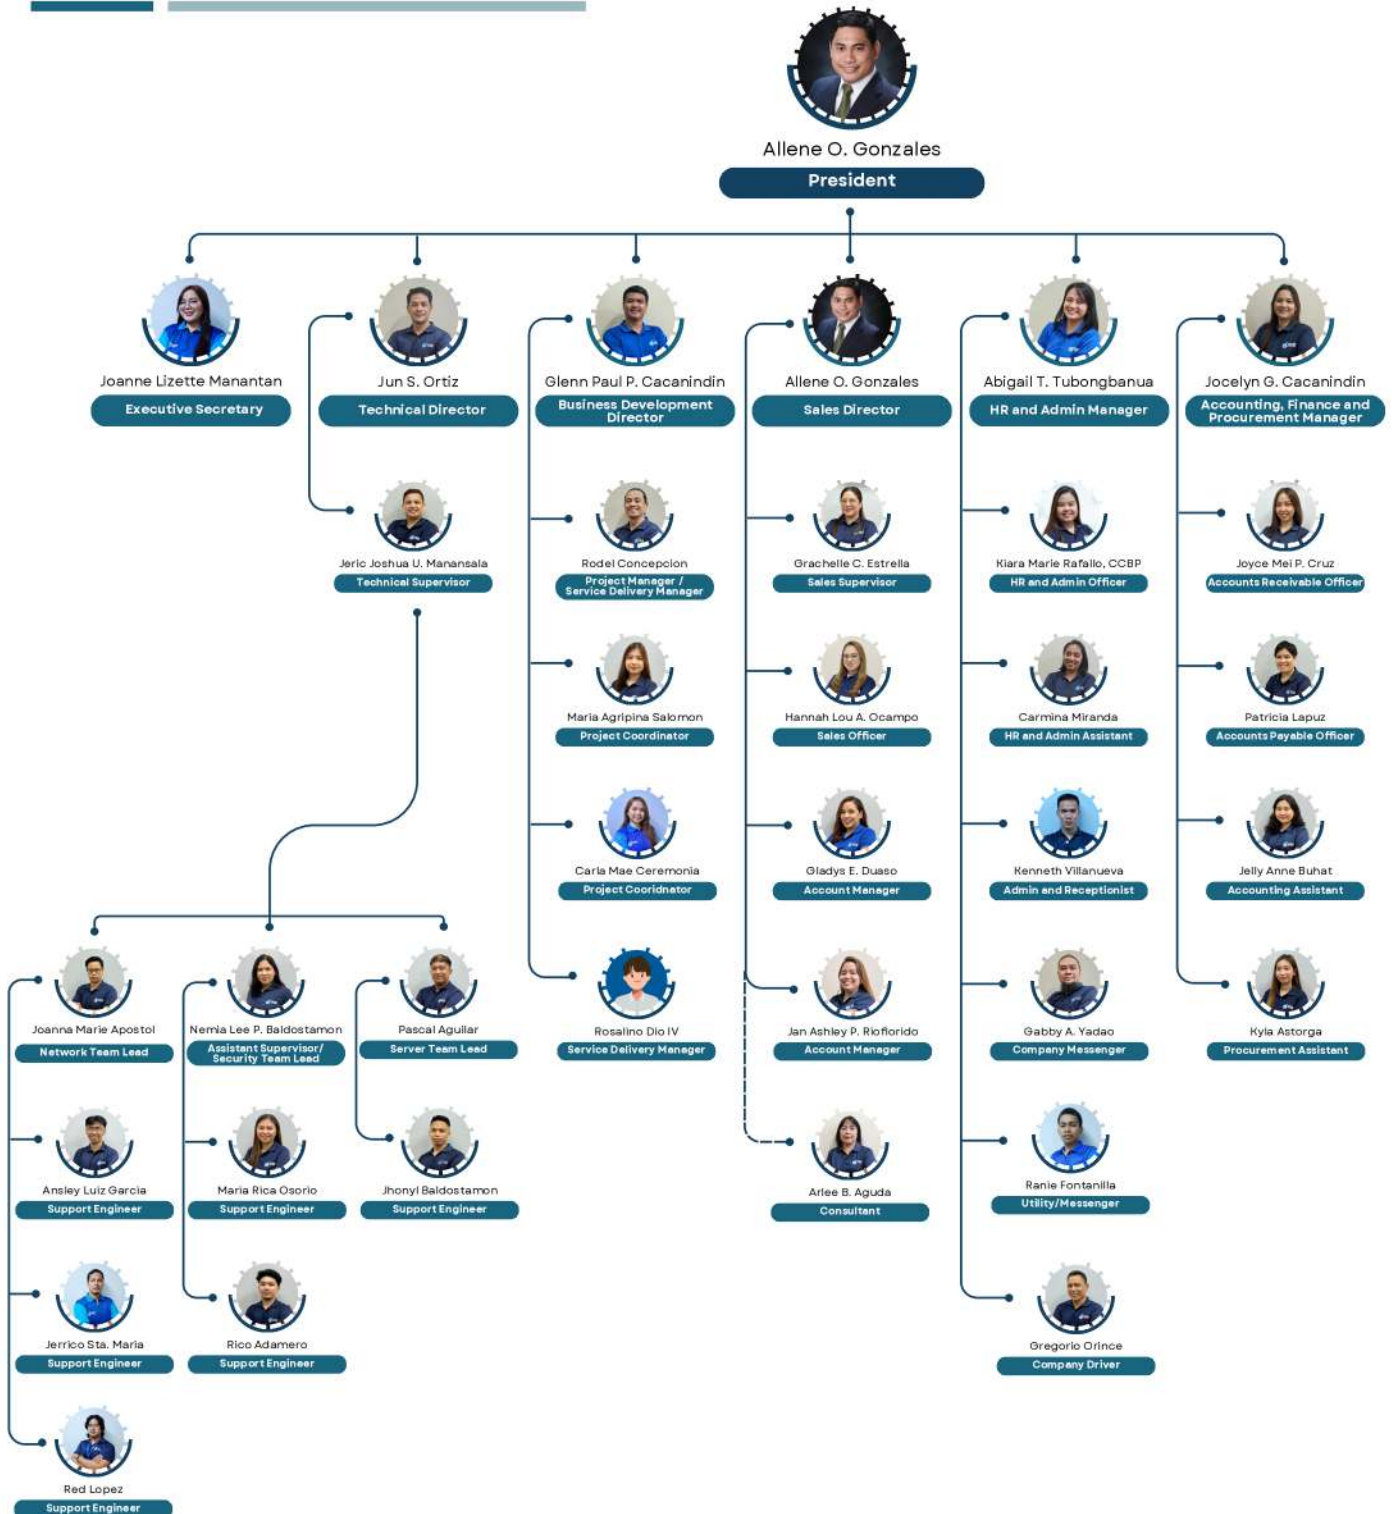

John is a seasoned executive with over 30 years of leadership experience spanning information technology, education, human resources, and facilities management. As Vice President for Corporate and Information Services at STI Education Services Group, Inc., he has played a pivotal role in shaping the organization's strategic direction, operational efficiency, and academic excellence. As one of GOCOM's founder, he has provided leadership and strategic thinking during the company's growth years.

His career is marked by transformative contributions in multiple domains:

- **Strategic Management:** As one of the co-founders of GOCOM, he has been instrumental in steering the organization from its early startup phase to its position today as a recognized and influential player in the ICT industry
- **Information Technology Leadership:** With over 25 years in IT, he has led enterprise-wide digital initiatives across STI ESG and its affiliated institutions, including Philippine Women's University, West Negros University, Philplans, Philcare, and Philfirst Insurance. His work includes infrastructure modernization, network centralization, cybersecurity & data privacy, and the implementation of mission-critical systems for finance, HR, and school operations.
- **Learning and Development:** A former Assistant Professor at De La Salle University and Global Trainer at Ericsson, he has designed and delivered technical training programs across the Asia-Pacific region. At STI, he reengineered curricula to align with industry needs and spearheaded competency roadmaps for faculty and staff.
- **Human Resources and Organizational Culture:** He established a performance-based culture at STI, fostering collaboration and aligning development programs with strategic goals. His efforts in HR have led to improved employee engagement and streamlined certification processes.
- **Facilities and Asset Management:** He oversaw over ₱5 billion in campus construction projects, ensuring that physical learning environments support both academic and operational excellence.
- **Quality Assurance:** As STI's Quality Management Representative, he led the organization to ISO 9001:2015 certification, embedding a culture of continuous improvement.

His academic credentials include an MBA and a BS in Electronics and Communications Engineering from De La Salle University, along with global certifications from Ericsson AB in Stockholm, and a professional ECE license. His career reflects a rare blend of technical depth, educational leadership, and strategic management—making him a driving force behind GOCOM's growth and innovation

SERVICES

TECHNICAL SERVICE DESK

A choice of 8x5 or 24x7 communication center where end-users can request and receive ICT support. It facilitates fast receiving, recording and resolution of incidents and problems in order to maximize the organization's use of ICT resources. It also addresses broader business needs and increase end-user's technical experience.

MANAGED SERVICES

End-to-end management and support of IT systems, covering monitoring, maintenance, incident response, and ongoing operational support to ensure optimal system performance.

SECURITY OPERATIONS CENTER

Continuous cybersecurity monitoring focused on threat detection, analysis, and incident response to protect information systems and digital assets.

NETWORK OPERATIONS CENTER

24/7 monitoring of network devices, servers, and critical systems to proactively detect issues, minimize downtime, and maintain service availability.

FACILITIES SECURITY OPERATIONS CENTER

Centralized real-time monitoring of CCTV systems to enhance physical security, incident detection, and coordinated response across facilities.

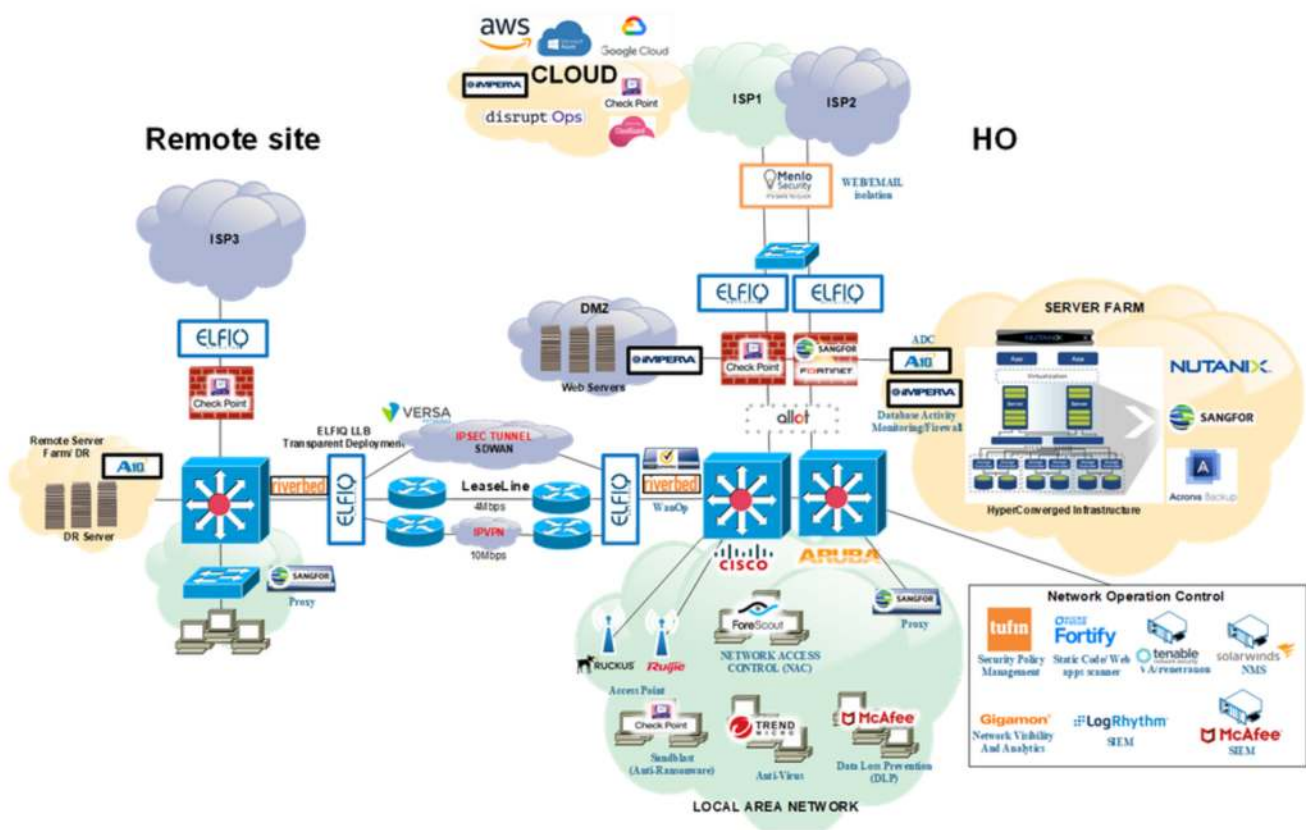

NOTABLE PROJECTS

Over the years, we have successfully delivered complex and high-impact projects across various industries. Our experience spans infrastructure modernization, network security, cloud solutions, systems integration, and managed services, executed with precision, reliability, and a strong commitment to client success.

The following projects highlight our technical capability, industry expertise, and proven track record in delivering scalable, secure, and future-ready solutions.

CLIENT NAME	PROJECT NAME	DATE COMPLETED	PROJECT AMOUNT
National Bureau of Investigation	Acquisition of One (1) Lot Installation and Furnishings of Disaster Recovery Site	December 14, 2020	₱ 24,855,769.36
Maya	Launchpad Corporate Data Network Refresh	December 23, 2022	₱ 40,832,680.57
Polytechnic University of the Philippines	Supply, Delivery, Installation, Commissioning and Testing of the Server, High Speed Network Switches and UPS	October 26, 2023	₱ 19,161,452.80
IL & FS Technologies Philippines, Inc.	Zenworks	October 26, 2023	₱ 28,100,000.00
IL & FS Technologies Philippines, Inc.	Opentext Arcsight Security Information Management (SIEM) Solution	March 8, 2024	₱ 38,200,000.00
Department of Social Welfare and Development - Central Office	Procurement of Network Management System (NMS) for Enhancing DSWD's Enterprise Network Performance and Cybersecurity	July 19, 2024	₱ 20,841,628.64
Department of Social Welfare and Development - NCR	Procurement of Internet Service Provider (ISP) for the DSWD Field Office NCR Regional and Sub-Regional Offices	January 6, 2025	₱ 33,700,000.00
Armed Forces and Police Savings and Loans Association, Inc.	AFPSLAI – Core Banking Project “Project Name - Onward”	March 28, 2025	₱ 137,935,911.40
Armed Forces and Police Savings and Loans Association, Inc.	Oracle Software Licenses	September 11, 2025	₱ 24,785,824.00
National Bureau of Investigation	Acquisition of Hyper Converge Infrastructure (HCI) for Data Center	October 30, 2025	₱ 19,999,840.00

PRODUCT LAYOUT

Our product ecosystem is designed to deliver a complete end-to-end IT solution, from infrastructure planning and deployment to security, cloud integration, monitoring, and ongoing managed services. As a systems integrator, we combine best-of-breed technologies with expert engineering to build seamless, scalable, and secure environments for our clients. Our layout highlights how each component (from network, servers, storage, and cybersecurity to cloud and remote site connectivity) works together as one unified, fully supported solution tailored to every organization's needs.
