## Step Up to a Great Workout

Prep for any race or test your fitness with the **Leadout Simulation Group Workout!** This workout will slowly increase your power output--as if you were approaching a finish line! Starting out with a gradual and steady warmup, you will soon be working up a good sweat. From here, you will **test your limits**, gaining more endurance and strength along the way. A similar workout to this is used by pros to train for races like the Tour de France and the Giro de Italia.
